**Financial Aid Disbursement date is contingent upon student's registration date. If student is not registered by the registration deadline for their program/year, financial aid disbursement may be delayed.*

***DVM 2010 students have the option of starting classes later than the published class start date. For those students, the proof of insurance due date is 30 days from the start of their first rotation. The tuition due date and financial aid disbursement dates are also impacted. Please contact the Bursar's Office and/or Financial Aid Office for additional information.*
