We, the WesternU DO class of 2018, will create a culture of teamwork that prioritizes the treatment of patients, collaborates to create joint success, and supports one another. As student physicians, we shall always strive to act with integrity, and to conduct ourselves in a way that brings pride upon the WesternU community, and the medical profession as a whole.

We will develop habits that promote lifelong learning while maintaining healthy and successful relationships with colleagues, family, and friends. We will elicit a positive change on the medical profession through leadership and direction with integrity, knowledge, humility, and compassion. We will maintain a culture of honesty and openness while respectfully serving as advocates for the health and wellbeing of our future patients.

We understand that to reach our goals it will require hard work, perseverance, and a drive towards excellence with a zest for life.
