

**Western  
University**  
OF HEALTH SCIENCES

College of  
Optometry

# Rehabilitation Residency Positions Available

**Western University of Health Science's, College of Optometry (WUCO)**

invites you to consider applying for the Vision Rehabilitation Residency program. This program will provide a broad scope of training in various areas of vision rehabilitation (Neuro-Optometric Rehabilitation, Low Vision Rehabilitation and Vision Therapy) during a one-year program. The curriculum is designed to offer two residents the fullest clinical experiences in these uniquely specialized optometric fields and to prepare them for practice in a variety of clinical settings including rehabilitation hospitals/clinics, academia and private practices with a specialty emphasis.

The residency faculty preceptors have decades of clinical and educational expertise in their areas of vision rehabilitation and have trained not only optometrists but also other health care professions in the collaborative care of mutual patients.

**Starting July 1, 2022**

**Category: Vision Rehabilitation**
