

# DynaMed Mobile App Download Instructions

## **If you are a DynaMed Plus App User:**

If you have the DynaMed Plus mobile app and have automatic updates enabled on your phone, you will be automatically updated to the new DynaMed mobile app. If you do not have automatic updates enabled, you will see a notification in your respective application store alerting you to an update, when available.

## **If you Are a DynaMed App User:**

If you have the DynaMed mobile app (for the original version of DynaMed), you will not be updated to the new DynaMed mobile app. You can find the new version by searching for DynaMed in the Apple App Store or Google Play Store. In September of 2019, the original DynaMed mobile app will no longer be supported.

## **If you Don't Have Any Version of the DynaMed App:**

If you do not currently have the mobile app, don't worry! After you set up your personal user credentials on [DynaMed](#), you can search for DynaMed in your mobile app store of choice, download the mobile app and begin using it with your new personal user credentials. [Click here](#) for instructions to creating a personal user account.
