Thirty day free trial available for Lexi-Comp

Lexi-Comp Online provides point-of-care drug and clinical information. Lexi-Comp Online includes:

Databases:

- Lexi-Drugs - Lexi-Comp's most comprehensive drug database.
- Lexi-Drugs International - Covers select drugs available outside of the U.S.
- Pediatric Lexi-Drugs - Specific pediatric drug information, including dosing and pharmacokinetics, to optimize the care of infants and children.
- Geriatric Lexi-Drugs - Targeted content to address the specific needs of older adults.
- Lexi-Natural Products - Reviews the most commonly used natural products and potential interactions.
- Drug Induced Nutrient Depletion - Contains a comprehensive list of potential drug-induced nutrient depletions.
- Nuclear, Biological & Chemical Exposure - Concise, yet comprehensive clinical approach to treatment of these exposures.
- Pharmacogenomics Online - Information concerning key genetic variations that may influence drug disposition and/or response.
- Infectious Diseases - Assists healthcare professionals in the diagnosis and treatment of infectious diseases.
- Poisoning & Toxicology - Detailed toxicology information on drugs, chemicals, and environmental toxins.
- Laboratory Tests - Current information concerning the background and context of laboratory tests.
- Diagnostic Procedures - Detailed descriptions of diagnostic tests and procedures.
- Clinician's Guide to Diagnosis - Practical approaches that lead from symptoms to diagnosis through a series of logical steps.
- Clinician's Guide to Internal Medicine - Quick access to essential information covering diagnosis, treatment, and management of commonly-encountered patient problems in internal medicine.
- Clinician's Guide to Laboratory Medicine - Practical approaches that will walk you from abnormal lab test to diagnosis through a series of logical steps.

Clinical Applications:

- Lexi-Interact - Review all interactions for a selected medication or enter a patient-specific regimen to analyze for potential interactions.
- Lexi-Drug ID - Quickly identify unknown medications based on Imprint, Dosage Form, Shape, and Color.
- Lexi-Pals & Pedi-Pals - Printable, customizable, take-home leaflets that can be provided to patients to explain more about their medications; available in 18 languages.

July 24, 2006

New Proxy Passwords for the fall session will be available on August 7, 2006

The library will be changing the EZ Proxy username and passwords for the fall session on August 7, 2006. Electronic resources are available remotely to Western University faculty, staff, and currently enrolled students. The library must change the proxy passwords at the beginning of every semester to stay within the limits of our electronic resource license agreements. On August 7 you may request a password by sending an e-mail through the [Ask a Librarian](#) form. Or you may call the library at (909) 469-5323, please have your university ID card with you when you call.
