

APhA Pharmacist & Patient-Centered Diabetes Care Certificate Training Program

Zoom Online Presentation

September 14 & 16 Zoom

6:30pm-9:30pm

September 18 in person

*(WesternU 8am-12pm 1 hr appointments)

Class Overview

The American Pharmacists Association (APhA) developed *The Pharmacist and Patient-Centered Diabetes Care Certificate Training Program*, is an educational experience designed to equip pharmacists with the knowledge, skills, and confidence needed to provide effective, evidence-based diabetes care. The program provides comprehensive instruction in current diabetes concepts and standards of care and incorporates case studies and hands-on skills training focused on the situations most likely to be encountered—as well as the services most needed—in community and ambulatory care practice settings. Participants will gain experience evaluating and adjusting drug therapy regimens for patients with type 1 and type 2 diabetes, counseling patients about lifestyle interventions, analyzing and interpreting self-monitoring of blood glucose results, and assessing the overall health status of patients to identify needed monitoring and interventions.

Goals and Learning Objectives

The goal of The Pharmacist and Patient-Centered Diabetes Care is to teach the pharmacist how to integrate diabetes education and management into practice. This overriding goal incorporates the goal of pharmaceutical care, which is to ensure that patients make the best use of their medications and achieve the desired therapeutic outcomes.

Specific program goals are to:

- Provide comprehensive instruction on current standards of care for patients with diabetes.
- Increase pharmacists' ability to apply pharmacotherapeutic information and serve as the drug therapy expert on the diabetes health care team.
- Refresh pharmacists' knowledge of the pathophysiology of diabetes and the acute and long term complications of the disease.
- Familiarize pharmacists with important concepts in nutrition, exercise, and weight control that contribute to optimal diabetes care.
- Provide training on the use of diabetes-related devices and physical assessments involved with optimal diabetes care.
- Describe business opportunities and roles for pharmacists in improving health outcomes for patients with diabetes.

This ACPE activity does not provide a certification in this topic but rather advanced professional training which upon successful completion the learner will be able to download a certificate of achievement.

Accreditation Information

Activity Type: Application and Practice-based

Target Audience: Pharmacists in all practice settings

The American Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. The Pharmacist and Patient-Centered Diabetes Care certificate training program is approved for a total of 23.0 contact hours of continuing pharmacy education (CPE) credit (2.3 CEUs). The ACPE Universal Activity Numbers (UAN) for this activity are listed below.

- Successful completion of the **self-study component** involves passing the self-study assessment with a grade of 70% or higher and will result in 15 contact hours of CPE credit (1.5 CEUs). **ACPE UAN: 0202-0000-18-121-H01-P / 0202-9999-18-121-H01-P**
- Successful completion of the **live online seminar component** involves attending the full live seminar, successfully demonstrate competency in the utilization and/or evaluation of these devices and completing the online assessment and evaluation. Successful completion of this component will result in 8 contact hours of CPE credit (0.8 CEU). **ACPE UAN: 0202-0000-18-122-L01-P / 0202-9999-18-122-L01-P**

How to Register & What to Expect

To register and receive CE credit for this course you must visit <http://pharmacyce.westernu.edu>. If you have any problems with this process, please contact Renee Cook at rcook@westernu.edu.

- Log in or create an account
- Create a profile (if not already done)
- Click on the submit link at the bottom of profile page
- Click on "Click Here to Register for Upcoming Courses"
- Click on **September 14** "APhA Pharmacist & Patient-Centered Diabetes Care Certificate Training program"
- Click on Continue Registration at the bottom of the page (if you have a discount code, enter it into the box below the cost of the course)
- Once you are in WesternU system, you will only need to log in and sign up for future courses
- Watch for an email confirmation with instructions on how to access the home study materials once you pay the fees
- Access your home study materials and complete ALL required items BEFORE the online live training program
- Attend the online training program & receive instructions on accessing the final exam
- Complete/pass the final exam within one week of the live training program to receive your certificate

To obtain 23.0 contact hours of CPE credit (2.3 CEUs) for APhA's The Pharmacist and Patient-Centered Diabetes Care certificate training program, the learner must complete all components listed above, and CLAIM credit for each component. Participants will need to have a valid APhA (pharmacist.com) username and password, as well as a CPE Monitor account to claim credit. After credit has been claimed, please visit CPE monitor for your transcript. The Certificate of Achievement will be available online upon successful completion of the necessary activity requirements on the participant's My Training page on www.pharmacist.com.

APhA continuing pharmacy education policy provides you with two opportunities to successfully complete the continuing pharmacy education assessment. Please note that you will not be permitted to submit the assessment a third time. The current policy of the APhA Education Department is not to release the correct answers to any of our CPE tests. This policy is intended to maintain the integrity of the CPE activity and the assessment.

Release Date: January 31, 2018

Expiration Date: January 31, 2021 - PLEASE NOTE: NO Home Study credit granted after this date; Live Credit can only be granted within 60 days from the day of the seminar attended.
