**STREAM/BLOCK TRADING FORM- 2009-2010**

The Rules: A student can swap/trade whole streams with someone (example stream #1 for stream # 45). Switching individual clinical sites/courses is possible if they are in the same block and have same course number (example: Small Animal: Private Practice VCA Upland for Small Animal: Private Practice Huntington Beach); and after trading more than one 2 week block both students end up with 16 different courses. For the Small Animal Practice courses all students must have one ER, one Private practice, one Banfield clinical site and one Shelter Medicine (on campus Banfield site). Once an individual course site or a quarter has been traded, it is not possible to swap streams with someone. Trading streams and blocks may occur after May 30th, 2009 but will be done on a documented hardship basis ( e.g. child/elder care, family emergency, illness, etc.). However, all trading must be completed 8 weeks prior to the starting day of any block.

Trading streams and blocks will require both students filling out this form and communicating the transaction to Ms. Denisha Jenkins, Administrative Assistant for Clinical Programs.
