

**Western University of Health Sciences
College Of Osteopathic Medicine of the Pacific**

**D.O. Class of 2011
Vision Statement**

I pledge to myself and to all those I touch...

I will continue to pursue knowledge and actively enhance the art of osteopathy throughout my life. I will trust what I have learned and recognize what I have yet to learn. My passion for excellence will be its own reward. I understand that in order to help others I must maintain balance in my own life. I will remain steadfast in my beliefs, but be shaped by my experiences. I will look at myself through the eyes of others.

I will practice medicine with humility and serve with a humanistic philosophy. I will always be an advocate for my patients and treat them with compassion. I will strive to create a dynamic patient-physician relationship and use my healing touch to empower both my patients and myself.

Healthcare is a human right and I understand it is my responsibility to provide this care to the best of my ability. I will endeavor to be a leader by maintaining my integrity and holding myself accountable for my decisions. I will respect the opinion of my colleagues so as to promote teamwork among all healthcare professionals. I will hold sacred the trust my community bestows upon me and my profession.
