Willed Body Program
DONOR PACKET INTRODUCTION & INSTRUCTIONS

Dear Applicant,

Thank you for your interest in donating to the Willed Body Program (WBP) at Western University of Health Sciences. Your generous gift enables us to better instruct our medical students by providing a realistic human anatomy experience, and to further important research. Two or more years are often required to facilitate adequate preservation, study, dissection, cremation, and disposition of cremated remains. The WBP practices only full-body donation, not organ nor tissue donation. Enclosed in this packet you will find the following forms:

- **Release of Remains** - Gives the Willed Body Program permission to transport donor from place of death (within 100 miles) to the University (Only required by certain hospitals/facilities).
- **HIPAA Release** – Provides valuable medical information from health care facility to the University, to provide a case history as to pathological conditions the donor may have had (This form is voluntary, and refusal to sign does not preclude donation).
- **Gift Document** – Bequeaths the donor body to the Willed Body Program, and gives us permission to embalm and otherwise prepare the donor for study.
- **Personal Data Sheet** – Provides important vital statistics that are necessary for filing the death certificate and acquiring the disposition permit from the county of death and the State of California.

Please mail the completed Donor Packet to the Willed Body Program ([Attention: Willed Body Program](mailto:WilledBodyProgram@westernu.edu)), at 309 E. 2nd St. Pomona, Ca. 91766. The Director of the Willed Body Program will determine eligibility and notify the applicant of acceptance or rejection. For those donors ACCEPTED into the program, they will receive an acceptance letter and donor wallet card. For those donors DECLINED, it is due to stringent guidelines that allow the Willed Body Program to select only those donors that will remain well-preserved and viable for prolonged study, and that are safe for our students to dissect.
