College of Health Sciences

**Doctor of Physical Therapy (DPT)
2020/2021 Catalog**

COVID-19 Impact

The contents of this 2020-2021 catalog reflect standard operating conditions for the academic year. However, the global COVID-19 pandemic has resulted in a rapidly changing environment for higher education, and Western University of Health Sciences will respond to those changes in the interest of the health and well-being of all our students, faculty, staff and administration. Changes to policy, procedure and practice may be necessary from time to time, and these changes will be published using typical communication channels, including mail, email, publication to the university web site, press releases, and other channels as deemed appropriate. These changes may supplement and supersede any inconsistent provisions found in this Catalog.

College of Health Sciences

Mission

The mission of the College of Health Sciences parallels the humanistic traditions of Western University of Health Sciences. We are a team of educators, clinicians, and researchers who prepare graduates to improve the health and wellbeing of all populations.

Goals

1. To educate an allied health workforce that helps to meet the healthcare and educational needs of the State of California and the west.
2. To achieve an environment and culture that supports all members of the College.
3. To ensure an environment and culture that empower all persons in the College to maximize their potential as contributing members in the education of students, in research and clinical activities, and in service to the community.

Doctor of Physical Therapy

Department of Physical Therapy Education

Accreditation

The Doctor of Physical Therapy (Professional) program in the Department of Physical Therapy Education at Western University of Health Sciences (WesternU), College of Health Sciences, is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-706-3245; email: accreditation@apta.org; website: www.capteonline.org.

Accreditation indicates that the institution and program have been carefully evaluated and found to meet standards agreed upon by qualified educators. The Western University of Health Sciences Doctor of Physical Therapy program (Professional) is accredited through June 30, 2029.

Filing a Complaint with CAPTE

Any person may file a complaint with CAPTE if that person believes that the Department of Physical Therapy (Professional) program is failing to fulfill its commitment to CAPTE accreditation standards. To file such a complaint, follow this link: <http://www.capteonline.org/Complaints/>.

General Information

Mission Statement

The WesternU Department of Physical Therapy Education supports and implements the mission of the University and College; to accept and educate a group of diverse students to graduate as Doctors of Physical Therapy, charged with enhancing and extending the quality of life in our community through clinical practice and research.

To accomplish this mission:

- We **educate** culturally competent and reflective students who are committed to life-long learning, scientific inquiry, and critical thinking.
- We engage in **scholarly activities** that contribute to the professional body of knowledge and are integrated into our curriculum and interactions.
- We engage in **service** activities within our professional organizations, the institution, and local community.
- We strive to maintain clinical excellence in **contemporary practice** as demonstrated by serving as clinicians and consultants in our multi-cultural society.
- We embrace **innovation** in education, clinical practice concepts, scholarship, and healthcare.
- We promote **humanistic values** of caring, respect, empathy and trust through intentional interactions across diverse cultural groups and among health-care professionals.
- We endeavor to cultivate a diversity of graduates united as experts in **optimizing movement** that transform lives across the lifespan.

Vision

The WesternU Department of Physical Therapy Education will be nationally respected and recognized as an innovative and transformational leader in physical therapy education, clinical practice, and research. As humanistic change agents, our graduates will guide the profession in providing better care for individuals, better health for populations and communities, and lowered cost of health care through continuous quality improvement.

The Physical Therapist Role

Physical therapists (PTs) are health care professionals who diagnose and treat individuals of all ages, from newborns to the very oldest, who have medical problems or other health-related conditions that limit their abilities to move and perform functional activities in their daily lives. Licensure is required in each state in which a physical therapist practices. Physical therapy can be provided only by qualified PTs or by physical therapist assistants (PTAs) working under the supervision of a PT.

PTs examine each individual and develop a plan using treatment techniques to promote the ability to move, reduce pain, restore function, and prevent disability. In addition, PTs work with individuals to prevent the loss of mobility before it occurs by developing fitness- and wellness-oriented programs for healthier and more active lifestyles. The PTs in-depth knowledge and skill in movement science, body system screening, anatomy, and pathophysiology also provide the perfect foundation for involvement in the early detection of wounds as well as direct management and prevention of wounds. As essential participants in the health care delivery system, physical therapists assume leadership roles in rehabilitation; in prevention, health maintenance, and programs that promote health, wellness, and fitness; and in professional and community organizations. PTs also play important roles both in developing standards for physical therapist practice and in developing health care policy to ensure availability, accessibility, and optimal delivery of health care services. PT is covered by federal, state, and private insurance plans and PT services have a positive impact on health-related quality of life.

Physical therapy is a dynamic profession with an established theoretical and scientific base and widespread clinical applications in the restoration, maintenance, and promotion of optimal physical function. PTs provide care for people in a variety of settings, including but not limited to hospitals, private practices, outpatient clinics, home health agencies, schools, sports and fitness facilities, work settings, and nursing homes.

As clinicians, services performed by PTs include, but are not limited to the following:

- An examination process that includes:
 - Taking the patient/client history,
 - Conducting a systems review, and
 - Performing tests and measures to identify potential and existing problems.
- Synthesizing the examination data and determining whether the impairments to be addressed are within the scope of physical therapist practice.
- Establishing diagnoses, prognoses, and plans of care including diagnosing and managing movement dysfunctions and enhancing physical and functional abilities based on patient/client goals.

- Restoring, maintaining, and promoting not only optimal physical function, but also wellness, fitness, and quality of life as it relates to movement and health through provision of interventions (the interactions and procedures used in managing and instructing patients/clients).
- Conducting re-examinations and modifying interventions as necessary to achieve anticipated goals and expected outcomes.
- Developing and implementing discharge plans.
- Preventing the onset, symptoms, and progression of impairments, functional limitations, and disabilities that may result from diseases, disorders, conditions, or injuries.

About the Doctor of Physical Therapy Program

The Doctor of Physical Therapy (DPT) (Professional) program is a 3-year program (9 semesters) designed to provide students with a didactic and clinical education experience that provides the current knowledge and skills necessary to practice physical therapy in a variety of clinical settings. The courses included in this curriculum reflect and are consistent with the patient/client management model described in the Guide to Physical Therapist Practice and the curricular content for professional education in *A Normative Model of Physical Therapist Professional Education: Version 2004*, and meets criteria set forth by CAPTE.

The DPT degree is based on the new, expanding, and ever-changing role of the physical therapist. Changes in the field include practice in primary care and direct access. As such, physical therapists are expected to perform medical screening, have a strong knowledge base of the medical and clinical sciences, and be able to perform high-level problem solving and clinical decision-making.

In addition to the professional doctoral degree, the program offers a post-professional DPT degree to licensed physical therapists. The clinician who holds a certificate, bachelors, or master's degree in physical therapy may enter the DPT program as a student with Post-Professional standing to complete the requirements for the DPT degree. The required courses in the DPT (Post-Professional) program depend upon the student's previous academic coursework and clinical/professional experiences. The student with Post-Professional standing will take courses online. The mission and program goals are the same for both the Professional and Post-Professional students. Policies related to admissions, registration, and tuition and fees are different for students entering with Post-Professional standing. A description of the policies for students with Post-Professional standing is provided separately at the end of the section on the DPT (Professional) program. All other policies are the same for both Professional DPT students and those admitted to the DPT (Post-Professional) program.

Certification/Licensure

PTs are licensed in all 50 states and the District of Columbia, Puerto Rico, and the US Virgin Islands. Licensure is required in each state in which a physical therapist practices and must be renewed on a regular basis, with a majority of states requiring continuing education as a requirement for renewal. PTs must practice within the scope of physical therapy practice defined by state licensure laws (physical therapy practice acts). The entire practice act, including accompanying rules, constitutes the law governing physical therapy practice within a state.

PTs are eligible for licensure after graduating from a Commission on Accreditation of Physical Therapy Education (CAPTE) accredited physical therapy education program and passing the National Physical Therapy Exam (NPTE) of the Federation of State Boards of Physical Therapy (FSBPT). The NPTE covers the entire scope of practice for a physical therapist, including theory, examination and evaluation, diagnosis, prognosis, treatment intervention, prevention, and consultation that are consistent with the exam blueprint. The FSBPT Administrative Office phone number is 703-299-3100 and their website address is <https://www.fsbpt.org>. Candidates must apply for licensure to their state Board of Physical Therapy, which may require also passing a jurisprudence exam of the state's laws and rules. Contact information for individual state licensing authorities may be found at the following website address: <https://www.fsbpt.org/FreeResources/LicensingAuthoritiesContactInformation.aspx>

Program Goals

The graduate of the DPT program will be a mature individual whose professional education is based on a foundation of the requisite preparation in the biological, behavioral, and social sciences and in humanities. The graduate will have the necessary knowledge, skills, and attitudes to function as a clinician generalist; will have an appreciation for the value of the research process; and will be a responsible member of the community and the profession. The goal of the Department of Physical Therapy Education and its DPT program is to achieve the following goals:

1. Recruit and develop students of all academic, ethnic, and cultural backgrounds who wish to pursue a career in physical therapy.
2. Create an academic environment that will prepare graduates to meet program outcomes, in accordance with current CAPTE criteria, in keeping within APTA Code of Ethics
3. Attract and support a clinically and academically diverse core faculty who can meet the criteria of high-quality teaching, significant scholarly output and valuable service to the college and professional community.
4. Encourage and acknowledge continued professional development of faculty and assist faculty to successfully navigate tenure and promotion process.
5. Develop and foster clinical partnerships and professional alliances to enhance the quality of the graduate program and delivery of health care services by our graduates.
6. Develop and maintain a cadre of adjuncts with excellent clinical experience and proven teaching effectiveness that align and are committed to the department mission and goals.
7. Identify and participate in research grant activities and entrepreneurial activities that that enhance the body of knowledge and may lead to additional program revenue.

Curriculum Design

The curriculum model is a hybrid, providing a combination of traditional, case and problem-based learning. Initial courses are more traditional and focus on the foundational sciences and fundamental physical therapy techniques. The curriculum sequence is organized according to body systems, aligned to the Guide to PT Practice. Coursework includes study of the functional and psychosocial impacts of health conditions, relevant medical and surgical interventions and the physical therapy tests, measures, and

interventions utilized within the patient/client management model. Additionally, curriculum includes the role of the physical therapist in disease prevention and health promotion, education, consultation, legislation and policy-making, and leadership. Students also engage in scholarly inquiry through a research capstone project.

The DPT faculty is comprised of scholars, researchers, administrators, and clinicians from the professions of physical therapy and pharmacology. All faculty are committed to the preparation of the Doctor of Physical Therapy professional who will be well versed in all aspects of physical therapy and dedicated to their profession and the patients they serve.

Didactic education includes interactive classroom instruction, lab practice, and critical thinking opportunities. In addition, classes integrate patient experiences via utilization of standardized cases, simulation labs, and actual patient encounters which link didactic education to clinical practice and prepare students for clinical experiences. The clinical education experiences occur in a variety of clinical settings within each year of the curriculum, as we believe that clinical education is an integral part of the curriculum and provides opportunities for students to integrate, synthesize, apply and refine the knowledge, skills, and attitudes developed in the classroom. Year I includes a two-week clinical experience, year two includes one 12-week clinical experience, and year three includes two 12-week clinical experiences. In total, students complete 38 weeks of clinical experience in addition to the numerous clinical opportunities provided in the classroom via standardized patient or actual patients.

DPT students complete their education in August but participate in the University-wide graduation held in the prior May. The licensure examination can be taken following successful completion of the program. The licensure exam is computerized and offered 4 times a year.

Student/Graduate Goals

Upon completion of the DPT program, students will be able to:

1. Demonstrate appropriate clinical decision-making skills, including critical thinking, clinical reasoning, and problem solving to guide decisions regarding screening, examination, evaluation, diagnosis, plan of care, and intervention to achieve optimal outcomes.
2. Demonstrate entry level competence in establishing a safe and efficient physical therapy plan of care, to address movement dysfunctions and associated functional impairments, activity limitations, and participation restriction, for a variety of patients with varying ages, diagnoses, complications in the most common practice environments.
3. Demonstrate competency in oral and written communication by expressively and receptively communicating with patients/clients, family members, caregivers, practitioners, interdisciplinary team members, consumers, payers, and policymakers.
4. Function as a collaborative and effective member of an interprofessional team providing health care to meet the needs of patients, clients, and the public.
5. Demonstrate highest-level professionalism by expression of ethical and legal values, trust, integrity, as well as contribution to the community and the profession through altruistic service and leadership.

6. Provide physical therapy services for prevention, health promotion, and wellness as autonomous practitioner, educator, consultant, and collaborator and demonstrate a commitment to personal and professional growth and lifelong learning.
7. Critically evaluate and apply best scientific evidence as a basis for physical therapy practice, determine the effectiveness of intervention, and participate in scientific inquiry.
8. Provide person-centered care that is compassionate and humanistic based on the understanding and appreciation of cultural, gender, socio-economic, ethical, and contextual factors that affect physical therapy practice.

Doctor of Physical Therapy (Professional)

Personal Competencies for Admission and Matriculation

A candidate for admission to the DPT program must possess, or be able to achieve through a reasonable accommodation, certain sensory and motor functions, that would enable the individual to carry out the activities described in the sections that follow. Upon matriculation to the program, the student must continue to possess, or be able to achieve through a reasonable accommodation, the personal competencies outlined below throughout their progression in the DPT program. Graduation from the program signifies that the individual is prepared for entry into clinical practice. Therefore, it follows that graduates must have the knowledge and skills needed to function in a broad variety of clinical situations and to render a wide spectrum of physical therapy evaluation and treatment techniques. The candidate and student must be able to integrate all information received consistently, quickly and accurately by whatever sense(s) are employed. In addition, they must have the intellectual ability to learn, integrate, analyze, and synthesize data.

Essential Functions are the aptitudes and abilities that allow physical therapy students (and physical therapists) to complete the professional curriculum and to perform the clinical skills consistent with Patient/Client Management as detailed in the Guide to Physical Therapist Practice. Therefore, there are essential functions or abilities necessary for admission and progression in the Department of Physical Therapy Education Program at Western University of Health Sciences.

This practice requires the performance of specific essential functions that include but are not limited to the areas below. For candidates or students who require a reasonable accommodation in order to meet the competencies outlined below, please contact the Harris Family Center for Disability and Health Policy at (909) 469-5297.

Under all circumstances, a candidate or student should be able to perform the following in a reasonably independent manner, with or without a reasonable accommodation:

Observation (includes functional use of vision, hearing and somatic sensations)

Candidates and students must have sufficient vision to be able to observe patients and demonstrations accurately, close up and at a distance, to learn skills and to gather patient data (e.g., observe a patient's gait, appearance, posture, etc.). Candidates and students also must possess functional use of the sense of vision and somatic sensation. Observation is enhanced by the functional use of the sense of smell.

Communication

Candidates and students must have the ability to communicate orally and in writing with patients, families, groups, and other members of the health care team, as well as faculty and peers. Candidates and students must be able to communicate effectively and sensitively in English with other students, faculty, staff, patients, family and other professionals, in both oral and written formats, and must be able to read, write, and communicate verbally in English. Candidates and students must be able to interpret communication of others effectively. Candidates and students must be able to read and comprehend written material and communicate clearly and audibly during interactions with classmates, professors, patients, and members of the health care team. Candidates and students must also be able to recognize and respond to soft voices or voices under protective garb, auditory timers, equipment/emergency alarms, joint noises, prostheses, and effectively use devices for the measurement of vital signs and

breathe sounds. Candidates and students must be able to hear patients and respond to patient critical needs when not in direct line of site.

Psychomotor Skills

Candidates and students must have sufficient motor function to be able to execute movements commonly required to provide assessment and physical therapy treatment procedures to patients/clients, as well as respond quickly to emergencies by lifting/pushing/pulling patients, applying force to perform CPR, and assisting with transporting patients. These actions require both gross and fine muscular movements, equilibrium, and functional use of the senses of touch, hearing, and vision.

Mobility and Stamina

Candidates and students must possess sufficient gross and fine motor skills and endurance to provide safe and effective physical therapy care in all health care settings. Candidates and students must have the ability to: perform basic life support, including CPR; function in an emergency situation; safely transfer a patient (e.g., from wheelchair to commode, from chair to bed, lift and transfer from floor); calibrate and use equipment; perform treatments and procedures; apply pressure to stop bleeding; and/or manipulate diagnostic instruments to adequately perform all aspects of an assessment. Candidates and students must demonstrate strong bilateral grasp during joint mobilization/manipulation and manually resisted exercise, bilateral gross and fine motor control, and strength to perform therapeutic massage, and fine motor control to manipulate testing instruments/equipment/ writing instruments/computers.

Candidates and students must be able to maintain and assume a variety of positions including sitting for up to 2 hours continuously, frequent standing, walking, bending, squatting, kneeling, stair climbing, reaching forward, reaching overhead, and turning and movement of the trunk and neck in all directions. Candidates and students must have sufficient endurance to continue performing a variety of exertional activities for up to 8-12 hours with occasional rest breaks. Candidates and students must also perform manual material handling and manipulation of various sizes and weights including lifting and transferring patients, guarding patients during gait training on level surfaces/uneven surfaces/ramps/stairs, pushing and pulling to provide resistance and to assist in maneuvering patients. Specific requirements include:

- Safely lift up to 50 lbs. independently
- Safely lift up to 200+ lbs. with assistance; and sit, stand, and move about in-patient environments.
- Safely push and pull up to 200 lbs.

Candidates and students must be able to balance self and provide support and balance to patients on a variety of surfaces including level and uneven ground, ramps, curbs, and stairs.

Tactile

Candidates and students must have sufficient tactile ability to perform a physical assessment of a patient and to perform procedures necessary for physical therapy care. Candidates and students must have the ability to perform palpation, manual muscle testing, joint mobilization, percussion, massage, and other functions necessary for a physical exam; assess texture, shape, size, and vibration; note temperature changes in skin and equipment; and perform therapeutic functions associated with wound care.

Candidates and students must be able to manipulate dials, sensors, and switches on all examination and therapeutic equipment.

Intellectual, Conceptual, Integrative, and Quantitative Abilities

Candidates and students must be able to measure, calculate, reason, analyze, synthesize, integrate, and apply information in making critical judgments. Problem solving, a clinical skill necessary in physical therapy practice, requires all of these intellectual abilities. In addition, candidates must be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

Behavioral and Social Abilities

Candidates and students must possess the emotional health required for full utilization of the intellectual abilities, the exercise of good judgment, the prompt completion of all responsibilities attendant to the assessment and care of patients/clients, and the development of mature, sensitive, and effective relationships with patients/clients, caregivers/family, colleagues and other health care professionals. Candidates and students must be able to tolerate physically taxing workloads, adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in the clinical problems of many clients. Compassion, integrity, concern for others, interpersonal skills, interest, motivation, and professionalism are all personal qualities to be assessed during the admissions and educational processes.

The Department of Physical Therapy Education, along with all the other programs at WesternU, shares a commitment to develop creative ways of opening the PT curriculum to competitive, qualified individuals with disabilities who meet the personal competencies for admission and matriculation. In doing so, however, the Department of Physical therapy Education must maintain the integrity of its curriculum and preserve those elements deemed essential to educating candidates to become effective physical therapists.

Ethical Standards

Candidates and students must demonstrate the ability to reason morally and practice physical therapy in a professional and ethical manner with patients, families, and other health care workers as well as with faculty and peers.

Admissions Policies and Procedures

Admission to the DPT program is on a competitive basis and is open to citizens and permanent residents of the United States and international students. WesternU is committed to admitting competitive, qualified disabled individuals. The program will accept applications for admission from all qualified candidates for the Professional DPT degree. WesternU participates in the Physical Therapist Centralized Application Service (PTCAS) for its admissions process. A primary application must be filed with the PTCAS and a secondary application filed with WesternU, both subject to designated deadlines.

Non-Discrimination Policy

In accordance with all applicable federal, state, and local laws, Western University of Health Sciences (WesternU) is committed to ensuring a campus community free from unlawful discrimination. Accordingly, WesternU prohibits unlawful discrimination on the basis of race, color, national origin ancestry, citizenship, ethnicity, creed, religion or religious creed, sex or gender (including gender identity), marital status, sexual orientation, disability (both physical and mental) including HIV and AIDS, medical condition (cancer and genetic characteristics), pregnancy (which includes childbirth, breastfeeding and medical conditions related to pregnancy, childbirth or breastfeeding), age, genetic information, military and veteran status, or any other characteristic protected under applicable law, in the administration of its programs or activities. WesternU also prohibits unlawful harassment, including Sexual Harassment. Lastly, WesternU is committed to providing equal access to and equal opportunities to all members of its campus community in accordance with all applicable laws.

This non-discrimination policy applies to applicants, students, and alumni. Additional nondiscrimination information can be found in the Nondiscrimination, Anti-Harassment, and Anti-Retaliation Policy, located in the University Catalog.

Reasonable Accommodation for Disabilities

Candidates and students must be able to perform all the essential functions of the program with or without reasonable accommodation. A student who discloses a disability and requests accommodation will be referred to the Harris Family Center for Disability and Health Policy (CDHP). The student will be asked to provide documentation of the disability for the purposes of determining appropriate accommodations. The Department of Physical Therapy Education will provide reasonable accommodations but is not required to make modifications that would substantially alter the nature or requirements of the program. A student with questions regarding reasonable accommodation can contact the CDHP office.

Application Requirements

The application requirements shown in this catalog apply to applicants who are seeking entry for the 2020/2021 academic year. Current admission and application requirements for the DPT (Professional) program, including prerequisite coursework requirements, can be located on the [Prospective Student website](#).

The applicant must have earned a BA or BS degree from a regionally accredited (exceptions will be made on a case-by-case basis) college or university by the end of the Spring term in which they plan to matriculate into the DPT (Professional) program.

The DPT (Professional) program seeks students with the baccalaureate degree obtained in any field of study other than physical therapy. The applicant should demonstrate a high degree of intellectual curiosity

and accomplishment along with excellent verbal and written communication skills. The graduate of WesternU will be able to demonstrate critical thinking and problem solve in clinical practice and will be able to communicate appropriately with the client/patient and other health care providers regarding the client/patient care plan.

1. Prerequisite Courses

<u>Course</u>	<u>Units</u>
English Composition	3 semester units
Psychology*	6 semester units
Statistics	3 semester units
Human Anatomy with Lab**, ***	4 semester units
Human Physiology with Lab**, ***	4 semester units
General Chemistry with Lab**	8 semester units, a full year sequence
Physics with Lab**, #	8 semester units, a full year sequence

**At least one course must be taken from the Psychology department.*

***All science courses must include laboratories and cannot be at an 'introductory' level. Laboratories may not be completed online. Laboratories must be on campus; virtual/online laboratories are not accepted.*

****Anatomy and Physiology must be taken from the Anatomy, Physiology, A and P, Biology, or Zoology department. The Anatomy and Physiology must be 'human'. Combined Anatomy and Physiology courses will be considered only if a combined course sequence (2 semesters) is completed.*

#Emphasis on mechanics, light, heat, sound, and electricity

A seven (7) year time limit is enforced for all science prerequisites and labs (anatomy, physiology, chemistry, and physics).

In addition, the following courses are recommended to enhance success in the program:

- Oral communication skills
- Computer literacy
- General biology
- Microbiology
- Kinesiology/biomechanics
- Exercise Physiology
- Nutrition
- Human/Child Development
- Additional Psychology courses

Grades of "C" or better are required in each prerequisite course. A grade of "C-" or less in any prerequisite course is not acceptable. Only one prerequisite course may be taken on an advanced-placement, pass/no pass, or credit/no credit basis. For courses completed in California, all science prerequisites must be University of California (UC) or California State University (CSU)

transferable. Advanced Placement (AP) may be accepted for one prerequisite course; this will not be calculated into the GPA.

No more than one science (if semester-based course; two if the course is quarter-based) and one non-science prerequisite courses can be in progress after the fall term prior to matriculation. All prerequisite courses must be completed by the end of the spring semester/quarter prior to matriculation. Official transcripts must be submitted directly to the Office of Enrollment Data Services upon completion of coursework in progress and Admission Department notified. Final transcripts and/or final grades (including degree verification) for all coursework in progress must be received prior to orientation in early August.

2. **Prerequisite and Cumulative GPAs**

The minimum cumulative (overall) GPA and the minimum GPA for all prerequisite courses must each be 3.00 on a 4-point scale at the time of application. To be competitive, these GPA's should be consistent with current incoming class averages, which are above 3.30 on a 4-point scale.

3. **Community Service**

Competitive applicants should be able to demonstrate ongoing community service.

This may include volunteering and all trends of community service and may include the following:

- Homeless Shelters / Soup kitchens / Food Banks
- Community Outreach
- Veteran Programs
- Clinical (emergency assistant, patient visitor/escort, etc.)
- Tutoring
- Youth Mentoring
- Senior Citizen Home
- Church (missionary trips/outreach)

Although we do not have a minimum requirement, applicants tend to accumulate and continue to accumulate approximately 200 hours over the course of one to two years. Our more competitive applicants have accumulated well over 200 total hours within the same length of time and continue ongoing community service up until the time they matriculate.

4. **Recommendations**

Three satisfactory recommendations are required as part of the admissions application. One is required from a licensed physical therapist and one from a college course instructor. The third letter may be from either a licensed physical therapist or college course instructor; a physical therapist is preferred. Letters of recommendation may not come from family members even if they are a physical therapist or college course instructor.

5. Interviews

Applications are forwarded to the Admissions Committee for review. Applicants selected by the Admissions Committee will be invited for an on-campus interview.

Application Procedures and Deadlines

The DPT (Professional) program has an August orientation and matriculation date. The application submission opens on July 1 and closes on November 1 of the year prior to anticipated enrollment. Students with complete application packets are encouraged to apply early. Applicants who do not meet the criteria by the time of matriculation and wish to reapply for the following year must submit new primary applications and will be considered with the new applicant pool. A primary application must be submitted to PTCAS with a response to the designated personal essay question contained therein. Three letters of recommendation forms must be obtained and submitted to PTCAS, along with official transcripts from all colleges attended. To initiate the primary application with PTCAS, visit the PTCAS website at www.ptcas.org.

To request an information brochure, contact the Admissions Office at

Office of Admissions
Western University of Health Sciences
309 E. 2nd Street
Pomona, CA 91766-1854
(909) 469-5541

<https://prospective.westernu.edu/health-sciences/dpt/apply/>

After receipt of the applicant's PTCAS application, as well as any required materials, the Office of Admissions will process the application and determine eligibility. Upon completion of processing and deeming of the application complete, the application file will be sent to the Admissions Committee for consideration for interview.

Applicants who wish to use coursework completed outside of the United States or at a French-Canadian institution must submit their transcripts for evaluation to World Education Services. A course-by-course evaluation is required, and all coursework must be designated as undergraduate, graduate, or professional. WesternU will only honor evaluations from the above service. The evaluation must be received by PTCAS by the designated application deadline.

The Admissions Committee will review all completed, qualified applications and determine which potential candidates will be invited for personal interviews. These interviews are designed to allow the applicant to learn more about WesternU's DPT program as well as allow the Admissions Committee to learn more about the applicant. The interview process is conducted in the late fall and early spring months of the admissions cycle.

Decisions of the Admissions Committee regarding the admission of applicants to the Doctor of Physical Therapy (Professional) program are final.

Acceptance Deposit

Applicants accepted to the DPT (Professional) program must pay a non-refundable "acceptance" deposit of \$1,000.00.

International Applicants

International applicants who are not U.S. citizens and who are living in the U.S. should be prepared to provide proof of legal U.S. residency at the time of interview. Proof of legal U.S. residency is required prior to any offer of acceptance. For detailed information, please visit our web page for [International Students](#).

Transfers from Other Schools

The Department of Physical Therapy Education does not accept transfer candidates to advance standing in the DPT (Professional) program.

Registration

All WesternU students are required to register by the registration deadlines specified by the University Registrar. Registration dates are posted on the [Registrar's Office](#) website. Failure to register by the deadline may be grounds for administrative withdrawal. All students registering after the posted deadline will be assessed a \$30.00 per business day late fee.

Full tuition and fees and all prior debts must be paid in full on or by posted deadlines each academic year. Matriculation is subject to the satisfactory completion of all academic requirements and payment of all outstanding debts to the University. The receipt of the final transcript(s) from all colleges/universities attended and a physical examination with documentation of required immunizations (if applicable) prior to registration are additional requirements for incoming students.

Registration Late Fee Appeals

If you are assessed late fees for a registration period, you may submit an appeal to the Registrar. For additional information on the appeal process, please see the [Registration Late Fees](#) page on the Registrar's Office website.

Student Health Insurance Requirement

All full-time students at WesternU are required to have active health insurance while enrolled. All students are automatically assessed half of the entire year's insurance premium and will be enrolled in the student health insurance plan until they submit proof of coverage that meets the University's requirements. For additional information on student health insurance requirements and/or waiving out of the student health insurance plan, please see the [Student Health Insurance](#) page on the Registrar's Office website.

New Student Orientation/Welcome Week

Attendance at all Welcome Week activities is mandatory for all incoming first-year students. Failure to attend any required part of Orientation/Welcome Week without prior approval from the Assistant Dean of Student Affairs may result in the rescindment of the offer of acceptance.

Student Initiated Changes in Enrollment Status

Leave of Absence

A student may request a Leave of Absence (LOA) with the occurrence of a medical emergency or illness, personal issues, financial hardship, or military service. Students must be in good academic standing to be eligible for a Leave of Absence. For additional information on requesting a Leave of Absence, please see 'Student Initiated Changes in Enrollment Status' in the University Catalog, General Academic Policies, and Procedures section.

Withdrawal from University/Academic Program

Matriculation at the University is a privilege granted in consideration of specified levels of performance and of maintaining the established standards of scholarship and personal and professional conduct. The University reserves the right to require withdrawal at any time it deems necessary to safeguard its standards of scholarship, conduct, and orderly operation. The student concedes this right by act of matriculation. For additional information on withdrawing from the University, please see 'Student Initiated Changes in Enrollment Status' in the University Catalog, General Academic Policies, and Procedures section.

Full-Time/Part-Time Status

All Professional DPT students enrolled in at least 6.00 units are considered full-time students. DPT students enrolled in 4.50 to 5.99 units are considered three-quarters-time students. DPT students enrolled in 3.00 to 4.50 units are considered part-time students.

Time Limits

The DPT (Professional) program is designed to be completed in three (3) years of full-time study. The requirements for the degree must be fulfilled within 4 years, 6 months from the date of matriculation to the program. Students who are unable to complete the program within the maximum time allotted may be subject to Administrative Withdrawal. Extensions of this time limit may be granted through petition to the faculty and Department Chair.

Tuition and Fees

By action of the Board of Trustees, Professional DPT tuition and fees for the 2020/2021 academic year (subject to change) are as follows:

\$42,630.00	Annual Tuition
\$40.00	Student Body Fee (Year 1)
\$20.00	Student Body Fee (Years 2 and 3)

Other Fees and Expenses

\$1,300.00	Required and Recommended Texts
\$500.00	Personal PT Supplies and Equipment
\$100.00	Lab and Equipment Fees
\$60.00	Comprehensive Licensure Exam Fee
\$1,000.00	Laptop Computer (Approx.)
\$40.00	Privacy Screen (Approx.)
\$60.00	Criminal Background Investigation (Approx.)
\$40.00	Drug Screen (Approx.)
\$30.00	Registration Late Fee (Per Business Day)
\$50.00	Late Payment Fee (Per Month)
\$350.00	Graduation Fee
\$470.00	Annual Parking Permit (Automobile)
\$40.00	Locker Key Replacement Fee
\$10.00	Official Transcript (Each)
\$21.00	Rush Transcript, First Class Mail (Each)
\$25.00	Rush Transcript, Federal Express (Each)
\$10.00	Student ID Replacement Fee
TBD	Breakage Fee (Replacement Cost)

Additional DPT Program Education Requirements

The DPT (Professional) program requires that each enrolled student have a laptop computer with internet access and computer privacy screen. Course assignments and exams will be given that necessitate access to a computer and the Internet. Laptop specifications can be found at <http://www.westernu.edu/computing/computing-students>.

Modified Curriculum/Repeated Coursework Tuition Rates

Students enrolled in a modified Professional DPT curriculum or who are directed to repeat one or more courses but not the entire academic year are charged a per credit hour tuition rate. This rate is calculated by dividing the total credit hours required for a class year by the annual tuition. The per credit hour rates for 2020/2021 are shown below:

\$775.09	DPT (Professional) Year 1 Modified Curriculum Per Unit Charge
\$870.00	DPT (Professional) Year 2 Modified Curriculum Per Unit Charge
\$1,152.16	DPT (Professional) Year 3 Modified Curriculum Per Unit Charge

General Academic Policies and Procedures

Academic Advisement

Students will be assigned a faculty advisor upon matriculation. The DPT (Professional) program recognizes academic advising to be a central element of the educational experience. Advising is a collaborative relationship for which advisors and students share responsibility and through which students create academic, career, and personal goals. Advisors are responsible for being accessible and responsive to students, and for providing accurate, timely information. Students are responsible for being prepared for advising sessions, and for understanding University and department requirements. The DPT (Professional) program recommends that students meet with their advisor on a regular basis, at least once a month or as otherwise recommended. A student on probation must meet with their faculty advisor and the Assistant Dean of Student Affairs at least twice a month.

Either the student or faculty member can seek a change in advisement via a request to the Department Chair or the Assistant Dean of Student Affairs

Attendance/Absences

Students are expected to attend all scheduled classes and activities. Face-to-face learning is a valued part of the curriculum. In the event of an absence or tardiness, it is the student's professional responsibility to notify the Department Manager, who will inform the appropriate faculty. If an absence, lateness, or early departure is anticipated, it is considered a professional courtesy to discuss this with the appropriate course instructor(s) and faculty advisor at the earliest possible date. It is expected that students will report unanticipated absences due to illness, accident, or unforeseen event/emergency immediately to the Department Manager and to the appropriate faculty member. Unexpected lateness should be discussed with the course instructor as soon as possible.

Absence or tardiness from class for any reason does not relieve the student from the responsibility for the material covered during the instructional periods. The student is responsible for all course material covered during an absence. Should an absence, lateness, or early departure occur on the day of an examination or announced/unannounced quiz, any make-up exams or quizzes may or may not be allowed, at the discretion of the course instructor.

More than three unexcused absences, tardiness, and/or early departures are considered a violation of the Standards of Academic Integrity, Professionalism and Student Conduct and are handled under the General University Academic Policies and Regulations section of this catalog. Three or more unexcused absences, tardiness, and/or early departures may affect the student's final course grade.

Student Test Taking Protocol and Guidelines

Exams and lab practicals are designed to be taken at their scheduled dates and times. Unless there is a catastrophic event or a major illness, students are expected to take the exam or lab practical, as scheduled. All missed exams or lab practicals will require supportive paperwork. Taking exams on the scheduled date is respectful to the faculty member as well as peers.

Video or audiotaping of an exam, lab practical, meeting, and conversation with another is not only against DPT policy but is also illegal.

1. Backpacks/bags and all personal belongings will be left at the front of the room.

2. Cell phones/electronics must be on “silent” or “off” and be placed within a backpack/bag in front of the room.
3. Students will come to the examination with a laptop computer and computer privacy screen.
4. Students will sit spaced apart every other seat if the room is of sufficient size to accommodate this seating arrangement. Each row of students should sit directly behind the student in the row in front of them.
5. Students who have their gaze elsewhere except on their own computer can give a false appearance of seeking help. If students tend to move their heads around, they need to sit in the front rows.
6. If water is needed during the examination session, the student needs to bring a bottle with the labels removed.
7. During scheduled examination hours, students are highly discouraged from going to the bathroom, but will be allowed to go one at a time. If a student needs a bathroom break, the following steps should be taken: (1) ask the instructor/proctor for a bathroom break; (2) Make your visit to the restroom brief and efficient; (3) an escort of the same gender may be assigned at the discretion of the instructor/proctor; and (4) only one student may be out of the room at a time.
8. In the case of a lab practical exam, read all provided instructions carefully. Arrive 30 minutes before the scheduled exam.
9. Upon completion of the exam, students must present the instructor/proctor the screen on their laptop. The instructor/proctor will give the student authorization to save and continue. The student will proceed to the green screen and present the instructor/proctor the screen. The instructor/proctor will then give the student authorization to select quit/close. Once the student has selected quit/close the program will close and the student can close their computer and leave the classroom/lab.

Any violation of these guidelines and/or Standards of Academic Integrity, Professionalism and Student Conduct may result in a referral to the Student Conduct Committee.

Children in the Classroom/Labs

The DPT classroom is an environment for learning and should be free from unnecessary distractions. For this reason, children are not permitted in the classroom.

Confidentiality of Medical Records and Health History Information

All data gathered by students about patients and their illnesses, including all items within patients’ medical histories are privileged information.

1. Students should not discuss patients’ records in a manner or a situation that would reveal any information about these patients or their records to persons not involved in their health care.

2. Charts or contents, e.g., lab reports, etc., are not to be removed from the hospital or clinical setting.

This also applies to individuals such as classmates, faculty, and staff who volunteer as patients in class.

Communications: Lockers, Email, Mail

To improve the communication network and to foster student-staff and student-student interchanges, a WesternU email is provided to each student. The WesternU email account is the only account used for official communication between the program and students. Assignments, inquiries, and communications must use WesternU email accounts as other accounts may go to junk mail. In the event that time constraints necessitate quick dispersal of information, the program will disseminate this information via e-mail or through telephone communication.

- Email should be checked twice daily. It is suggested to check in the morning and in the evening.
- Correspondence from the program will occur as either traditional mail or e-mail, with e-mail being the preferred delivery choice.
- During any portion of the program for which the student is out of town (e.g., clinical site, holidays) correspondence from the program will be mailed or electronically mailed to the student.
- Lockers are available to students, if desired. Please inquire in the DPT Department.

Telephone

- Each student is responsible for advising the Registrar and the Physical Therapy Department Manager of telephone number changes as soon as they occur.
- Cell phones and other electronic devices must be in silent/vibrate mode during all class times and examinations.

Use of Physical Therapy Equipment and Laboratories

The Professional DPT policy for use of the PT equipment in the PT Skills Laboratories is as follows:

1. No one is to use the PT equipment except DPT students who have received education and have had practice on the equipment in the laboratory.
2. A faculty member must clear a student as being competent to use the equipment.
3. DPT students using the equipment should be doing so in conjunction with a class they are taking, in preparation for a clinical experience or to conduct a clinical research project.
4. If equipment is used for a research project, the DPT faculty research mentor will be responsible to check out the student's competency in using the equipment.
5. Physical therapy skills labs are available Monday through Friday after regular class hours. Physical therapy skills labs are available beyond regular class and on weekends upon request of the Physical Therapy Department Manager. Use of the Anatomy Lab outside of regular class hours

must be requested and scheduled with the Physical Therapy Department Manager, preferably five (5) working days in advance.

6. Students may sign out specified equipment (i.e., goniometers) to use off campus for special events or personal practice. The Department Staff will approve what equipment may be taken out of the laboratory and off campus.

Clinical Education Policies and Procedures

Students should refer to the current Department of Physical Therapy Education “Clinical Education Manual” for all policies and procedures governing physical therapy clinical education. If a difference in language is found between the two documents, then the current WesternU Student Catalog will take precedent.

Returning from Leave of Absence

A student returning from a leave of absence must notify the Office of the Dean and the Chair 3 months before the start of the semester. The student must return in the corresponding semester following the academic year due to the nature of the PT curriculum.

Issues/Dispute Resolution Procedure

When an issue or dispute arises between students, the issue/dispute resolution process starts with communication among the involved students. If a satisfactory resolution is not arrived at that level, the matter should then be addressed with the course instructor or the faculty advisor. If the problem is not resolved at the faculty advisor/course instructor level, the matter should be brought to the Department Chair, followed by the Dean. If the matter has not been resolved at those levels, the final arbiter is the SVP/Provost.

When an incident arises involving a faculty member, the first step in the issue/dispute resolution process is discussion with the faculty member. If the matter is not satisfactorily resolved at that level, then the matter should be referred to the Department Chair, followed by the Dean. The final arbiter is the SVP/Provost. Please note that grade appeals cannot be handled under this protocol.

When an incident arises involving a staff member, the dispute resolution process begins with the Department Chair, followed by the Dean. The Office of Human Relations is the final arbiter.

Failure to follow this sequence of steps will only serve to delay the appropriate resolution of the issue or dispute as the matter will only be referred back to the correct level in this chain of responsibility.

Standards of Academic Integrity, Professionalism and Student Conduct

The University Standards of Academic Integrity, Professionalism and Student Conduct can be located in the University Catalog. The standards outlined below are in addition to those outlined in the University Catalog. Students are expected to be aware of, and abide by, both University and applicable College policies.

CHS Student Conduct Committee (CHS-SCC)

CHS Student Conduct Committee (SCC) shall consist of three elected CHS faculty members and as an ex-officio non-voting member, the Assistant Dean of Student Affairs. The Chair of the committee is elected by the members and the Committee meets at the call of the Chair. The term of faculty members is three years with staggered terms. The committee is responsible for handling alleged violations of the Standards of Academic Integrity, Professionalism and Student Conduct.

Reporting Alleged Violations/CHS-SCC Investigation Procedure

1. Upon witnessing or becoming aware of violation(s) of professional conduct, a report will be generated and turned into the Department Chair. The report will include the following information:
 - a. Name and signature of the individual making the report, and date, time, and place of alleged violation(s)
 - b. Name of the accused student
 - c. Alleged violation(s)
2. If the conduct involves a particular course or field experience, the classroom Instructor, Clinical Instructor/Field Supervisor, or Field Coordinator will advise the Department Chair.
 - a. The Department Chair may resolve minor infractions or refer the matter to the Office of the Dean.
 - b. The Department Chair will meet with the student, the instructor or field coordinator, and/or the student's faculty advisor, individually or in a group, to discuss the nature of the alleged violation(s) that have been reported and the actions, if any that the Department Chair intends to take. The Chair sends written notification of the violation(s), including date, involved student's name, and resolution to the involved student, with copies to the CHS-SCC, Department Chair, and Faculty Advisor within five business days.
 - c. The Department Chair places a copy of the notification in the student's file, to be removed if no further incidents occur prior to graduation.
 - d. The student involved in the alleged violation(s) may request a hearing with CHS-SCC.
3. Matters that could not be resolved at the program level will be referred to the Office of the Dean for review. The Department Chair will render a written recommendation to the Office of the Dean of the College of Health Sciences. Professional and personal conduct issues include, but are not limited to, (a) attendance, (b) cooperation with faculty, (c) interest shown in assigned work,

(d) attitude towards fellow students and associates or toward personnel of the University or its affiliate organizations, (e) approach to and interaction with patients, research subjects and all other colleagues, as well as (f) personal appearance appropriate to the circumstances. The matter may be resolved by the Dean, unless the student requests a hearing by the CHS-SCC, or the Dean may refer the case directly to the CHS-SCC for a hearing. If the Dean resolves the matter without convening a hearing before the CHS-SCC, the final decision will be reported to the Provost's Office and included in the student's file.

Hearing by CHS-SCC

The Dean or the student may request a hearing by the CHS-SCC. Because a violation(s) may have serious consequences (which may include dismissal from the University), the University has implemented procedures intended to ensure that the student is provided fair notice of any charges and is afforded a reasonable opportunity to present evidence on his or her behalf. The CHS-SCC will convene a hearing that follows procedures outlined in the general section of the University Catalog,

Information for Students about Hearings Involving Alleged Violations of the Standards of Academic Integrity, Professionalism and Student Conduct

For a full account of the hearing process, please refer to "Information for Students about Hearings Involving Alleged Violations of the Standards of Student Conduct," located in University Catalog.

Status of Student Pending Action

Pending a determination by the CHS Dean following a hearing and a recommendation by the CHS SCC, the student's status will not be altered except for reasons of their physical and emotional well-being or for reasons relating to the safety of other students and University personnel. Once the CHS Dean has rendered a decision, the status of the student will not be altered pending determination of a timely appeal by the student, except that the Provost/Chief Operating Officer shall have the discretion and authority to suspend the student or take other action at any time during the appeal process. The University further reserves the right to withhold the awarding of any degree at any time disciplinary charges are pending against a student.

Appeals Procedures

In accordance with the University catalog, the Dean shall have authority to make decisions regarding a student's status in matters of academic progression/promotion, suspension, student conduct, dismissal and graduation. The decision will be based on input from appropriate sources that may include the following: individual instructors, faculty, and appropriate committees. Students may request an appeal of the Dean's decision to the SVP/Provost by following the process defined in the 'Student Appeal Process' section of the University Catalog.

Procedures Pending Appeals Outcome

The student may remain in class or on field experiences or assignments pending the outcome of appeals, except in cases of summary suspension, and except when the Provost/SVP has suspended the student or has otherwise determined that it is inappropriate for the student to remain in class and/or participate in field experiences/assignments, consistent with the decision of the CHS Dean that is being appealed. If a student is suspended for any reason, any financial aid awarded to that student will be held until the appeal process is resolved by reinstatement or dismissal of the student. If reinstated, the financial aid funds can be released to the student. If the student is dismissed, the funds will be returned to the proper agency/lender. Students should contact the Office of Financial Aid for specific information.

Additional Information

Additional information about the University's Standards of Academic Integrity, Professionalism and Student Conduct, Hearings Involving Alleged Violations of the Standards of Student Conduct and the Student Appeal Process are contained in University Catalog. Students may also contact Carolina Alirez, Operations, and Communications Coordinator in the Provost's Office at 909-469-5694 for additional information regarding the Student Appeal Process.

Standards of Academic Progress

Good academic standing implies that a student maintains a minimum GPA of 2.80 or higher. All grading and evaluation is based on the student's ability to attain the competencies within the objectives outlined for each area of study.

The semester and cumulative GPA will be calculated at the end of each semester. A student whose performance falls below the minimum acceptable standard(s) for any area of study will be notified of such deficiency by the instructor of the course and Department Chair as soon as evidence of such substandard performance is available.

Doctor of Physical Therapy (DPT) Students must demonstrate competence in both academic and clinical components of the curriculum in order to progress. All grading and evaluation are based on the student's ability to attain the competencies within the objectives outlined for each area of study. To remain in Academic Good Standing, a student must achieve a semester grade point average (GPA) of at least 2.8 for each semester and maintain a cumulative GPA of at least 2.8. A student must have a GPA of at least 2.8 in order to graduate from the DPT program. The semester and cumulative GPA will be calculated at the end of each semester.

Academic progression of students will be discussed among faculty in weekly faculty meetings. A student whose performance falls below the minimum acceptable standard(s) for any area of study will be notified of such deficiency by the instructor of the course, the Assistant Dean of Student Affairs and Department Chair as soon as evidence of such substandard performance is available. Students who exhibit deficient academic performance will be referred to the Student Progress Committee (SPC), based upon the recommendation of the Department faculty.

Student Progress Committee

The Student Progress Committee (SPC) is comprised of the Assistant Dean of Student Affairs, the department chairs and faculty members of the CHS.

Each year, SPC shall periodically review the academic achievements and the performance of students. The names and grades of students in academic difficulty shall be made available to the SPC by the Department Chairs.

The Chairperson of the SPC will invite the student to address the Committee. After reviewing the student's achievement and performance records, SPC may recommend to the Dean of the CHS any of the following courses of action for a student: promotion, probation, remediation, dismissal from the College, psychological and educational assessment and recommendation, or no action.

Thereafter, in the case of probation or remediation, the SPC will determine the course of action. In the case of suspension or dismissal, the SPC will formulate a recommendation to the Dean of the College of Health Sciences who will render the final decision.

SPC also has the responsibility of recommending to the Dean of the CHS the candidates to receive the Doctor of Physical Therapy degree upon satisfactory completion of all requirements for graduation as stated in the University Catalog. All recommendations from SPC shall be made in writing and submitted

to the Dean or designee of the CHS. The Dean of the College of Health Sciences provides the final decision regarding the student's outcome.

Promotion

A student's progress through the program is based upon successful completion of expected competencies and demonstration of expected professional behaviors and attitudes. At the completion of each phase of the program, before the student is allowed to progress to the next phase, the student's record of achievement is reviewed by the Program Chair and faculty. Promotion is defined as progression from one academic year to the next.

1. A student will be recommended to the Dean of the CHS for promotion by the PT faculty and SPC.
2. A student may not be recommended for progression from one academic year to the next with any outstanding grades of "I," "U" or "NCR" on their academic record or with a cumulative grade point average of less than 2.80.
3. When considering a student for promotion, professional, ethical, and personal conduct may also be taken into consideration.
4. A student will be promoted if all legal and financial requirements of the University as stated in the Catalog have been satisfied.

Graduation

A student will be recommended for the Doctor of Physical Therapy Degree provided the student:

1. Has satisfactorily completed a minimum of three years education in the DPT curriculum, unless the student has been granted Post-Professional standing in the program.
2. Is not on probation, has completed all prescribed academic and clinical requirements with a cumulative grade point average of above 2.80 and has no outstanding grade of "I," "NCR" or "U."
3. Has demonstrated no serious deficiencies in ethical, professional, or personal conduct, as defined in Probation guidelines, which would make it inappropriate to award the degree of Doctor of Physical Therapy.
4. Has complied with all the legal and financial requirements of the University as stated in the University Catalog.
5. Has attended in person and participated in the Commencement ceremony at which time the Doctor of Physical Therapy degree is conferred. Unless special permission has been granted by the Dean, each student must participate in their respective commencement ceremony. If the Dean grants special permission for excusal from commencement, the graduate may be required to present themselves to the Dean or their designee at another specified date to take their profession's oath before their diploma will be released. Requests for excusal will only be granted for extenuating circumstances, such as a prior military commitment.

Students may participate in commencement activities provided they will complete all requirements of the program by December 31 of that calendar year. No student will receive their degree until the student has completed all requirements for graduation. Degrees will be dated as appropriate to completion date.

Adverse Actions

Academic Warning

The student who demonstrates unacceptable performance in any unit of study during any portion of the program is notified in writing of such performance by the course instructor, as soon as it becomes evident. This constitutes an academic warning. Continued poor academic performance can lead to academic probation and/or dismissal.

Probation

The student who demonstrates unacceptable performance in any unit of study during any phase of the program is notified of such performance by the instructor of the course, faculty advisor, the Assistant Dean of Student Affairs or Program Chair as soon as it becomes evident. The student is notified that continued poor academic performance can lead to academic probation and dismissal.

Students whose performance is considered unacceptable because of not meeting the Standards of Academic Progress will be placed on probation. The duration and conditions of the probationary period will be recommended to the Dean or designee of the CHS on an individual basis by the CHS SPC. The Committee may recommend remedial study and/or repetition of a unit of study. This may result in extending the length of the program beyond 3 years.

Probation is defined as a period specified by the Dean or designee of the CHS during which the student's progress will be closely monitored by CHS SPC, faculty advisor, the Department Chair, and the Assistant Dean of Student Affairs. In order to monitor students on probation, the DPT (Professional) program reserves the right to assign their clinical education experiences. A student will be recommended for probation and may be asked to appear at a SPC meeting for any of the following reasons:

1. For first year students, achieving a score of less than 77% in two or more courses by the end of the first nine weeks of the semester.
2. Immediately upon receiving a course grade of "U" or "NCR" in any course.
3. A semester and/or cumulative GPA of less than 2.80.
4. When directed to repeat a year for academic reasons.

Students are removed from probation when any of the following occur:

1. At the end of the first semester of the first year, provided that the student has attained a GPA of 2.80 or more
2. After one semester, provided the student has regained both a semester and cumulative GPA of 2.80.

3. When all “U” or “NCR” grades have been satisfactorily remediated according to the Remediation section of the Catalog (below).
4. When the specified terms of probation for ethical, professional, or personal conduct are met.
5. When students are on probation for a clinical education experience grade of “U,” they will be removed from probation when they have met the terms of their probation.

Terms of Probation

1. A student on probation may not serve as an officer of any official University club or organization and shall not engage in time-consuming extracurricular activities.
2. A student on probation must meet with their faculty advisor at twice a month.
3. A student on probation must visit the LEAD office for an Adult Learner's Assessment and obtain a tutor for the necessary areas of study to help ensure program success.

Financial Aid Warning Policy (Title IV and Title VII)

If a student is not achieving satisfactory academic progress (SAP) they may be placed on “Financial Aid Warning” status for the next payment period and continue to receive financial aid for that period. Financial Aid is any financial assistance offered to the student for paying for their education, such as loans, scholarships, Federal Work-Study, grants, and stipends (judged on the criteria of the stipend). Students who fail to make SAP by the end of the payment period lose Financial Aid eligibility.

It is the policy of the Financial Aid Office (FAO) that once a student has been placed on academic probation for not meeting SAP standards as defined by the College, the FAO will automatically place the student in a Financial Aid Warning status. During the next academic term, if the student does not meet SAP standards and the college places the student on academic suspension, the student will no longer be eligible for financial aid. If the student appeals the academic suspension and the appeal is approved, financial aid will be reinstated. If the student is directed to audit courses, those courses will not be covered by financial aid.

Tutorial Assistance Program

A Tutorial Assistance Program (TAP) has been established to assist students experiencing academic difficulty. Students will be recommended for this program by a faculty advisor, the Assistant Dean of Student Affairs or professor. Students may self-identify to TAP to receive assistance. The tutors will be chosen on the recommendation of the faculty in each discipline. Group tutoring is the methodology most used by the TAP department. For assistance, contact the Learning Enhancement and Academic Development Office (LEAD).

Remediation

Academic competence is demonstrated through satisfactory performance in coursework, assignments, and practical exams. Students must pass all safety requirements on practical examinations in order to progress and must score at least 77% (C+) on all other requirements to pass a course. Students may repeat an exam or practical only one time. If a student must repeat an exam or practical for any reason, the highest grade the student may obtain for that exam is 77% (C+). However, if the entire course is repeated

the following year, the new course grade will be used in calculating the student's cumulative GPA. If a student does not pass on the second attempt, it will result in an "U" for the course.

Consequences of failure in a Didactic Course:

1. A student who receives a "U" grade (<77%) in a didactic course must remediate the course successfully to progress in the curriculum.
2. Remediation is at the discretion of the course instructor and is to be regarded as a privilege, which must be earned by a student through an active participation in the educational program as demonstrated by regular attendance, individual initiative, professional behaviors, and utilization of resources available to the student.
3. If granted the privilege of remediation the student will be required to remediate or retake the course.
4. Student must pass the remediation examination and all other required assignments in order to pass the course. The highest grade a student can receive through the remediation process is a "77% or C+" (passing grade).
5. If a student repeats a course the next time the course is offered in the DPT curriculum, the student will have the new grade for the course recorded in the semester in which it was repeated. Both grades will remain on the student's transcript; however, only the grade achieved for the most recent repeat of the course will be included in the student's GPA.
6. A grade of "U" in a didactic course will prevent participation in a clinical experience until the course is successfully remediated and requires that the Director of Clinical Education (DCE) determine an appropriate clinical placement.
7. As in all cases in which remediation of a course is required, this requirement may extend the length of the program beyond 36 months. Students will be charged full tuition for repeated coursework
8. Failure to earn a grade of "C+" when remediation of a course is attempted will render the student subject to dismissal from the program and follow due process procedure outlined in the University Catalog.

Consequences of failure in Clinical Courses:

1. A student who is unsuccessful on a clinical experience will receive a grade of "NCR" for that experience.
2. If at any time, a CI or SCCE request that the student not continue at the site because of performance or professional issues, the student will be assigned a "NCR" grade for the experience. The failure of any clinical experience will necessitate review by the faculty and SPC.

3. Students receiving a “NCR” grade for a clinical experience course will be required to repeat the entire clinical experience.
4. Students may not be allowed to restart the clinical experience until the DCE/ADCE has determined if the student must remediate any specific physical therapy competencies, whether through an Independent Study course or the use of Standardized Patient experience.
5. Remediation will delay the student’s progress to graduation and extend the program completion date. Additional tuition may be charged for remediation of physical therapy competencies that require enrollment in an Independent Study course and/or the use of a Standardized Patient Experience. Students who must repeat a clinical experience course will be charged full tuition for the repeated course.
6. The location, length and type of clinical experience that will be used to substitute for the remediation clinical experience will be determined by the DCE/ADCE in consultation with the core faculty, faculty advisor and Program Chair. Assignment dates and location will be based on availability of sites.
7. Students that are provided an opportunity to repeat a failed clinical experience may be required to complete weekly check-in assignments with the DCE for the length of the experience.
8. The student will be referred to the Student Progress Committee by the faculty with recommendations, and that committee will review the recommendations.
9. Once the committee meets, these findings will be forwarded to the Dean, following the University guidelines, outlined in the catalog. Recommendations may include enrollment in the remediation independent study course, starting the program over, returning the following year to progress with a different cohort, or dismissal from the program.
10. The student will be permitted to continue didactic work with their cohort the semester following the unsuccessful clinical experience.
11. During the next regularly scheduled clinical experience, the student will register for the same clinical experience that was previously failed. Course syllabus and requirements will remain the same. The student will be financially responsible for repeating the course.
12. If successful, the student will continue to progress with their cohort and will continue to take clinical education courses sequentially. The final clinical experience will occur following the completion of didactic work in the summer of the final (3rd) year of the program.

13. The highest grade a student may achieve by obtaining a 77 percent or higher score through remediation of a course is a grade of "CR." The "CR" grade achieved by this means will be recorded on the official transcript next to the original course grade of "NCR."
14. If the student receives 2 "NCR" grades in any 2 clinical experiences, the student will be subject to dismissal from the PT program and follow due process procedure outlined in the University Catalog.

Semester/ Cumulative GPA

1. Students must attain a semester GPA of 2.80 and maintain a cumulative GPA of 2.80. The semester and cumulative GPA will be calculated at the end of each semester.
2. A student whose semester or cumulative GPA falls below 2.80 must meet with their faculty advisor.
3. If the semester or cumulative GPA falls below 2.80, a student will be placed on academic probation immediately for the following semester. If a student has two didactic semesters in the same academic year with a GPA of less than 2.80 and a cumulative GPA at or greater than 2.80, they may be required to repeat the entire academic year.

Dismissal

A student will be subject to dismissal from the program for substandard academic or professional performance as follows:

1. A grade of "U" or "NCR" in two (2) different required courses (didactic or clinical experiences) throughout the 3-year program.
2. A second grade of "U" or "NCR" in the same required course (didactic or clinical experiences) whether earned by repeating the course or because of unsatisfactory performance upon attempted remediation via examination.
3. Attainment of a semester and/or cumulative GPA less than 2.80 and two (2) or more grades of "U" within the same semester.
4. Attainment of a semester and/or cumulative GPA less than 2.80 for two or more consecutive didactic semesters.
5. Failure to attain a cumulative GPA of 2.80 or higher at the end of the academic year.
6. Lack of professional or personal attributes considered appropriate for continuance in the program and profession.
7. Violation of the terms of probation, whether academic or professional, as stated in a letter at the time the student is placed on probation.

Evaluation and Grading

The DPT (Professional) program's semesters are designed so that students' work toward achievement of competencies is measured by written and practical examinations and by evaluations of clinical performance and professional development. Specific behavioral objectives are defined for each program component to assist the students and the faculty members in evaluating the degree of attainment of the objectives throughout the 36-month curriculum.

Evaluation Methods

Overall student performance is evaluated during each phase using one or a combination of the following methods:

1. **Written examinations:** Written examinations will vary based on the content of the individual course. A combination of multiple choice, matching, true/false, short answer, essay, and patient problem-solving questions are used.
2. **Practical or Laboratory Examinations:** In selected courses, students will be observed performing components of physical therapy practice activities on lab exams. They also may be asked to "problem solve" based on a patient database, and in some cases, students will be videotaped for evaluation and/or self-evaluation. Audio-visual media may also be used in examinations.
3. **Student Presentations:** Students may be asked to orally present individual or group projects, patient cases, research papers, etc. These oral presentations may or may not be accompanied by a written report.
4. **Written reports:** At various times, students will be evaluated on written reports of assigned or selected topics, special projects, patient care documentation, evaluations, treatment plans, and home programs.
5. **Professional Development Assessments:** Assessments of each student's academic, professional, and interpersonal growth and development are shared with them on an individual basis periodically during each phase of training.
6. **Clinical Evaluations:** Supervising Clinical Instructors (CI's) are asked to assess the student's level of attainment of competencies related to selected parameters within the domains of knowledge, skills, and attitudes; and to evaluate the student's overall performance while on clinical education experiences. The Clinical Performance Instrument (CPI), which incorporates physical therapist clinical performance criteria, is one of the clinical evaluations utilized. Students are responsible for completing the requirements for use of the PT CPI Web prior to starting a 12-week clinical experience and ensuring that the PT CPI is completed, and all supporting documents are returned to the DCE and or the ADCE after each clinical experience. CI's or Site Coordinators of Clinical Education (SCCE's) are encouraged to discuss the student's performance and progress throughout the clinical assignment and to discuss the final evaluation prior to completion of the experience. The CI will indicate whether the clinical experience was successful or unsuccessful in accordance with designated clinical objectives. While the CI may recommend success or failure of the clinical experience, the DCE and or ADCE determines and administers the actual course grade.

Professional Performance

Ability-Based Assessment

The faculty supports the concept of development of professional behaviors throughout the program. The behaviors that have been identified include: (1) commitment to learning; (2) interpersonal skills; (3) communication skills; (4) effective use of time; (5) use of constructive feedback; (6) problem solving; (7) professionalism; (8) responsibility; (9) critical thinking; and (10) stress management.

Professional behavior is vital to the success of each student, the WesternU Physical Therapy program, and the physical therapy profession. The process of becoming an effective physical therapist involves attaining competency in professional knowledge, skill, and behavior. Thus, the ten Generic Abilities that exemplify the professional behaviors valued by the physical therapy profession will be used as a guide throughout this program. To facilitate development of competency in the Generic Abilities, the faculty will provide the students opportunities to practice them and provide formal and informal feedback throughout the program. The student will be responsible for ongoing self-assessment and for seeking feedback from faculty, clinical instructors, and fellow students.

Students' progress through the program is based upon successful completion of expected competencies and demonstration of expected professional behavior and attitudes. At the completion of each semester/year of the program, before the student is allowed to progress to the next semester/year, the student's record of achievement is reviewed by the faculty. The quality of professional behavior expected of WesternU DPT graduates is exemplified by the Generic Abilities and the three levels of associated behavioral criteria. Satisfactory progress is demonstrated by exhibiting beginning-level criteria by the end of the first year, developing-level criteria by the end of the second year, and entry-level criteria by the end of the final clinical internship.

The faculty determine if the student has demonstrated the knowledge, skills, and attitudes necessary to be eligible for progress for the next semester/year. In special instances, the faculty may be convened at other than scheduled times to consider cases of unusual circumstances, such as probation or dismissal.

Grading Scale

Final course grades are given based upon the traditional 4-point letter system, as follows:

<u>Grade</u>	<u>Equivalent</u>	<u>GPA Points</u>
A	93-100%	4.00
A-	90-92%	3.70
B+	87-89%	3.30
B	83-86%	3.00
B-	80-82%	2.70
C+	77-79%	2.30
U	Less than 77%	0.00
CR	Credit	N/A
NCR	No Credit	N/A

* A "C+" grade in and of itself is a passing grade. If the number of "C+'s" totals an amount to bring the student's GPA to below 2.80, then the performance, based on professional expectations, is considered unsatisfactory.

ADMINISTRATIVE GRADES

<u>Grade</u>	<u>Equivalent</u>	<u>GPA Points</u>
AU	Audit	N/A
I	Incomplete	N/A
W	Withdrawal	N/A
M	Missing	N/A
WPC	Waived for Prior Credit	N/A

Grade Reports

Final course grades are issued at the completion of each semester and will be available on the Student Portal, you.westernu.edu. Due to the nature of the curriculum, semester completion dates may not coincide with traditional grading periods. In some courses when final grades are not available at grade reporting time, a grade of "M" (Missing) is submitted to the Registrar in lieu of the course grade. "M" grades are entered on the grade reports and are converted to student achieved grades at the earliest possible opportunity. An up-to-date summary of student performance is maintained in the Department Office and is available to each student for review.

Grade Appeals Process

Review of Examinations

Examinations are graded within two (2) weeks of completion unless otherwise notified by the class instructor.

Student performance in clinical education courses is monitored by the DCE and the ADCE. Students whose performance in any portion of the curriculum is determined to be unsatisfactory are notified of such substandard performance as soon as it can be determined.

Appealing a Course Grade

No course grade will be changed unless the instructor certifies in writing to the Registrar that an error in computing or recording of the grade occurred. If the student believes there is just cause to dispute a grade for a course, the procedure is as follows:

1. Within three (3) business days of the date the course grade is posted to BanWeb, student must make an appointment to talk with the course instructor(s) who issued the grade and submit written request for review. Upon receipt of written request from the student, the course instructor(s) shall review the case and a decision shall be made by the course instructor(s) to affirm or modify the grade. Within five (5) business days of the student's written request, the course instructor shall notify the student in writing of the decision. A copy of the letter shall be sent to the student and the Department Chair.
2. Within three (3) business days following written notification to the student regarding the instructor's decision, the student may appeal the decision in writing to the Department Chair. The written appeal request must be accompanied by a narrative explaining the basis of the appeal. The narrative should fully explain the student's situation and substantiate the reason(s) for advocating a reversal of the instructor's prior decision. The Department Chair may grant an appeal

only if a claim of (1) bias, (2) the appearance of new material and documentable evidence that was not available at the time of the instructor's decision, or (3) procedural error that unfairly affected the decision-making process as substantiated by the Department Chair. Upon written request from the student with a valid appeal rationale, the Department Chair shall review the case and within five (5) working days shall issue a decision in writing to the student, which may affirm, modify, or reverse the previous action. A copy of that decision will be provided to the instructor. The Chair's decision is final in all course grade appeals (didactic and clinical), except when the Chair is also the official instructor of the course in question. In such a case, the student will direct their appeal to the Dean or designee of the CHS, following the same guidelines for an appeal to the Department Chair. In addition, in such a case, the decision of the Dean or designee is final.

Audit

An "AU" (Audit) is assigned to a student who pays tuition for the course and attends class activities but does not complete examinations and does not receive course credit. However, under certain circumstances, at the discretion of the College Dean, a student who is repeating or undergoing remediation may be required to complete course examinations and/or other required work products while auditing the course for no grade.

Missing Grades

A grade of 'M' for Missing will be input by the Office of the Registrar if a student's grade is not available by the deadline for grade submission. An 'M' grade is not included in the GPA calculation and will be replaced by the grade earned in the course once submitted by the course director/instructor. 'M' grades should not be used by the program in place of an Incomplete (I) grade.

Incomplete

A student may be assigned an Incomplete grade ("I") only when a personal situation arises during a semester that prevents him/her from completing the course requirements or clinical experience. A student must remove an Incomplete by fulfilling all course requirements by the end of the following semester. An Incomplete that is not removed by the end of the following semester will become a "U" grade.

In the event that the student receives an "I" in a clinical experience, arrangements to fulfill the requirements will be made by the DCE and or the ADCE in consultation with the student. Arrangements for the Incomplete and its removal must be approved by the course instructor DCE and or ADCE prior to the end of the semester in which the original incomplete grade was assigned. An Incomplete that is not removed by the end of the following semester will become a "NCR" grade.

Credit Hour Calculation

Courses are rated at one credit hour for 15 hours of lecture or 30 hours of laboratory and/or practice sessions. One credit hour will be assigned for every two weeks of a full-time clinical education experience.

Curriculum Organization

DPT 2023

Year 1

Year 1, Fall Semester		
Course	Title	Credit Hours
IPE 5000	Patient Centered Cases I	1.00
PT 5015	Professional and Practice Issues in Physical Therapy	3.00
PT 5030	Anatomy I	4.00
PT 5050	Kinesiology I	3.00
PT 5070	Patient Care Skills I	3.00
PT 5100	Physiology and Pathophysiology	5.00
PT 5130	Research Methodology in Health Care	3.00
Semester Total:		22.00
Year 1, Spring Semester		
Course	Title	Credit Hours
IPE 5100	Patient Centered Cases II	1.00
PT 5000	Psychosocial and Ethical Aspects of Health Care	3.00
PT 5035	Anatomy II	4.00
PT 5055	Kinesiology II	5.00
PT 5075	Physical Agents and Procedures	4.00
PT 5140	Evidence Based Practice: Application of Research to Clinical Practice	3.00
PT 5141	Professional Development and Reflective Practice	1.00
PT 5230	Screening for Medical Referral I	2.00
PT 8100	Introduction to Pharmacology for Physical Therapists	1.00
Semester Total:		24.00
Year 1, Summer Semester		
Course	Title	Credit Hours
PT 5120	Human Life Sequences	2.00
PT 5215	Motor Control and Motor Learning	2.00
PT 5233	Foundations of Patient Examination	2.00
PT 5235	Screening for Medical Referral II	2.00
PT 8110	Structural Imaging: Musculoskeletal	2.00
PT 8400	Capstone Project	1.00
Semester Total:		11.00
Year 1 Total:		57.00

Year 2

Year 2, Fall Semester		
Course	Title	Credit Hours
IPE 6000	Team Training in Health Care I	1.00
PT 5205	Examination and Management of Musculoskeletal Dysfunction I	5.00
PT 6008	Neuroscience	5.00
PT 6030	Physiological Basis of Therapeutic Exercise	4.00
PT 6040	Evaluation and Treatment of Problems Cardiopulmonary System	4.00
PT 6060	Prosthetics and Orthotics	2.00
PT 6630	Structural Imaging II: Neurological	1.00
Semester Total:		22.00
Year 2, Spring Semester		
Course	Title	Credit Hours
IPE 6100	Team Training in Health Care II	1.00
PT 5142	Professional Development and Clinical Education	1.00
PT 5210	Examination and Management of Musculoskeletal Dysfunction II	5.00
PT 5220	Principles of Teaching, Learning, and Communication	2.00
PT 6010	Examination and Management of Neurological Disorders I	5.00
PT 6045	Differential Diagnosis of the Integumentary System/Wound Care	2.00
PT 6065	PT Care Skills II	2.00
PT 6075	Prevention and Management of Problems in the Pediatric Population	4.00
Semester Total:		22.00
Year 2, Summer Semester		
Course	Title	Credit Hours
PT 7020	Clinical Education II	6.00
Semester Total:		6.00
Year 2 Total:		50.00

Year 3

Year 3, Fall Semester		
Course	Title	Credit Hours
PT 5143	Professional Development and Clinical Practice	1.00
PT 6015	Examination and Management of Neurological Disorders II	5.00
PT 6050	Principles of Administration and Management	3.00
PT 6070	Prevention and Management of Problems in the Aging Adult	3.00
PT 6090	Differential Diagnosis and Management of the Complex Patient	3.00
PT 8401	Capstone Project II	1.00
Semester Total:		16.00
Year 3, Spring Semester		
Course	Title	Credit Hours
PT 7030	Clinical Education III	6.00
Semester Total:		6.00
Year 3, Summer Semester		
Course	Title	Credit Hours
PT 7040	Clinical Education IV	6.00
PT 8402	Capstone Project III	3.00
PT 8500	Selected Topics	2.00
PT 8600	Community Service	2.00
Semester Total:		13.00
Year 3 Total:		35.00

DPT 2022 & DPT 2021

Year 1

Year 1, Fall Semester		
Course	Title	Credit Hours

Additional Course(s)

Students who have not met a minimal level of proficiency in the clinical education experience may be required to enroll in an independent study to fulfill course remediation requirements prior to assignment to a repeated clinical experience.

Doctor of Physical Therapy (Post-Professional)

General Information

Offered completely online, the DPT (Post-Professional) program offered by WesternU, gives practicing clinicians (holding an entry-level degree at either the baccalaureate or master's level) an easy access to make their formal education congruent with students graduating from entry-level DPT programs. The program's goal is to educate clinicians to achieve practice consistent with the American Physical Therapy Association (APTA) Vision 2020 and beyond, "...physical therapy will be provided by physical therapists who are doctors of physical therapy, recognized by consumers and other health care professionals as the practitioners of choice to whom consumers have direct access for the diagnosis of, interventions for, and prevention of impairments, functional limitations, and disabilities related to movement, function, and health." This program is also designed to provide educational opportunities for physical therapists educated outside of the United States to develop the additional knowledge, skills and clinical reasoning required to meet entry-level US standards.

The DPT (Post-Professional) program is designed for clinicians to improve their clinical skills and enhance their personal growth and career opportunities. Graduates will possess the requisite knowledge, skills, and behaviors to practice physical therapy in a truly scientific manner (i.e., using evidence-based practice).

The curriculum of this program is designed to accommodate the DPT (Post-Professional) adult learner who endeavor to complete a doctoral level degree while continuing to participate in their professional and personal responsibility. The curriculum offers a full spectrum of educational opportunities whose content meets or exceeds that described by the American Physical Therapy Association's (APTA) Preferred Curricular Guide for the DPT (Post-Professional) program. These content areas include medical screening, medical imaging, pharmacology, ethical and legal issues in practice, clinical decision-making using the patient client management model, wellness and prevention, leadership and professional issues, professionalism in an autonomous profession, evidence-based practice, and research/professional scholarship.

Prior to initiating course work students are required to attend a mandatory orientation course, PT 6600 Strategies for Successful Learning, in order to prepare them for the on-line learning experience. Web-based learning begins the first day of the first semester allowing students to be online, engaged in program curriculum and learning activities from the beginning of their academic experience. The DPT web site is designed to provide the learner with the direction required to be successful in each course including learning objectives, course content, learning activities, evaluation methods, and grading criteria.

Every course is structured differently based on the content area that is taught. Cooperative learning is emphasized throughout the program and students get an opportunity to work with professional colleagues who bring a wealth of experience in the physical therapy field. Students may be assigned to groups in order to apply their collaborative problem-solving skills toward the resolution of case-based scenarios. The learning materials are available electronically and synchronous ("live" audio and/or video discussion) and asynchronous (discussion board) participation gives students the benefit of real-time collaborative learning.

Admissions Policies and Procedures

Admission to the DPT (Post-Professional) program is conducted through the Admissions Office. Students have two opportunities to enter the DPT Post-Professional program; one in the fall, and one in the spring. Students may apply at any time and will then register and begin class at the start of the next available entry term.

Non-Discrimination Policy

In accordance with all applicable federal, state, and local laws, Western University of Health Sciences (WesternU) is committed to ensuring a campus community free from unlawful discrimination. Accordingly, WesternU prohibits unlawful discrimination on the basis of race, color, national origin ancestry, citizenship, ethnicity, creed, religion or religious creed, sex or marital status, sexual orientation, disability (both physical and mental) including HIV and AIDS, medical condition (cancer and genetic characteristics), pregnancy (which includes childbirth, breastfeeding and medical conditions related to pregnancy, childbirth or breastfeeding), age, genetic information, military and veteran status, or any other characteristic protected under applicable law, in the administration of its programs or activities. WesternU also prohibits unlawful harassment, including Sexual Harassment. Lastly, WesternU is committed to providing equal access to and equal opportunities to all members of its campus community in accordance with all applicable laws.

This non-discrimination policy applies to applicants, students, and alumni. Additional nondiscrimination information can be found in the Nondiscrimination, Anti-Harassment, and Anti-Retaliation Policy, located in the University Catalog.

Reasonable Accommodation for Disabilities

Candidates and students must be able to perform all the essential functions of the program with or without reasonable accommodation. A student who discloses a disability and requests accommodation will be referred to the Harris Family Center for Disability and Health Policy (CDHP). The student will be asked to provide documentation of the disability for the purposes of determining appropriate accommodations. The Department of Physical Therapy Education will provide reasonable accommodations but is not required to make modifications that would substantially alter the nature or requirements of the program. A student with questions regarding reasonable accommodation can contact the CDHP office.

Application Requirements

Current admission and application requirements for the DPT (Post-Professional) program, including prerequisite coursework requirements, can be located on the [Prospective Student website](#).

The Western University of Health Sciences DPT (Post-Professional) program is committed to admitting individuals with a disability provided they meet all of the qualifications listed for the Professional students above as well as the technical guidelines listed in the previous section with reasonable accommodations.

Application Procedures and Deadlines

Students are advised to submit application materials as early as possible prior to the semester in which they wish to begin their program of studies. Students are allowed to take up to two classes prior to enrolling but must submit electronically their application for admission to the admissions office before the end of their second class in order for those classes to count toward their degree.

To request an informational brochure and/or an application, contact the Admissions Office at

Office of Admissions
Western University of Health Sciences
309 E. 2nd Street
Pomona, CA 91766-1854
(909) 469-5335

<https://prospective.westernu.edu/health-sciences/pp-dpt/apply/>

In addition to submitting an application, the applicant must submit a non-refundable application fee of \$60.00 and official transcripts from all undergraduate and graduate institutions attended.

Proficiency in English

All students are required to demonstrate proficiency in English upon application to the WesternU DPT (Post-Professional) program. Proficiency can be demonstrated via one of the following methods:

1. English is your first language.
2. Graduation from a regionally accredited University or college in the United States.
3. Demonstration of English proficiency by submission of acceptable scores from International English Language Testing Systems (IELTS) or Test of English as a Foreign Language (TOEFL)
 - a. Acceptable Scores
 - i. IELTS: 6.5
 - ii. TOEFL:
 1. Paper-based total score = 550
 - a. Minimum 56 on Reading Skills
 - b. Minimum 61 on Writing Skills
 2. Computer-based total score = 213
 - a. Minimum 22 on Reading Skills
 - b. Minimum 26 on Writing Skills
 3. Internet-based total score = 80
 - a. Minimum 21 on Reading Skills
 - b. Minimum 24 on Writing Skills

Conditional Admission

Conditional admission may be granted to Post-Professional DPT applicants with the stipulation that the student achieve and maintain a 3.00 GPA in the program.

Readmission

Students with Post-Professional Standing who have not been enrolled for more than one calendar year must submit a new application form and fee, unless other arrangements have been made at the time of withdrawal/leave from the program. The application will be assessed according to the current admissions policies, and students will be required to fulfill all program requirements in place at the time of readmission.

Requirements for Completion of the DPT (Post-Professional) Program

The maximum number of graduate units that may be waived from past education is 133 units. Upon review of transcripts and course descriptions, the Director of the Post-Professional Program will design an individualized plan of study for each student to meet the requirements of the DPT (Post-Professional) program, which must be in alignment with the Professional DPT curriculum. Coursework not meeting alignment with the content or credit requirements of the WesternU Professional DPT curriculum will need to be made up and will be addressed in the individualized plan of study. Applicants currently holding an advanced board certification in Orthopedics, Neurology, or Cardiology (OCS, NCS, or CCS) through the American Board of Physical Therapy Specialties, or who have completed an APTA accredited residency or fellowship in one of these areas, may be eligible to waive the corresponding Post-Professional DPT Advanced Differential Diagnosis course. Documentation must be provided for this consideration. A minimum of 12 units must be completed with coursework offered by the DPT (Post-Professional) program at WesternU.

Continuing Education and Non-Degree Students

An applicant holding a bachelor's or master's degree in Physical Therapy and a license to practice in the United States, who does not wish to pursue the Post-Professional DPT degree at WesternU at the present time, but who wishes to engage in graduate study for personal development, continuing education, or other professional development needs, may consider enrollment as a non-degree student. Foreign-trained physical therapists must be licensed to apply to the program or enroll in courses. The department registration procedures must be followed.

Admission as a non-degree student does not assure acceptance as a degree candidate, should the student later wish to change enrollment status. A maximum of two courses may be taken while in non-degree status. Should the student wish to change enrollment status, the usual admissions procedures must be followed. No more than two courses taken as a non-degree student at WesternU can be applied towards the Post-Professional DPT degree. A minimum of 12 units, including the two prior courses (if applicable) must be completed after acceptance to the program to meet degree requirements. All criteria for admissions to the DPT (Post-Professional) program and the admitted student's degree requirements are based on the catalog in place at the time of application and acceptance to the program. Questions about changing from non-degree to degree status should be directed to the Director of the Post-Professional program.

International Students

International students and any other applicants who are not U.S. citizens and who are living in the U.S. should be prepared to provide proof of legal U.S. residency at the time of interview. Proof of legal U.S. residency is required prior to any offer of acceptance. For detailed information, please visit our web page for [International Students](#).

Registration

New Students

New students admitted with Post-Professional Standing are notified by email of their admission status. Classes may fill quickly; therefore, the student is encouraged to register early. The registration dates are set by the Registrar. A Post-Professional DPT student, who is registering for the first time, whether they are accepted or non-degree seeking, will register through the DPT program Department Manager. Course information and schedule of classes are available from the Department Manager.

Continuing Students

All WesternU students are required to register by the registration deadlines specified by the University Registrar. Registration dates are posted on the [Registrar's Office](#) website. Failure to register by the deadline may be grounds for administrative withdrawal. All students registering after the posted deadline will be assessed a \$30.00 per business day late fee.

Full tuition and fees and all prior debts must be paid in full on or by posted deadlines each academic year. Matriculation is subject to the satisfactory completion of all academic requirements and payment of all outstanding debts to the University. The receipt of the final transcript(s) from all colleges/universities attended and a physical examination with documentation of required immunizations (if applicable) prior to registration are additional requirements for incoming students.

Registration Late Fee Appeals

If you are assessed late fees for a registration period, you may submit an appeal to the Registrar. For additional information on the appeal process, please see the [Registration Late Fees](#) page on the Registrar's Office website.

Student Health Insurance Requirement

All full-time students at WesternU are required to have active health insurance while enrolled. All students are automatically assessed half of the entire year's insurance premium and will be enrolled in the student health insurance plan until they submit proof of coverage that meets the University's requirements. For additional information on student health insurance requirements and/or waiving out of the student health insurance plan, please see the [Student Health Insurance](#) page on the Registrar's Office website.

Student Initiated Changes in Enrollment Status

Course Drop/Withdrawal

Students may voluntarily drop a class by working with the Director of the Post-Professional program and completing the necessary paperwork. Course drops are processed as follows:

0-20% of Course Completed (Based on Course Start/End Dates)	Course is removed from student's registration and will not appear on student's academic transcript.
20-99% of Course Completed (Based on Course Start/End Dates)	Course is assigned a grade of 'W' to indicate the student withdrew from the course. 'W' grades will appear on the student's academic transcript but will not be included in the student's GPA calculation.

100% of Course Completed (Based on Course Start/End Dates)	Course is assigned the grade earned.
--	--------------------------------------

Leave of Absence

A student may request a Leave of Absence (LOA) with the occurrence of a medical emergency or illness, personal issues, financial hardship, or military service. Students must be in good academic standing to be eligible for a Leave of Absence. For additional information on requesting a Leave of Absence, please see ‘Student Initiated Changes in Enrollment Status’ in the University Catalog, General Academic Policies, and Procedures section.

Withdrawal from University/Academic Program

Matriculation at the University is a privilege granted in consideration of specified levels of performance and of maintaining the established standards of scholarship and personal and professional conduct. The University reserves the right to require withdrawal at any time it deems necessary to safeguard its standards of scholarship, conduct, and orderly operation. The student concedes this right by act of matriculation. For additional information on withdrawing from the University, please see ‘Student Initiated Changes in Enrollment Status’ in the University Catalog, General Academic Policies, and Procedures section.

Full-time/Part-Time Status

All DPT students enrolled in at least 6.00 units are considered full-time students. DPT students enrolled in 4.50 to 5.99 units are considered three-quarters-time students. DPT students enrolled in 3.00 to 4.50 units are considered part-time students.

Residency Requirements

A minimum of 12 units must be completed with course work offered by the DPT (Post-Professional) program at WesternU.

Time Limits

The DPT (Post-Professional) program may be completed within 2 ½ years of part-time study. All requirements for the degree must be fulfilled within 3 years, 3 months from the date of acceptance to the program. Students who are unable to complete the program within the maximum time allotted may be subject to Administrative Withdrawal. Extensions of this time limit may be granted through petition to the faculty and Department Chair.

Tuition and Fees

By action of the Board of Trustees, DPT (Post-Professional) tuition and fees for the 2020/2021 academic year (subject to change) are as follows:

\$477.00	Per Credit Hour Tuition
----------	-------------------------

Other Fees and Expenses:

\$30.00	Registration Late Fee (per business day)
\$50.00	Late Payment Fee (per month)
\$350.00	Graduation Fee
\$1,000.00	Laptop Computer (Approx.)
\$40.00	Locker Key Replacement Charge
\$10.00	Official Transcript (Each)
\$21.00	Rush Transcript, First Class Mail (Each)
\$25.00	Rush Transcript, Federal Express (Each)
\$10.00	Student ID Replacement Fee
TBD	Breakage Fee (Replacement Cost)

Additional DPT Program Education Requirements

The DPT (Post-Professional) program requires that each enrolled student have a laptop computer with internet access and computer privacy screen. Course assignments and exams will be given that necessitate access to a computer and the Internet. Laptop specifications can be found at <http://www.westernu.edu/computing/computing-students>.

General Academic Policies and Procedures

Unless otherwise stipulated in this section, all other Academic Policies and Procedures, Standards of Academic Progress, and Standards of Professional Conduct of the DPT (Professional) program must also be met.

Standards of Academic Progress

All students admitted to the DPT (Post-Professional) program are expected to make reasonable progress each year toward the degree objective. Students with Post-Professional Standing are considered to be making reasonable academic progress when they maintain a cumulative GPA of at least 2.80 and complete four to six units during the academic year.

Financial Aid Warning Policy (Title IV and Title VII)

If a student is not making Satisfactory Academic Progress (SAP) they may be placed on “Financial Aid Warning” status for the next payment period and continue to receive financial aid for that period. Financial Aid is any financial assistance offered to the student for paying for their education, such as loans, scholarships, Federal Work-Study, grants, and stipends (judged on the criteria of the stipend). Students who fail to make SAP by the end of the payment period lose Financial Aid eligibility.

It is the policy of the Financial Aid Office (FAO) that once a student has been placed on academic probation for not meeting SAP standards as defined by the college, the FAO will automatically place the student in a Financial Aid Warning status. During the next academic term, if the student does not meet SAP standards and the college places the student on academic suspension, the student will no longer be eligible for financial aid. If the student appeals the academic suspension and the appeal is approved, financial aid will be reinstated. If the student is directed to audit courses, those courses will not be covered by financial aid.

Curriculum Organization

Students must meet all the requirements for the DPT (Professional) program as listed in the previous section. Credit may be given for previous coursework. It is anticipated that students will be required to complete at least the following courses, unless their portfolio shows evidence of mastery of course content:

Course	Title	Credit Hours
PT 6600	Strategies for Successful Learning	0.00
PT 8101	Pharmacology for the Physical Therapist	3.00
PT 8111	Structural Imaging in Physical Therapy Diagnosis	3.00
PT 8120	Medical Screening and Differential Diagnosis	4.00
PT 8130	Advanced Differential Diagnosis I	2.00
PT 8133	Advanced Differential Diagnosis II	2.00
PT 8135	Advanced Differential Diagnosis III	2.00
PT 8140	Application of Research to Evidence-Based Practice	3.00
Total:		19.00

Additional Courses

These additional courses have been specifically designed for students with Post-Professional Standing who may not have met a minimal level of proficiency in these areas prior to admission to the program. Proficiency level will be determined through a review of the applicant's portfolio. Students may opt to take an equivalent course offered in the first professional DPT degree program to fulfill content not obtained through previous academic programs, continuing education, or clinical experience. Another option offered to students is to complete a group or individual independent studies course to fulfill course requirements.

Course	Title	Credit Hours
PT 8200	Professional Leadership and Ethics	2.00
PT 8210	Documentation and Health Care Financing	2.00
PT 8230	Wellness and Prevention/Community Education	3.00
PT 8698	Group Independent Studies	1.00 – 3.00
PT 8699	Individual Independent Studies	1.00 – 3.00

Exemption from Individual Course (Post-Professional Students Only)

Students with advanced work or degrees in a particular subject may formally petition the course instructor and Department Chair for credit in an individual course. The petition must include the reasons for the request and all necessary documentation. If enrolled in the course, the petition must be submitted before the first week of the course; however, it is highly recommended to submit a petition for exemption prior to registering for the course. If enrolled in the course, the student must comply with the course attendance policy until notification of exemption has been granted. Once the course instructor and Department Chair have reviewed the petition and determined the student is a candidate for exemption, the student is required to complete, successfully, a comprehensive examination for which there is an examination fee.

Course Descriptions

All courses are awarded letter grades, except when indicated otherwise. Prerequisite course requirements refer to the successful completion of a designated course(s) or approval/permission of the individual course instructor prior to enrollment. A student is required to petition the faculty in writing if they wish to be considered for advancement without successfully meeting the course prerequisite(s). The faculty may waive compliance of successful completion of a course prerequisite in order to progress to the next required course(s). The Department Chair/designee will provide the student with written approval or denial of the requested waiver within two working days of receipt of the petition. The student may remain in class or on a clinical education experience pending notice of the outcome from the Department Chair/designee.

IPE 5000 Patient Centered Cases – An Interprofessional Approach I (1.0 credit hour, CR/NCR)

This course is a required university seminar for all first-year health professional students. This course prepares students to practice health care services through a team approach. Working in small interprofessional teams, students will explore cases representing conditions across the life span. The cases will integrate elements common to all professionals such as ethical, behavioral, social, and psychological issues. This course is a graduation requirement for all health professional programs.

IPE 5100 Patient Centered Cases – An Interprofessional Approach II (1.0 credit hour, CR/NCR)

This course is a required university seminar for all first-year health professional students. This course prepares students to practice health care services through a team approach. Working in small interprofessional teams, students will explore cases representing conditions across the life span. The cases will integrate elements common to all professionals such as ethical, behavioral, social, and psychological issues. This course is a graduation requirement for all health professional programs.

IPE 6000 Team Training in Health Care I (1.0 credit hour, CR/NCR)

IPE 6000 will continue to build upon the knowledge from the IPE 5000 series but will expand upon that knowledge and require the student to learn and apply advanced tools and strategies that are crucial to develop a collaborative healthcare team. The majority of the course is independent study with students engaging in a large-scale tabletop activity where they apply team tools necessary to solve a healthcare dilemma.

IPE 6100 Team Training in Health Care II (1.0 credit hour, CR/NCR)

This course is a continuation of IPE 6000.

OM 5001 Summer Preparedness and Readiness Course (SPaRC) (0.0 credit hours, CR/NCR)

In an interprofessional environment, the SPaRC prepares incoming students for the rigors of their program with an introduction to various curriculum topics including the skeletal system, gross anatomy lecture and cadaver lab, and pharmacology. The anatomy component focuses on the skeletal, muscular, cardiovascular, and nervous systems, yet provides a brief overview of other body systems as well. Additional lecture overviews to program-specific content are also provided. Academic skills presentations focus on enhancing study, test taking, and the development of EQ skills. Acceptance into this program is at the discretion of the coordinating office. The course is elective and does not meet any specific requirements of the program curriculum. A separate tuition of \$950 is charged. For additional information, contact Learning Enhancement and Academic Development (LEAD).

PT 5000 Psychosocial and Ethical Aspects of Health Care (3.0 credit hours)

Prerequisite: Acceptance to program. Introduction to the psychological, sociological, and cultural aspects of acute, chronic, terminal, traumatic, and congenital medical problems on the patient, family, and therapist. Includes impact of verbal and non-verbal communication and patient advocacy. Overview of basic legal and ethical principles, as well as application of ethical decision-making in relationship to professional health care dilemmas. Lecture.

PT 5015 Professional and Practice Issues in Physical Therapy (3.0 credit hours)

Emphasis on elements of the professional therapeutic relationship and concepts presented in the *Guide to Physical Therapist Practice*. This course will cover a broad perspective of world, national and state health care issues, professional advocacy, and professional aspects of physical therapy practice, including reimbursement in a variety of practice settings. Lecture.

PT 5030 Anatomy I (4.0 credit hours)

Prerequisite: Acceptance to the program. The first of two courses covering normal human anatomy, including thorax, abdomen, and the upper extremities. Incorporates surface palpation of the entire body. Cadaver dissection is included. Lecture and Laboratory.

PT 5035 Anatomy II (4.0 credit hours)

Prerequisite: Successful completion of PT 5030 and 5050. The second of two courses covering normal human anatomy, including lower extremities, spine, head, and neck. Emphasis is placed on the Neuromusculoskeletal system. Cadaver dissection is included. Lecture and Laboratory.

PT 5050 Kinesiology I (3.0 credit hours)

Prerequisite: Acceptance to the program. Introduction to the theoretical principles and clinical applications of kinetics and kinematics to the axial and extremity joints and muscles, with an emphasis on normal function. Pathokinesiology is addressed as an aid to identify major concepts and to introduce clinical relevance. The course includes basic evaluation of the musculoskeletal system. Lecture and Laboratory.

PT 5055 Kinesiology II (5.0 credit hours)

Prerequisites: Successful completion of PT 5030 and 5050. Continuation of PT 5050 on the theoretical principles and clinical applications of kinetics and kinematics to the axial and extremity joints and muscles, with emphasis on normal function and the specific joint analysis in complex tasks. Lecture and Laboratory.

PT 5070 Patient Care Skills I (3.0 credit hours)

Prerequisite: Acceptance to program. Introduction to the basic physical therapy skills of transfers, mobility, soft tissue mobilization, and medical terminology. Introduction to documentation in a variety of physical therapy settings. Lecture and Laboratory.

PT 5075 Physical Agents and Procedures (3.0 credit hours (DPT 2021 & DPT 2022), 4.0 credit hours (DPT 2023 onward))

Prerequisite: Successful completion of PT 5030 and 5100. This course will cover tissue healing and impairments with didactic and clinical application of selected physical agents used in physical therapy practice. Emphasis on clinical decision making in the selection, application, and evaluation of modalities within a comprehensive plan of care to address impairments and functional limitations. Lecture and Laboratory.

PT 5100 Physiology and Pathophysiology (5.0 credit hours)

Prerequisite: Acceptance to program. This course is designed to elucidate the functional characteristics of human physiology. Principles of emphasis include structural basis of function as well as integrational elements underlying homeostatic regulation. The course is also designed to elucidate the characteristics and pathophysiology of certain common and significant diseases that are encountered by physical therapists. Lecture.

PT 5120 Human Life Sequences (2.0 credit hours)

Prerequisites: Successful completion of PT 5000, 5030, 5035, 5050, 5055, and 5100. The developmental process from conception to death with the emphasis on human motor performance. Sequence of study includes fetal life, infancy, early and middle childhood, late childhood, adolescence, early and middle adulthood, and the aging adult including neuroanatomical and neurophysiological mechanisms in relationship to developmental changes in performance, and musculoskeletal development in relationship to the human life span. Lecture and Laboratory.

PT 5130 Research Methodology in Health Care (3.0 credit hours)

Prerequisite: Acceptance to program. This course will cover basic quantitative, qualitative, and epidemiologic methods and designs of research. Topics include ethical issues related to research, validity, and reliability of measures, sampling methods and appropriate statistical analysis for various types of research. Lecture.

PT 5140 Evidence-based Practice: Application of Research to Clinical Practice (3.0 credit hours)

Prerequisite: Successful completion of PT 5130. This course provides students with an opportunity to apply principles and concepts from research methodology in the critical analysis of clinical literature. Emphasis is placed on the practical application of research principles and the scientific process as utilized by an evidence-based practitioner. Lecture.

PT 5141 Professional Development and Reflective Practice (1.0 credit hour)

Overview of clinical education in physical therapy to include the APTA guidelines, legal aspects, and professional development through reflective practice and self-assessment. Portfolio development, scheduling, and assignment for Clinical Education I are incorporated herein. Lecture.

PT 5142 Professional Development and Clinical Education (1.0 credit hour)

Prerequisite: Successful completion of PT 5141. Continuation of PT 5141 on various aspects of professional development and clinical education, including expectations and evaluation of clinical performance and utilization of the clinical evaluation tool, the CPI. Portfolio management, scheduling, and assignment for Clinical Education II are incorporated. Lecture.

PT 5143 Professional Development and Clinical Practice (1.0 credit hour)

Prerequisite: Successful completion of PT 5141, and 5142. Continuation of PT 5142 on various aspects of professional development and clinical practice to include completion of the portfolio, resume writing and interview skills, and an overview of the licensure process. Scheduling and assignment for Clinical Education III and IV are included herein. Optional opportunity for an extended internship via application and interview process. Lecture.

PT 5205 Examination and Management of Musculoskeletal Dysfunction I (5.0 credit hours)

Prerequisite: Successful completion of PT 5120, 5215, 5233, 5235, and 8110. Regional, problem solving approach to neuromusculoskeletal problems in the adult population including underlying foundational

principles. Emphasis is on clinical examination and management skills, including physical therapy differential diagnosis, causal factors, impairments, symptoms, and evidence-based treatment. Introduction of applicable pharmacology used in the patient population, including drug actions and screening for signs of toxicity and adverse effects. Lecture and Laboratory.

PT 5210 Examination and Management of Musculoskeletal Dysfunction II (5.0 credit hours)

Prerequisite: Successful completion of PT 5205, 6030, 6040, and 6060. Continuation of PT 5205.

PT 5215 Motor Control and Motor Learning (2.0 credit hours)

Prerequisite: Successful completion of PT 5030, 5035, 5050, 5055, and 5100. Introduction to the theories, structures, and processes of motor control and motor learning. Lecture and laboratory.

PT 5220 Principles of Teaching, Learning, and Communication (2.0 credit hours)

Prerequisite: Successful completion of PT 5215 and 5233. Communication and teaching-learning theory applied to clinical practice. Includes teaching techniques for being a Clinical Instructor, functioning as a member of an interdisciplinary team and delivering clinical and professional presentations. Lecture.

PT 5230 Screening for Medical Referral I (2.0 credit hours)

Prerequisite: Successful completion of PT 5030 and 5100. This course uses a systems approach to discuss common medical conditions, their epidemiology, etiology, clinical manifestations, medical management, and issues related to PT screening, examination, interventions, and appropriate referral to other medical practitioners. Lecture and Laboratory.

PT 5233 Foundations of Patient Examination (2.0 credit hours)

Prerequisite: Successful completion of PT 5000, 5030, 5035, 5050, 5055, 5070, and 5230. Foundational principles and practice of evidence based clinical physical therapy examination and management of persons with orthopedic and neurologic disorders. Emphasis on critical thinking though focused patient communication in a culturally sensitive manner. Lecture and Laboratory.

PT 5235 Screening for Medical Referral II (2.0 credit hours)

Prerequisite: Successful completion of PT 5230. This course continues from PT 5230 with a focus on screening for the complex patient. A systems approach is utilized to discuss common medical conditions, their epidemiology, etiology, clinical manifestations, medical management, and issues related to PT screening, examination, interventions, and appropriate referral to other medical practitioners. Lecture and Laboratory.

PT 6008 Neuroscience (5.0 credit hours)

Prerequisite: Successful completion of PT 5120, 5215, and 5233. Systematic, problem solving approach to the anatomical and physiological structure and function of the normal and injured central, peripheral, and autonomic nervous systems. Students will develop sufficient knowledge of neurophysiological principles to comprehend nervous system function and alternations resulting from damage. Three-dimensional relationships and functional connectivity will be examined in detail with the ultimate goal of developing the ability to diagnose lesions of CNS based on presenting deficits. Assessment of numerous case studies will familiarize students with organized, logical strategies for deduction of deficits and localization of lesions. Lecture and laboratory.

PT 6010 Examination and Management of Neurological Disorders I (5.0 credit hours)

Prerequisite: Successful completion of PT 5025, 5215, 5233, 6008, 6030, 6040, 6060, and 6630. This course will present a systematic, problem solving approach to neurological disorders in the adult population, including underlying foundational principles. Emphasis is on clinical examination and management skills, including physical therapy differential diagnosis, causal factors, impairments, symptoms, and evidence-based treatment. Introduction of applicable pharmacologic principles appropriate for this population including drug actions and screening for signs of toxicity and adverse effects is included. Lecture and Laboratory.

PT 6015 Examination and Management of Neurological Disorders II (5.0 credit hours)

Prerequisite: Successful completion of PT 5210, 6010, 6020, and 6065. Continuation of PT 6010.

PT 6020 Electrotherapeutic Principles (2.0 credit hours) DPT 2021 & DPT 2022

Prerequisite: Successful completion of PT 5205, 5233, 5235, 6008, 6030, 6040, and 6060. This course provides practical clinical application of electrotherapeutic strategies in the physical therapy management of dysfunction. This will include basic foundational concepts, parameters, electrical safety, and instrumentation. Lecture and laboratory.

PT 6030 Physiological Basis of Therapeutic Exercise (4.0 credit hours)

Prerequisite: Successful completion of PT 5120, 5215, 5233, and 5235. The physiological basis of therapeutic exercise is the foundation for this course, as well as the application of therapeutic exercise to treat acute, sub-acute, and chronic conditions. This course addresses bioenergetics, basic nutritional principles, therapeutic exercise, and exercise prescription based upon the acute and chronic physiological responses of the human body during exercise and other special conditions. Lecture and laboratory.

PT 6040 Evaluation and Treatment of Problems of the Cardiopulmonary System (4.0 credit hours)

Prerequisite: Successful completion of PT 5233, 5235, and 8110. This course serves as an introduction to evaluation and treatment of diseases of the cardio-pulmonary system. It will include physiology and pathophysiology, evaluation methods, treatment methods, and prevention with a focus on differential diagnosis. Introduction of applicable pharmacologic principles for the patient population, including drug actions and screening for signs of toxicity and adverse effects. Lecture and laboratory.

PT 6045 Differential Diagnosis of the Integumentary System/Wound Care (2.0 credit hours)

Prerequisite: Successful completion of PT 5233, 5235, and 6060. This course introduces screening for pathological conditions of the integumentary system including examination and interdisciplinary medical management. Emphasis on wound healing and intervention techniques. This course also introduces aspects of pharmacology used in this patient population, including drug actions and screening for signs of toxicity and adverse effects. Lecture and laboratory.

PT 6050 Principles of Administration and Management (3.0 credit hours)

Prerequisite: Successful completion of PT 5015, 5220, and 5233. Organization and administration of a physical therapy department including budget considerations, hiring-interviewing techniques, marketing and medical-legal issues. Lecture.

PT 6060 Prosthetics, Orthotics, and Gait (3.0 credit hours) DPT 2021 & DPT 2022

Prerequisite: Successful completion of PT 5120, 5125, 5233, 5235, 6008, and 8110. Assessment, appropriate selection, and application of prosthetic and orthotic devices to physical therapy clients with

common neurological and musculoskeletal impairments. Analysis and differentiation of pathological gait patterns related to use of prosthetic and orthotic devices. Lecture and laboratory.

PT 6060 Prosthetics and Gait (2.0 credit hours) DPT 2023

Prerequisite: Successful completion of PT 5120, 5125, 5233, 5235, 6008 and 8110.

This course will involve introduction to rehabilitation use of prosthetics and orthotics, including assessment, appropriate selection, and application of spinal, upper and lower extremity prosthetic and orthotic devices, and shoe/gait modifications to physical therapy clients with common neurological and musculoskeletal impairments. Introductions and overviews of interprofessional collaboration with prosthetic and orthotic specialists will be presented. Lecture and laboratory.

PT 6065 Patient Care Skills II (2.0 credit hours)

Prerequisite: Successful completion of PT 5215, 5233, 5235, 6030, and 6040. Continuation of PT 5070. A case-based approach to patient care with a focus on the acute care setting. Emphasis is on examination and patient care skills of complex patients in an interdisciplinary setting. Critical thinking elements focus on effective communication and patient care documentation. Lecture and Laboratory.

PT 6070 Prevention and Management of Problems in the Aging Adult (3.0 credit hours)

Prerequisite: Successful completion of PT 5120, 5210, 5233, 6010, 6020, 6030, 6040, 6045, 6060, and 6065. Systematic, problem-solving approach to the elderly patient/client with emphasis on prevention, etiology, clinical manifestations, evaluation and treatment, and resources. This course also introduces aspects of pharmacology used in this patient population, including drug actions and screening for signs of toxicity and adverse effects. Lecture.

PT 6075 Prevention and Management of Problems in the Pediatric Population (4.0 credit hours)

Prerequisite: Successful completion of PT 5120, 5215, 5233, 5235, 6008, 6040, 6060, 6630, and 8100. Systematic, problem-solving approach to the pediatric client with emphasis on prevention, etiology, clinical manifestations, evaluation, and treatment. This course also introduces aspects of pharmacology used in the patient population, including drug actions and screening for signs of toxicity and adverse effects. Lecture and laboratory.

PT 6090 Differential Diagnosis and Management of the Complex Patient (3.0 credit hours)

Prerequisite: Successful completion of PT 5210, 5215, 5233, 5235, 6010, 6020, 6030, 6040, 6045, 6065, and 6075. This course employs a mixed traditional and problem-based approach using a case study context. Students learn to differentially diagnose and manage patients with multisystem dysfunction within the scope of physical therapy practice. Lecture and laboratory.

PT 6600 Strategies for Successful learning (0.0 credit hours, CR/NCR)

Prerequisite: Acceptance to program. This course provides new students entering with Post-Professional Standing an introduction to the DPT program. Following an overview of the most important services, policies, instructional methods and resources, students will have an opportunity to assess their readiness for the program. The awareness, knowledge, and skills derived from this part of the course will help ensure successful completion of the program. This course is provided on campus only and must be taken prior to beginning the first semester in the program.

PT 6630 Structural Imaging in Physical Therapy Differential Diagnosis – Neurologic (1.0 credit hour)

Prerequisite: Successful completion of PT 5233 and 8110. This course will introduce indications, instrumentation, and clinical interpretation of various medical imaging techniques. The focus will be on

test selection, clinical interpretation, and practical integration of imaging data into diagnosis of neurological conditions for planning and communication with other medical professionals. Lecture.

PT 7010 Clinical Education I (1.0 credit hour, CR/NCR)

Prerequisite: Successful completion of Semesters I and II. Forty hours per week for two weeks under the direct supervision of a physical therapist serving as the clinical instructor. Application of course content in Semesters I and II will be emphasized in this clinical experience.

PT 7020 Clinical Education II (6.0 credit hours, CR/NCR)

Prerequisite: Successful completion of Semesters I, II, III, IV and V. Forty hours per week for twelve weeks under the direct supervision of a physical therapist serving as the clinical instructor. Application of course content in Semesters I through V (musculoskeletal and/or cardiopulmonary pathologies) will be emphasized in this clinical experience.

PT 7030 Clinical Education III (6.0 credit hours, CR/NCR)

Prerequisite: Successful completion of Semesters I, II, III, IV, V, VI and VII. Forty hours per week for twelve weeks under the direct supervision of a physical therapist serving as the clinical instructor. Application of all course content in Semesters I through VII will be emphasized in this clinical experience.

PT 7040 Clinical Education IV (6.0 credit hours, CR/NCR)

Prerequisites: Successful completion of Semesters I, II, III, IV, V, VI, VII and VIII. Forty hours per week for twelve weeks under the direct supervision of a physical therapist serving as the clinical instructor. Application of all course content in Semesters I through VIII will be emphasized in this clinical experience.

PT 7050 Clinical Internship (0.0 credit hours)

Prerequisite: Successful completion of all prior coursework and selection of clinical facility. An optional 1-year clinical experience via extension of PT 7030 and 7040 in the same clinical facility.

PT 8100 Introduction to Pharmacology for the Physical Therapist (1.0 credit hour)

Prerequisite: Basic and applied pharmacology for the physical therapist. Includes pharmacokinetics, pharmacodynamics, classes of drugs, screening for drug toxicities and adverse effects related to physical therapy. Lecture.

PT 8101 Pharmacology for the Physical Therapist (3.0 credit hours)

Basic and applied pharmacology for the physical therapist. Includes the effects of pharmacotherapy on the health and well-being of patients, and clinical incorporation of pharmacologic information into treatment selection and delivery. Open to students enrolled in the DPT (Post-Professional) program only.

PT 8110 Structural Imaging in Physical Therapy Diagnosis- Musculoskeletal (2.0 credit hours)

Prerequisite: Successful completion of PT 5030 and 5035. This course will introduce indications, instrumentation, and clinical interpretation of various medical imaging techniques. The focus will be on test selection, clinical interpretation, and practical integration of imaging data into diagnosis of musculoskeletal conditions for planning and communication with other medical professionals. Lecture.

PT 8111 Structural Imaging in Physical Therapy Diagnosis (3.0 credit hours)

This course will familiarize the DPT student with the indication, instrumentation, and clinical interpretation of orthopedic imaging techniques, including plain film x-ray, magnetic resonance, computerized tomography, and radioisotope imaging. Selection protocols for each will be discussed to

acquaint the student with advantages and disadvantages of each method and what type of information each technique best presents. This course will focus on the clinical interpretation and practical integration of imaging data into rehabilitation regimen design and communication with other medical professionals. Open to students enrolled in the DPT (Post-Professional) program only.

PT 8120 Medical Screening and Differential Diagnosis (4.0 credit hours)

Prerequisite: Acceptance to the program as a student with Post-Professional Standing. The course uses a systems approach to discuss common medical conditions, their epidemiology, etiology, clinical manifestations, medical management and issues related to PT screening, examination, interventions, and red flags. An introduction to differential diagnosis and systems review in physical therapy is provided with emphasis on the integumentary system. Includes labs on physical exam related to visceral structures for purposes of medical screening and indications for referral to medical practitioner or other appropriate health care providers. May include online lectures/discussions and in class laboratory.

PT 8130 Advanced Differential Diagnosis I (2.0 credit hours)

Prerequisites: Licensed physical therapist with at least one year of clinical experience. This course includes detailed skills for differentiating pathologies within the musculoskeletal system as described in the *Guide to Physical Therapist Practice*. The reliability and validity of relevant PT tests and measures will be explored. The physical therapist will develop higher-level clinical reasoning skills related to developing a PT diagnosis and interventions. Cases will include those with complex presentations, multi-systems involvement, and will encompass the life span.

PT 8133 Advanced Differential Diagnosis II (2.0 credit hours)

Prerequisite: Licensed physical therapist with at least one year of clinical experience. This course includes detailed skills for differentiating pathologies within the cardiovascular and pulmonary systems as described in the *Guide to Physical Therapist Practice*. The reliability and validity of relevant PT tests and measures will be explored. The physical therapist will develop higher-level clinical reasoning skills related to developing a PT diagnosis and interventions. Cases will include those with complex presentations, multi-system involvement, and will encompass the life span.

PT 8135 Advanced Differential Diagnosis III (2.0 credit hours)

Prerequisites: Licensed physical therapist with at least one year of clinical experience. This course includes detailed skills for differentiating pathologies with the neurologic system as described in the *Guide to Physical Therapist Practice*. The reliability and validity of relevant PT tests and measures will be explored. The physical therapist will develop higher-level clinical reasoning skills related to developing a PT diagnosis and interventions. Cases will include those with complex presentations or multi-system involvement and will encompass the life span.

PT 8140 Application of Research to Evidence Based Practice (3.0 credit hours)

Prerequisite: PT 5130 or equivalent. Examines research methods used for the objective and systematic study and evaluation of clinical practices. Applies evidence in the area of physical therapy administration and management to current practice settings following the five steps of evidence-based practice. Includes individual reviews and group on-line discussions.

PT 8200 Professional Leadership and Ethics (2.0 credit hours)

Potential leadership roles of the physical therapist will be discussed. Issues related to professional development and reflective practice, collaboration with other health care providers, and knowledge of

advocacy will be examined. Group discussions will include legal/ethical issues experienced in the clinical setting and in relation to the role of the physical therapist in primary care/direct access.

PT 8210 Documentation and Health Care Financing (2.0 credit hours)

Government, private insurance, and managed care changes in health care financing will be presented. Students will review and critique documentation as a means to developing their own skills in this area.

PT 8230 Wellness and Prevention/Community Education (3.0 credit hours)

The application of primary, secondary, and tertiary prevention and the therapist's role in wellness and health promotion will be discussed. Teaching/learning principles are applied to community education programs including those related to wellness, prevention, and health promotion.

PT 8400 Capstone Project I (1.0 credit hour, CR/NCR)

Prerequisite: Successful completion of PT 5130 and 5140. This course provides the opportunity to select a capstone project in one of three areas: a community service partnership project; a comprehensive case study from a clinical education experience; or an empirical research project. It is expected that the final product will contribute to the community, clinical practice, or professional literature at a level consistent with presentation to a professional audience. Completed projects will be presented as posters or platform presentations prior to graduation.

PT 8401 Capstone Project II (1.0 credit hour, CR/NCR)

Prerequisite: Successful completion of PT 5233 and 8400. This course provides the continued development of the capstone project. Continuation of PT 8400.

PT 8402 Capstone Project III (3.0 credit hours)

Prerequisite: Successful completion of PT 8401. This course is a continuation of PT 8400 and 8401. Completed projects will be presented as posters or platform presentations prior to graduation.

PT 8500 Selected Topics (2.0 – 4.0 credit hours, CR/NCR)

Prerequisite: Approval of instructor. Special topics in physical therapy presented in workshop format. Laboratory experiences may be included.

PT 8600 Community Service (2.0 credit hours, CR/NCR)

Prerequisite: Acceptance to program. Contributions student make beyond their professional role through interaction and service are experienced through practical application. Emphasis on developing the role and responsibility of the physical therapist within a given community.

PT 8697 Individual Independent Studies (1.0 – 3.0 credit hours, CR/NCR)

Prerequisite: Acceptance to program. Students will work on individual assignments/projects to obtain standards in a specified area of the physical therapy curriculum. Course content and assignments will be individualized to address needed topic competency.

PT 8698 Group Independent Studies (1.0 – 3.0 credit hours)

Prerequisite: Acceptance to program as a student with Post-Professional Standing. Students will work in small groups to fulfill competency in a specified area of physical therapy practice. Course content and assignments will be individualized to meet the group's needs.

PT 8699 Individual Independent Studies (1.0 – 3.0 credit hours)

Prerequisite: Acceptance to program. Students will work on individual assignments/projects to fulfill competency in a specified area of physical therapy practice. Course content and assignment will be individualized to meet the student's needs.

Honors and Awards

The following awards are considered for presentation to PT students annually:

- Alpha Eta Honor Society (Professional Students)
- Alumni Award (Post-Professional Students)
- Bertha Oliver Memorial Award
- Class Morale Award
- The Dean's Award
- Leadership and Service Award (Post-Professional Students)
- Physical Therapy Academic Achievement Award
- Physical Therapy Faculty Award
- Physical Therapy Outstanding Clinical Performance Award
- Physical Therapy Outstanding Service Award
- President's Society Award
- Rebecca E. Pabst Memorial Scholarship Award

Academic Calendar

Fall 2020	
August 3-7, 2020	New Student Orientation
August 8, 2020	Convocation/White Coat Ceremony
August 10, 2020	Fall Classes Begin (Years 1-2)
August 14, 2020	Fall Classes Begin (Post-Professional)
August 17, 2020	Fall Classes Begin (Years 3)
September 7, 2020	Labor Day – No Classes*
November 6, 2020	Fall Classes End (Post-Professional)
November 11, 2020	Veterans Day – No Classes
November 25, 2020	Thanksgiving Recess Begins @ 5:00 p.m.*
November 30, 2020	Fall Classes Resume
December 11, 2020	Fall Classes End (Years 1-2)
December 18, 2020	Fall Classes End (Years 3)
Spring 2021	
January 4, 2021	Spring Classes Begin (Years 1-3)
January 15, 2021	Spring Classes Begin (Post-Professional)
January 18, 2021	Martin Luther King Day – No Classes*
February 15, 2021	President’s Day – No Classes*
March 15, 2021	Spring Break Begins (Years 1-2)
March 22, 2021	Classes Resume (Years 1-2)
March 26, 2021	Spring Classes End (Year 3)
April 9, 2021	Spring Classes End (Post-Professional)
May 7, 2021	Spring Classes End (Year 2)
May 14, 2021	Spring Classes End (Year 1)
May 19, 2021	College of Health Sciences Commencement Ceremony
Summer 2021	
April 5, 2021	Summer Classes Begin (Year 3)
April 23, 2021	Summer Classes Begin (Post-Professional)
May 17, 2021	Summer Classes Begin (Year 2)
May 24, 2021	Summer Classes Begin (Year 1)
May 31, 2021	Memorial Day – No Classes*
July 3, 2021	Independence Day Observed – No Classes*
July 16, 2021	Summer Classes End (Post-Professional)
July 23, 2021	Summer Classes End (Year 1)
July 30, 2021	Summer Classes End (Year 3)
August 6, 2021	Summer Classes End (Year 2)

**Students in clinical rotations observe their preceptors hours, which may include working on federal holidays*

Oath for Physical Therapists

As a physical therapist dedicated to providing the highest quality care and services, I solemnly pledge I will:

Respect the rights and dignity of all individuals who seek my services or with whom I work;

Act in a compassionate and trustworthy manner in all aspects of my services;

Exercise sound professional judgment while abiding by legal and ethical requirements;

Demonstrate integrity during interactions with colleagues, other health care providers, students, faculty, researchers, the public, and payers for the enhancement of patient care and the advancement of the profession;

Enhance my practice through life-long acquisition and application of knowledge, skills, and professional behavior;

Participate in efforts to meet physical therapy and health care needs of local, national, and global communities.

Thus, with this oath, I accept the duties and responsibilities that embody the physical therapy profession.
