

## What We Do

### People

Creating a culture of excellence that fosters a spirit of humanism, inclusion, trust and appreciation.

### Programs

Academic courses and curricula that provide a pipeline of exceptional healthcare professionals in service to their communities.

### Practice

Clinical services, experiences and education that prepare students for patient care and to support wellness in our communities.

### Platforms

Digital and human resources that support learning, career development, academic success and patient care.

### Processes

Transactional and operational systems that are key to the support and success of our people and programs.

### Policies

Regulatory committees and compliance standards that protect and preserve our mission.
