Dear Colleague: Below is a list of publications from the Adverse Childhood Experiences (ACE) Study, plus pending articles. We are involved in analysis in the prospective arm of the Study, which shows the biomedical, emotional, and economic consequences in medical care of abusive childhood experiences, on average a half-century earlier. A book for general readership by journalist Jane Stevens is planned for release in late 2015. You may track future publications or read abstracts by using the free National Library of Medicine web site, http://www.ncbi.nlm.nih.gov/entrez/query.fcgi and entering Anda or Felitti under ‘author name’. Using Google Scholar also works very well, using ACE Study. Information of interest may be found at the web sites www.ACEsConnection.com and at the CDC web site: http://www.cdc.gov/ACE. At the latter site, abstracts may be read by clicking on titles.

Vincent J. Felitti, MD
VJFMDSDCA@mac.com

**Published**

68. Felitti VJ, Anda RF. The Relationship of Adverse Childhood Experiences to Adult Health, Well-being, Social Function, and Health Care. Chapter 8 in *The Effects of Early Life Trauma on Health and Disease: the Hidden Epidemic*; Editors: Lanius R, Vermetten E, Pain C. Cambridge University Press. 2010

Pending Publication

In Clearance
1. Edwards VJ, Holden GW, Anda RF, Dube SR, Felitti VJ. Relations between family dysfunction, corporal punishment, and negative health effects in adulthood.
2. Dhingra SS, Dube SR, Edwards VJ, Felitti VJ, Anda RF. Adult Psychosocial Functioning: Mediators between Adverse Childhood Experiences and Health-Related Quality of Life.

Documentary Videos
Cavalcade Productions in Nevada City, California has produced three documentary videos about the ACE Study, along with a Training Manual. They are for sale and described at their web site, www.cavalcadeproductions.com

Four additional documentary videos focused on the ACE Study are in process and nearing completion.

DVD/CDs of ACE Study presentation
A detailed 4-hour presentation and discussion of ACE Study findings has been created by the Academy on Violence and Abuse and may be ordered at www.avahealth.org

A high quality DVD of a detailed ACE Study presentation, with downloadable slides on accompanying CD, has been prepared by Safe and Healthy Families in Salt Lake City under a federal grant, and is available free, paying $10 for shipping and handling costs. Call them in Utah at 801-265-3180. This same one and one-half hour presentation is also available for free viewing on the Internet at the web site: <rtsp://server.avahealth.org/qtmedia/ACE_Talk-VinceFelittiMD.mov>.

Other presentations are available at:
http://www.albertafamilywellness.org/resources/video/origins-addiction and also at:
http://www.chicagosafestart.net/content/dr-felittis-presentation/100.

A 13-minute video abstract may be seen at: <http://www.youtube.com/watch?v=GQwJCWPG478.> A three-minute video clip is at <http://www.youtube.com/watch?v=GQwJCWPG478>. 
Radio presentations of ACE Study
A 4-part series on Stress and Illness, featuring the ACE Study began in March 2015 on the program All Things Considered. The first two segments may be heard at:
http://www.npr.org/blogs/health/2015/03/02/377569413/can-family-secrets-make-you-sick
http://www.npr.org/blogs/health/2015/03/03/377569539/even-some-doctors-fear-these-10-questions

A set of radio interviews about the ACE Study is at:
http://www.youtube.com/watch?v=NRaNwIdrKuc&feature=SeriesPlayList&p=B3F2CF45EEB95C80 and at http://www.cbc.ca/ideas/episodes/2011/12/13/all-in-the-family/. In the upper left portion of the web site is the sign-in phrase to check: “Listen to All in the Family”

Web Sites
Blogs have been created to share information and opinions about the ACE Study:
ACEsTooHigh.com -- news site about ACEs research and implementation of trauma-informed practices.
ACEsConnection.com -- social network for people who are implementing ACE- and trauma-informed practices.

A general interest web site is at www.ACEStudy.org

Books:
Several books focused on the material of the ACE Study have recently been published, most notably van der Kolk’s “The Body Keeps the Score” and Nakazawa’s “Childhood Disrupted”. Two books about the ACE Study are nearing completion, one by journalist Jane Stevens and one by Nadine Burke-Harris, MD.
