SAFETY TIPS FROM BRETT BOSTON – INCIDENT REPORTS

Why should we do “incident reports”? If you sustain a work-related injury on campus and that minor injury becomes more complicated, it is much easier to convince Workers Comp that your injury is work related, and you are therefore covered under University Workers Comp Insurance. Another reason is that your injury may be part of a pattern of injuries that we need to recognize in order to prevent anyone else from becoming injured.

It is very important that you contact one of our security guards, Environmental Health & Safety at extension 5528, or Rick Management at extension 5452 and make sure that an incident report is completed.
