Program Description

This two-year Pharmacoeconomics and Health Outcomes Research (PEHOR) Fellowship Program is designed to provide comprehensive training for the post-doctoral fellow to conduct evidence-based research for optimal economic, clinical, and health-related quality of life outcomes. The fellowship will provide knowledge and experience in grant writing, study design, outcomes research methodology skills, statistical analysis, abstract preparation, presentation of research at national meetings, and manuscript preparation and publication. The fellow is expected to design and conduct his/her original research and participate in ongoing health economics and outcomes research projects. The fellow's principal training sites will be at Western University of Health Sciences (90%) and the VA Loma Linda Healthcare Center (10%). To a limited degree, the fellow will participate in didactic and clinical education of PharmD students at WesternU, College of Pharmacy.
