

Congratulations, Western University College of Optometry Class of 2020!

What an accomplishment. Conquering optometry school is not an easy feat - let alone during a global crisis. You have achieved something incredible in itself, with the added weight of this unusual challenge we are all facing on top. Excitement and pride are just a couple of the emotions we're sure you are experiencing, along with the bittersweet feeling of a chapter coming to an end.

It's a chapter that was marked by long hours in the library, where study groups turned into lifelong friendships. One where days in the clinic built your confidence and taught you that some lessons can't be learned in textbooks. It's a chapter that produced a mountain of memories and laid an excellent foundation upon which to build your career. But this next chapter is one that will be full of even more joy, growth and triumphs.

You're joining our profession in one of the most significant times our industry has ever known. Be proud that you have chosen such an important career path. Being a healthcare provider is more critical than ever, and in your role, you'll make a lasting impact on the lives of countless patients.

As you decide where you'll start your professional career, we welcome you to join us in our mission. While we temporarily closed all of our stores to the public due to the COVID-19 pandemic, we are proud to share that nearly all of our stores have now re-opened and Optometrists are back in offices providing vision care services - care that we believe is more essential now than ever. There are areas of need and opportunity throughout our network, and we continue to contract Optometrists for locations nationwide. If you're still exploring your next step after graduation, take a moment to review the following page with a list of employment and sublease openings that are ready to be filled immediately by outstanding ODs like you.

We wish you a happy, healthy and prosperous future as you take the next step in your life as a licensed Optometrist. Congratulations on your achievements! We look forward to seeing the impact you make on the world.

On Behalf of the National Vision Team,

William Werner Jr., OD
Director, Student Relations
