We, the DO Class of 2019, vow to be compassionate physicians with the deepest loyalty and respect for our future patients.

We will commit to serve not only our patients, profession, and families, but also ourselves as we maintain balanced minds and nourished hearts.

We will strive to be life-long learners who advocate for our communities and promote wellness through the Osteopathic tenets.

We appreciate that this road will be difficult, but with perseverance and support from our WesternU family, we will engage and move past the restrictive barriers to live long and prosper.
