New Library Database: Natural Standard

The Pumerantz Library now has an online subscription to the Pharmaceutical Database Natural Standard. Natural Standard is an international research collaboration that aggregates and synthesizes data on complementary and alternative therapies.

Using a comprehensive methodology and reproducible grading scales, information is created that is evidence-based, consensus-based, and peer-reviewed. Natural Standard provides in-depth coverage of efficacy, adverse effects, interactions, pregnancy & lactation, pharmacology & toxicology, dosing & standardization, and products tested by third-party laboratories.

You may access Natural Standard on or off campus from the Library's [Electronic Resource](#) page under Article Searching and Databases, from our [Pharmacy Research Guide](#) under the Databases - Drug Information subtab, or by copying and pasting this link

<http://proxy.westernu.edu:2048/login?url=http://www.naturalstandard.com/> into your internet browser's address bar. When accessing remotely you will need to log in using your WesternU email username and password.

New Library Database: ACP-Pier with AHFS DI® Essentials

[ACP-Pier](#) is a decision-support tool designed for rapid point-of-care delivery of evidence-based guidance for physicians. Modules focus on the diagnosis and treatment of diseases. AHFS DI® Essentials is designed to offer health professionals easy access to knowledge that is critical at the point of care. Essentials monographs draw on the evidence-based guidelines in the full AHFS DI® database, distilling for the health professional the essential information on prescription and key over-the-counter (OTC) drugs.

You may access ACP-Pier on or off campus from the Library's [Electronic Resource](#) page under Article Searching and Databases. When accessing remotely you will need to log in using your WesternU email username and password.
