## One of America's leading universities admired for its vision, education and innovation.

The sky's the limit at Western University of Health Sciences. The unique blend of science and compassion has earned the university a national reputation. This thriving, independent, nonprofit, fully accredited graduate institution of health sciences has inspired extraordinary faculty and gifted graduates to impact lives the world over.

Here are just a few of their amazing stories.

In service to humanity since 1977. Visit our website at [www.westernu.edu](http://www.westernu.edu).

*"Skilled hands and compassionate hearts will continue to be the signature of all our graduates – exactly what is needed in health care today."*

– Founding President Philip Pumerantz

**Western University**
