## Clinical Preceptor Evaluation of Third year Student Livestock courses

**Proficiency rating:** The following categories are used to evaluate student's performance **at the end of the two-week course:**

**1-Rarely:** Very problematic, area of grave concern. Performance is consistently poor for a 3rd year veterinary student.

**2- Occasionally:** Performance needs improvement. Student has not yet gained personal command of the skill.

**3- Most of the time:** Performance of skill meets requirements: it is a good, solid performance, done most of the time as normally expected of a 3rd year student.

**4- Almost always:** Performance of skill often exceeds expectations, is consistently excellent (i.e. above average) for a 3rd year veterinary student
