

Western University of Health Sciences

College of Podiatric Medicine

Doctor of Podiatric Medicine (DPM)
2025/2026 Catalog

Conditions of Accuracy

The information within is accurate at the time of publication and reflects standard operating conditions for the academic year. Students are responsible for informing themselves of and satisfactorily meeting all requirements pertinent to their relationship with the University. Students and others who use this catalog should be aware that the information changes from time to time at the sole discretion of Western University of Health Sciences (WesternU) and that these changes might alter information contained in this publication. More current and complete information may be obtained in the appropriate department, school, or administrative offices. Some changes can also be found on the Western University of Health Sciences website. Western University of Health Sciences reserves the right at any time, without advance notice, to change any part of the catalog; no vested rights shall run or be created by the catalog, including the right to notice of any modification, novation, amendment, supplementation, or other change of any term, provision, or content of the catalog; such right of Western University of Health Sciences to enact changes shall include but not be limited to (a) attendance or curriculum requirements; (b) changes to tuition and fees; (c) changes in the academic calendar; (d) changes in admission and registration requirements; (e) changes in the regulations and requirements governing instruction in and graduation from Western University of Health Sciences; (f) changes of instructors and faculty; (g) changes of rules and regulations governing the students and student body organizations; (h) changes of on-campus facilities; (i) changes of extra-curricular student activities, programs, and offerings; (j) conduct or academic standing; and (k) changes of any other program or regulation affecting students or other interested parties. Western University of Health Sciences further reserves the right to make such changes should economic conditions, health conditions, changes in law, government orders, or a local, state, or national emergency make it necessary to do so. Such changes may supplement and supersede any inconsistent provisions found in this Catalog, and will be published using typical communication channels, including mail, email, publication to the university web site, press releases, and other channels as deemed appropriate. This catalog does not constitute a contract, or terms or conditions of contract between the student, staff, and/or faculty and Western University of Health Sciences.

Text for the catalog was prepared as of May 2025. The information herein applies to the academic year 2025-2026.

College of Podiatric Medicine

Doctor of Podiatric Medicine (DPM)

The College catalog serves as a supplement to the University catalog. The College faculty, staff, and students must abide by the content of the University catalog in addition to the College catalog. The 2025-2026 catalogs supersede previous versions, and all students are held responsible for the information contained in both the University and the College 2025-2026 catalogs.

Accreditation

Western University of Health Sciences College of Podiatric Medicine (WesternU CPM) was accredited by the Council on Podiatric Medical Education (CPME) in October 2012 in accordance with attainment of the educational standards and requirements set out by that agency. This status was achieved once the program of podiatric medicine was fully activated with students enrolled in all four years of the educational curriculum. Accreditation by the CPME is considered the best statement of good educational practice in the field of podiatric medicine. In April 2024, WesternU CPM was reaccredited for eight years.

Complaints Regarding Accreditation Standards

CPM is committed to meeting and exceeding the standards for accreditation of colleges of podiatric medicine as described by the American Podiatric Medical Association (APMA). A copy of the standards is available upon request from the Office of the Dean. A student who believes that CPM may not be in compliance with a standard of accreditation has the right to file a complaint through the following procedure:

- A written, dated, and signed complaint must be filed with the Office of the Dean, CPM.
- The Dean, or Dean's designee, will consult with an ad hoc committee of faculty and students to investigate the complaint.
- The results of the investigation shall include findings of fact, a determination of standard compliance or non-compliance, and recommended corrective actions. The results will be communicated in writing to the Dean, or Dean's designee, and to the student complainant.
- If corrective action is indicated, the Dean, or Dean's designee, will respond with a description/plan for such action within 30 days of receipt of the ad hoc committee's results.
- Records of all proceedings regarding complaints will be maintained by the Office of Pre-Clinical Education and Outcomes of CPM.
- In the event that the student is not satisfied with the ad hoc committee's determination and/or corrective action, the student may communicate their complaint to:

Director
Council on Podiatric Medical Education
11400 Rockville Pike; Suite 220
Rockville, MD 20852
(301) 581-9200

General Information

The Podiatric Medicine Philosophy

Podiatric medicine is both a profession as well as a medical specialty. Students are prepared to attain the necessary competencies for entry-level residency training through successful completion of a solid, thoughtfully orchestrated curriculum. Integration of the basic and clinical sciences allows students to form a foundation for future clinical practice. Patient care management protocols follow evidence-based medical principles that have been taught in the pre-clinical years. The development of critical thinking skills is emphasized at each level of the educational process, with research methodology woven throughout.

As the health care system in the United States continues to evolve, graduates of colleges of podiatric medicine must be able to assume a vital role as part of the medical health care team. To do so successfully, the scope of education at the professional level must be broad, comprehensive in content and include all of the resources found in any medical college program – both didactically and clinically.

We believe in promoting a culture of excellence in the advancement of research and biomedical sciences and in the promotion of the health and welfare of the community at large by utilizing a comprehensive approach to the management of the disease processes that adversely affect the lower extremities.

Finally, we believe that we must serve as advocates for patients around the world who deserve better podiatric education and care. We believe that services that are rendered to patients served by the college, its students and graduates, must be patient-focused, culturally and linguistically, and must include the interdisciplinary care offered by other specialists in the health science community. It is our belief that these actions are vital to the success of the WesternU's College of Podiatric Medicine.

Mission

The Mission of Western University of Health Sciences College of Podiatric Medicine is to mentor and educate students by providing innovative education experiences, including interprofessional patient care, in an inclusive, diverse and equitable environment, and inspiring a passion to improve the lives of others.

Core Competencies in Support of The College's Mission

- Academic excellence
- Innovative training practices
- Interprofessional education
- Compassion as health care providers
- Health care team integration

Additionally, the College aspires to excellence in producing students in:

- Medical knowledge

- Podiatric medical knowledge
- Patient-focused quality care
- Professionalism (Leadership)
- Research
- Interprofessional and Communication Skills
- Evidence-based learning
- Systems-based practice
- Lifelong learning

Curricular Outcomes/Goals

The goal of CPM's curriculum is to prepare every CPM student with the knowledge, attitudes, and skills to excel in postgraduate podiatric medicine and surgery residency training programs of their choice. Specifically, the student will develop the expected competencies to enable them to demonstrate:

- Knowledge of pre-clinical science (application of didactic knowledge to clinical setting);
- Prevention, recognition, diagnosis and management of systemic diseases and local disorders that adversely affect the foot, ankle, and lower extremity (LE), foot and ankle as seen in a podiatric medical practice;
- Development of professional ability to work with others, reflecting cultural competence, ethical behavior, humanistic behavior, compassion and concern for others;
- Demonstration of the ability to function as a member of an inter-professional team;
- Demonstration of the ability to understand research methodology and other scholarly activities;
- Demonstration of the ability to understand podiatric medical practice and delivery of care in the various health-delivery settings (private practice, hospital-based practice, and health care educational systems such as college and academic health science centers, free standing colleges of podiatric medicine, health maintenance organizations group practices and inter-disciplinary practice settings);
- Demonstrate practice habits and management techniques for quality patient care in a variety of communities, health care settings, and living arrangements;
- Pre-clinical science knowledge;
- Prevention, diagnosis, and management of diseases and disorders of the LE in a cost-effective manner;
- Assessment of medical (systemic) conditions affecting the LE and making appropriate referrals;

- Practicing with professionalism, compassion, and concern and in an ethical fashion regardless of a patient's background;
- Demonstration of the ability to communicate and work collaboratively with others to function in a professional manner in an interprofessional setting;
- Practice and management of patient care in a variety of communities, health care settings, and living arrangements;
- Demonstration and understanding of podiatric practice in a multitude of health-delivery settings; and
- Demonstration of the ability to understand research methodology and other scholarly activities.

Licensing and Board Certification

Podiatric physicians are licensed in all fifty (50) states, the District of Columbia, and Puerto Rico to treat the foot and its related or governing structures by medical, surgical or other means.

State licensing requirements generally include graduation from one of the nine schools and colleges accredited by the [Council on Podiatric Education](#) (CPME), passage of the [American Podiatric Medical Licensing Examinations](#) (APMLE), postgraduate training and written and oral examinations. APMLE board exams are taken in two parts while in podiatric medical school and a third part during their postgraduate training. Part I covers basic science areas and is generally taken at the conclusion of the second year. Part II has a written exam which covers clinical areas such as Medicine; Radiology; Orthopedics, Biomechanics and Sports Medicine; Anesthesia and Surgery; and Community Health, Jurisprudence, and Research. The Clinical Skills Patient Encounter component of the Part II examination will not be administered to the Class of 2026. Part III is designed to determine whether a candidate's knowledge and clinical skills are adequate for safe, unsupervised practice. The Part III examination samples the candidate's clinical skills in evaluating, diagnosing, and treating patients. Examples of the application of knowledge may be measured through photographs, radiographs, and case presentations.

Podiatric physicians may also become certified in one or both specialty areas: primary care and orthopedics, or surgery. National podiatric specialty boards grant certification to qualified podiatrists who have completed the specified educational requirements and who successfully complete written and oral examinations.

For a list of state licensing board information please visit:

<https://www.fpmb.org/Resources/MemberBoardsInfo.aspx>

Optional Programs

Summer Readiness and Preparedness Course (SPaRC)

WesternU's Learning Enhancement and Academic Development (LEAD) office offers a multi-week program that provides attendees, within an interprofessional opportunity to prepare incoming students for the rigors of their program with an introduction to various curriculum topics including the skeletal system, gross anatomy, and pharmacology. The anatomy component focuses on the skeletal, muscular,

cardiovascular, nervous, and other body systems. Additional lecture overviews to program-specific content are also provided. Academic skills presentations focus on enhancing study, test taking, and the development of EQ skills. Acceptance into this program is at the discretion of the coordinating office. The course is elective and does not meet any specific requirements of the program curriculum. A separate tuition (\$400) is charged. For additional information, contact the Office of Learning Enhancement and Academic Development (LEAD).

Personal Competencies for Admission and Matriculation

A candidate for admission to the Doctor of Podiatric Medicine (DPM) program must possess, or be able to achieve through a reasonable accommodation, certain sensory and motor functions, that would enable them to carry out the activities described below. Upon matriculation to the program, the student must continue to possess, or be able to achieve through a reasonable accommodation, the personal competencies outlined below throughout their progression in Doctor of Podiatric Medicine (DPM) program. Graduation from the program signifies that the individual is prepared for entry-level podiatric medicine and surgery postgraduate training programs. It follows that graduates must have the knowledge and skills needed to function in a broad variety of clinical situations (medical and surgical) and to render comprehensive general medical and surgical care as well as podiatric medical and surgical patient care. The podiatric medical student must be able to integrate, consistently and accurately, all information received by all available means necessary. In addition, they must have the intellectual ability to learn, integrate, analyze, synthesize, and apply various types of information in a self-directed manner within the context of patient care.

A candidate for the DPM degree must exhibit abilities and skills which include but are not limited to the six areas identified below. For candidates or students who require a reasonable accommodation to meet the competencies outlined below, please contact the Harris Family Center for Disability and Health Policy (H^{FC}DHP) at [Disability Accommodations \(e-mail\)](#) or (909) 469-5297 or visit the [H^{FC}DHP web site](#). Under all circumstances, a candidate or student should be able to perform the following in a reasonably independent manner, with or without a reasonable accommodation:

Observation

Candidates and students must be able to observe demonstrations, experiments, and microscopic laboratory exercises. They must be able to accurately assess a patient's asymmetry, range of motion, and tissue/texture changes. The candidate must be able to acquire information from written documents, images, films, slides or video.

Communication

Candidates and students must be able to communicate professionally and effectively in both academic and health care settings. This requires the ability to understand, write, read, and speak fluent English to record information accurately and communicate effectively and sensitively with faculty and staff, patients, and members of the healthcare team. Candidates must be able to elicit information such as a medical history, examine patients, describe changes in mood, activity, and posture, perceive non-verbal communication, and correctly interpret the information obtained to develop an accurate patient care plan. Candidates must be able to communicate a patient's condition orally and in writing to others in the diagnosis and treatment process to include documenting patient encounters in an appropriate professionally written format that meets commonly accepted standards. Candidates must be able to complete professional communication activities in an efficient manner considering the response time required to deliver optimal podiatry services.

Motor

Candidates and students must have sufficient motor function to undertake classes, laboratories, and demonstrations. This includes cadaver dissection, microscopy, aseptic technique, and safe handling of microbiological specimens. Candidates and students are reasonably required to provide emergency treatment of patients to include palpation, auscultation, percussion, cardiopulmonary resuscitation, insertion of a variety of catheters, administration of intravenous medication, application of pressure to

stop bleeding, opening of obstructed airways, suturing of simple wounds, closed manipulation of lower extremity fractures, intra-operative (open reduction with internal or external fixation-ORIF/OREF) of fractures, and other diagnostic and therapeutic modalities. Candidates and students must be able to perform a proper physical exam and other diagnostic maneuvers and treatments such as palliative care of foot and ankle problems, injections, orthotic impressions, taking and processing of pedal radiographs, and performance of soft tissue and osseous tissue surgical procedures, which require the proficient use of instruments such as scissors, clamps, scalpel, or drill. Candidates and students must be able to chart patient encounters, write prescriptions, and use computer technology. Candidates and students must have sufficient physical stamina to complete the rigorous didactic, laboratory, and clinical experiences.

Intellectual, Conceptual, Integrative, and Quantitative Abilities

Candidates and students must demonstrate problem-solving skills, which involve intellectual, conceptual, integrative, and quantitative abilities. Candidates must be able to consistently, quickly and accurately, memorize, measure, calculate, reason, analyze, synthesize, and transmit detailed and complex information across a variety of conditions, timeframes, and modalities (i.e., classroom, lab, small group, team and collaborative activities; individual study; preparation and presentation of reports; and use of computer technology). Candidates must engage in critical thinking and problem solving and be able to draw conclusions about three-dimensional spatial relationships and logical sequential relationships among events.

Behavioral and Social Attributes

Candidates must possess the maturity and emotional stability required for full utilization of their intellectual abilities, the exercise of sound judgment and the prompt completion of all academic and patient care responsibilities. Candidates and students must also demonstrate that they can develop mature, sensitive, and effective relationships with faculty, staff, colleagues, and patients. Candidates and students must be able to tolerate physically taxing workloads, adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in patient care. Compassion, integrity, respect, concern for others, interpersonal skills, interest, and motivation are all personal qualities to be assessed during the admissions and educational processes. Candidates and students are expected to possess and be able to demonstrate the highest level of ethical and professional behavior. Candidates must be able to work effectively, respectfully, and professionally as part of the healthcare team, and to interact with patients, their families, and healthcare personnel in a courteous, professional, and respectful manner. Candidates must be able to contribute to collaborative, constructive learning environments; accept constructive feedback from others; and take personal responsibility for making appropriate positive changes.

Physical Health

To ensure compliance with California State Health Department requirements and exhibit exemplary commitment to the rights and integrity of all parties in the education of health care professional students, WesternU/CPM has established medical status credentialing requirements that must be completed prior to matriculation. In addition to the skills listed above, candidates for the DPM degree also must be sufficiently free of any serious communicable diseases. Medical status credentialing is designed to ensure that the safety of patients is not compromised while protecting the rights and safety of students as well. For more detailed information, contact the [Student/Employee Health Coordinator](#).

Admissions Policies and Procedures

WesternU CPM accepts applications from all qualified candidates. While grades and Medical College Admission Test (MCAT) scores are important in selecting candidates for admission and may suggest future academic success, the Admissions Committee recognizes that these statistics, by themselves, do not guarantee later success as a physician. Therefore, WesternU/CPM will take into consideration the non-academic criterion that is also important in making the selection for candidates to the CPM. Western University/CPM seeks to enhance its student population and will consider factors such as a well-rounded background, prior work experiences, college and health care professional's letters of recommendation, interest in and knowledge of podiatric medicine and each candidate's demonstrated professional promise. To ascertain these factors, an interview is required prior to any action being taken in regard to a candidate's application. The College may exercise its discretion to rely upon additional considerations as needed on an individualized basis.

Notice of Non-Discrimination and Equal Opportunity

In accordance with all applicable federal, state, and local laws, Western University of Health Sciences (WesternU) is committed to ensuring a campus community free from unlawful discrimination.

WesternU strictly prohibits unlawful discrimination in all its programs, activities, admissions, and employment. WesternU prohibits discrimination based on the following characteristics:

- Race (including traits associated with race, such as hair texture and protective hairstyles)
- Ethnicity, Color, and National Origin
- Immigration Status and Ancestry
- Sex, Gender, Gender Identity, and Gender Expression
- Sexual Orientation
- Physical or Mental Disability
- Age
- Religion (including religious dress and grooming practices)
- Medical Condition and Genetic Information
- Marital Status
- Pregnancy (including childbirth, breastfeeding, or related medical conditions)
- Military or Veteran Status
- Perceived Characteristics - Discrimination is prohibited if an individual is perceived to have any of the above characteristics.
- Association with Protected Groups – Discrimination based on association with a person or group with one or more protected characteristics is also prohibited.
- Other Legally Protected Classes – WesternU complies with all federal, state, and local laws, regulations, and ordinances regarding discrimination.

WesternU has designated the Associate Vice President for the [Office of Title IX and Equal Opportunity Compliance Initiatives \(OTIXEO\)](#) to coordinate WesternU's compliance with federal and state civil rights laws regarding protected characteristics. Inquiries about WesternU's prohibitions against discrimination, harassment, and retaliation can be directed to Associate Vice President (AVP) for the Office of Title IX and Equal Opportunity Compliance Initiatives (OTIXEO) or to the U.S. Department of Education, Office for Civil Rights.

Reasonable Accommodations during the Admissions Process

Candidates and students must be able to perform all essential functions of the program, with or without reasonable accommodation. The Harris Family Center for Disability and Health Policy (^{HF}CDHP) will engage in an interactive process with students to determine appropriate accommodations, ensuring equal access to the program while maintaining the integrity of its essential requirements. To facilitate timely accommodations, students who may require reasonable accommodations are encouraged to register with ^{HF}CDHP as soon as they accept their offer to the program. Accommodations must be approved by ^{HF}CDHP and is not provided retroactively (if approved after the start of the program/semester. Candidates seeking accommodations during the admissions process, including for Interview Day, must contact the Office of Admissions in advance to request accommodations. All requests for accommodations will be handled in a manner that is consistent with the university's policies and in full compliance with the ADA, ADAAA, Section 504 of the Rehabilitation Act, and applicable state laws). For further details regarding ^{HF}CDHP's registration process, please refer to <https://www.westernu.edu/cdhp/registration-process/>, or review the *Student Disability Accommodation Process* section.

Minimum Application Requirements

The application requirements shown in this catalog apply to applicants who are seeking entry for the 2026/2027 academic year. Current admission and application requirements for the DPM program, including prerequisite coursework requirements, can be located on the [Prospective Student website](#).

Candidates for admission to WesternU/CPM must meet the following requirements:

1. A minimum of ninety (90) semester hours, or one-hundred-thirty-five (135) quarter credit hours must be completed, at a regionally accredited college or university, by matriculation.
2. Completion of one academic year (or its equivalent) in English, biology, physics, inorganic chemistry and organic chemistry. All prerequisite courses must be complete with a competitive grade by the end of the spring term just prior to enrollment.
3. Recommended competitive overall science and overall grade point average of a one-year post-baccalaureate or a master's degree program science grade point average of a 3.25.
4. Applicants must submit their Medical College Admission Test (MCAT) with a competitive score. Scores are valid for three (3) years from the date of application. Information concerning this test may be obtained from the pre-professional advisor at one's college or directly from the MCAT Program Office. Applicants are encouraged to take the examination in the spring of their junior year. To be considered for admission, the MCAT examination must be taken no later than June of the entering year; however, an earlier test date is recommended.
 - a. USMLE Step 1 with a passing score may be used in lieu of the MCAT on a case-by-case basis.
5. Submit letters of recommendation as follows:
 - a. Recommended: One letter of recommendation from a podiatric physician (should not be a family member)
 - b. Optional: One letter of recommendation from your undergraduate institution's pre-professional committee or two letters of recommendation from science professors

Although not required, it is highly recommended that students consider courses in human anatomy, microbiology, histology, zoology, behavioral science, biochemistry, and/or genetics.

It is also recommended that applicants shadow a podiatric physician.

To better understand the typical candidate accepted by the College, please visit the [Competitive Candidate Profile](#) section of the Prospective Student website.

Minimum Enrollment Requirements

1. Completion of the equivalent of 8 semester, or 12 quarter, units (must be a full-year course sequence-not an introductory course) of general biology with lab, general physics with lab, organic chemistry with lab, and general or inorganic chemistry with lab; the equivalent of 6 semester, or 9 quarter, unit hours in English/English Composition. All prerequisite coursework must be completed by June 1 of the year the student plans to enter the program.
Undergraduate studies, Graduate studies and linkage programs must be undertaken at a regionally accredited institution or an institution that is recognized by the United States Department of Education.
2. One semester, or the equivalent, of biochemistry, human anatomy, physiology, microbiology, genetics, zoology, and behavioral science (psychology, sociology, marriage/family, etc.) is not required but highly recommended.
3. The College does not accept alternative educational experiences or other professional training to meet admissions requirements.

Candidates applying via a linkage program with a partner institution must meet ALL requirements of the contracted program.

AACPMAS

WesternU/CPM, as well as all other colleges of podiatric medicine, participates in the profession's centralized application service through the American Association of Colleges of Podiatric Medicine Application Service (AACPMAS). AACPM is located at 15850 Crabbs Branch Way, Suite 320, Rockville, Maryland, 20855. Individuals interested in applying to WesternU/CPM should visit the AACPMAS website at <https://aacpm.org/> for information and application materials. You may also learn more about the application process on the WesternU [Apply Now](#) web page. Applicants should also arrange to have official transcripts of all prior undergraduate, graduate, and professional school course work forwarded to AACPMAS.

Upon receipt of the initial application and transcript(s), AACPMAS will collate materials, verify grades and transmit standardized information to the applicant and to his or her designated podiatric medical colleges. AACPMAS takes no part in the evaluation or selection of applicants and does not review applications to determine if completed correctly. After WesternU/CPM Admissions Committee conducts a review of the AACPMAS application, they may request additional information from the applicant for further consideration. Any request for supplementary information must be returned within thirty (30) days to:

Western University of Health Sciences
DPM Admissions
309 E. Second Street
Pomona, California 91766-1854

Once the applicant's file is complete, the Admissions Committee reviews it to determine whether the applicant will be granted an interview. If an applicant is deemed promising, they will be invited to the campus at their own expense. Alternatively, applicants may interview remotely, although an on-campus interview is highly recommended. Each applicant will be contacted by the Office of Admissions to schedule a convenient interview date. The applicant interviewing on campus should plan to spend a full day on campus for orientation and the interview. Orientation consists of information on the curriculum, financial aid, student services, clinical rotations, lunch with a WesternU/CPM student and a tour of the facilities. A personal interview will take place with members of the Admissions Committee and/or faculty members from both basic and clinical sciences. The Admissions Committee evaluates the candidate's application and interview for acceptance to CPM. The applicant is then typically notified regarding the status of his or her application within two weeks of the interview.

Candidates accepted to WesternU/CPM must have a complete set of official transcripts mailed to the Admissions Office no later than June 1 for transcripts that were submitted to AACPMAS after the application was completed. Decisions of the Admissions Committee regarding the admission of applicants to its programs are final and are not subject to any appeal process.

Applicants with Foreign Coursework

Applicants must report coursework completed outside the United States and must submit their transcripts for evaluation to [a Western University of Health Sciences Approved Service](#) at the candidate's expense. A course-by-course evaluation is required, and all coursework must be designated as undergraduate, graduate, or professional. WesternU only honors evaluations from one of the above services. The official evaluation must be sent directly to AACPMAS. DPM Advanced Standing applicants should have their official evaluations sent directly to the Office of Admissions.

International Students

International students and any other applicants who are not U.S. citizens and who are living in the U.S. must provide proof of legal U.S. residency prior to matriculation. For more detailed information, please visit our web page for [International Students](#).

Acceptance Deposit

Candidates accepted to WesternU/CPM must pay a non-refundable acceptance deposit of \$1,000. The due date for this deposit is provided in the offer of acceptance letter. Upon matriculation, the entire \$1,000 is credited to the student's account. For candidates who are granted deferred admission to the DPM program an additional non-refundable \$1,000 deposit is required the following spring to hold a seat in next year's class. If an applicant fails to register, the \$1,000 deposit is forfeited.

Criminal Background Checks

To meet state and industry specific requirements, hospital facilities and clinical sites may require students to complete criminal background checks prior to beginning rotations/clinical experiences. Consequently, to assure patient safety, students admitted to programs with clinical training requirements will be

required to complete a criminal background check prior to matriculation and/or as a component of the scheduling of the rotation/clinical experiences. Upon acceptance of an offer of placement in the class, all candidates are required to provide proof of a criminal background check as detailed on the Admitted Student Website. The background check will be reviewed by WesternU/CPM. Candidates found to have not met the Standards of Academic Integrity, Professionalism and Student Conduct as outlined on the [Prospective Student](#) Website may be subject to rescindment of the offer of admission.

If a criminal conviction or other relevant sanction is shown on a background check, hospital facilities and clinical sites have broad discretion to restrict an individual from being assigned to the facility/site for the rotation/clinical experience. Therefore, please be aware that certain convictions may prevent students from entering hospital facilities or clinical sites, which may directly hinder a student's ability to complete his or her academic program successfully. Furthermore, certain convictions may also prevent students from obtaining licensure in the State of California or other states. Applicants and current students are advised to check with the appropriate State(s) licensing boards to determine whether their backgrounds may be a barrier to future licensing.

Transfers from Other Schools

WesternU CPM does not currently accept transfer candidates from other Colleges of Podiatric Medicine to advance standing. Transfer applications from students studying at WesternU's College of Osteopathic Medicine of the Pacific will be considered on a case-by-case basis.

Transferability of Courses Taken at WesternU

Whether WesternU course credits transfer to another institution is at the complete discretion of the institution to which you may seek to transfer. Acceptance of the degree or certificate you earn at WesternU is also at the complete discretion of the institution to which you may seek to transfer. Further information regarding the transferability of courses taken at WesternU can be found in the University catalog.

Doctor of Podiatric Medicine Advanced Standing Program

The Doctor of Podiatric Medicine Advanced-Standing Program grants a DPM degree to foreign-trained physicians who already hold a medical degree that is not from a U.S. or Canadian medical school. Students admitted to this program will be inserted into the third year of the traditional Doctor of Podiatric Medicine program.

Admissions Requirements

- 1) All applicants must already hold a medical degree from a medical school outside of the United States or Canada.
- 2) All applicants are encouraged to submit their score from the United States Medical Licensing Examination (USLME) Step 1 exam, taken within previous 3 years. A passing score is not required.
- 3) All applicants must be proficient in English speaking and reading comprehension. All applicants whose native language is not English must submit an official ETS TOEFL score report as part of their application. A minimum score of seventy-nine (79) on the internet based TOEFL is required

for admission. Scores for TOEFL tests taken more than two years prior to the application deadline will not be accepted.

a. Exceptions

- i. The TOEFL exam will be waived for permanent and temporary residents of the United States who have completed at least six (6) semester credit hours of College English/English Composition from an accredited institution within the United States.

1. English course taken at institutions in foreign countries whose native language is English will be accepted (e.g., Canada, Australia, Great Britain, New Zealand, and the British West Indies).

Application Components/Process

An online application must be submitted, along with a \$100.00 application fee, on or before the posted application deadline. Your application must also include:

- 1) Official transcripts for all coursework completed at U.S. colleges or universities.
- 2) All coursework taken from non-U.S. institutions must be submitted to an approved service for evaluation. Evaluation must include course-by-course evaluation with letter grades, pass/fail, or credit/no credit, and must specify which courses are considered undergraduate, graduate or professional. The evaluation service must submit the official evaluation directly to WesternU. Evaluations will not be accepted directly from the applicant.

The College will also give consideration to applicants, on a case-by-case basis, who are unable to provide independent, verified documentation due to extenuating circumstances (e.g., war, destruction of records by natural disasters or arson, violent changes in government, or any event outside the control of the student that negatively affects them, and which can be supported by appropriate evidence.).

- 3) Demonstration of English Language Proficiency (TOEFL Scores)
- 4) United States Medical Licensing Examination (USLME) Step1 Score Report (strongly encouraged but not required)
- 5) Letter of Recommendation
 - a. One (1) letter of recommendation from a medical school professor is required. The request for a letter of recommendation will be sent electronically to your selected recommender with the information you provide in your application.
- 6) Curriculum Vitae
 - a. A current curriculum vitae with details of your current and/or past professional experiences.

Application components may be submitted at the time of application or after initial submission. All application components listed above must be received by the deadlines posted below before your candidacy for admission can be considered.

Application Timelines

Applicants seeking to begin the DPM Advanced Standing Program in June must submit their application and all required components by March 1st.

International Students

International students and any other applicants who are not U.S. citizens and who are living in the U.S. Must provide proof of legal residency prior to matriculation. International students are also required to provide proof of adequate personal funding for a single academic year prior to issuance of an I-20. For more detailed information, please visit [our web page](#).

Candidates accepted to DPM Advanced Standing program must pay a non-refundable acceptance deposit of \$1,000. The due date for this deposit is provided in the offer of acceptance letter. Upon matriculation, the entire \$1,000 is credited to the student's account. For candidates who are granted deferred admission to the DPM program an additional non-refundable \$1,000 deposit is required the following spring to hold a seat in the next year's class. If an applicant fails to register, the \$1,000 deposit is forfeited.

Registration

All WesternU students are required to register by the registration deadlines specified by the University Registrar. Registration dates are posted on the [Registrar's Office](#) website. Failure to register by the deadline may be grounds for administrative withdrawal. All students registering after the posted deadline will be assessed a \$30.00 per business day late fee.

Full tuition and fees and all prior debts must be paid in full on or by posted deadlines each academic year. Matriculation is subject to the satisfactory completion of all academic requirements and payment of all outstanding debts to the University. The receipt of the final transcript(s) from all colleges/universities attended and a physical examination with documentation of required immunizations (if applicable) prior to registration are additional requirements for incoming students.

Registration Late Fee Appeals

If you are assessed late fees for a registration period, you may submit an appeal to the Registrar. For additional information on the appeal process, please see the [Registration Late Fees](#) page on the Registrar's Office website.

Student Health Insurance Requirement

All full-time students at Western University of Health Sciences are required to have active health insurance while enrolled. All students are automatically assessed half of the entire year's insurance premium during Fall registration and are enrolled in the student health insurance plan until they submit proof of coverage that meets the University's requirements. Students that are not waived from the Student Health Insurance Requirement prior to the posted waiver deadline will remain enrolled in the student health insurance plan for the full academic year, and will be assessed the second half of the yearly student health insurance premium during Spring registration. For additional information on student health insurance requirements and/or waiving out of the student health insurance plan, please see the [Student Health Insurance page](#) on the Registrar's Office website.

New Student Orientation/Welcome Week

Attendance at all Orientation/Welcome Week activities is mandatory for all incoming first-year, repeating, and advanced standing students. Failure to attend any part of Orientation/Welcome Week without prior approval from the Office of Student Affairs may result in the rescindment of a student's acceptance offer. For additional information on Welcome Week activities for the College of Podiatric Medicine, please visit: <http://www.westernu.edu/students/welcome-week/> or contact CPMStudentAffairs@westernu.edu.

Student Initiated Changes in Enrollment Status

Leave of Absence

A student may request a Leave of Absence (LOA) with the occurrence of a medical emergency or illness, personal issues, financial hardship, or military service. For additional information on requesting a Leave of Absence, please see 'Student Initiated Changes in Enrollment Status' in the University Catalog, General Academic Policies and Procedures section.

Withdrawal from University/Academic Program

Matriculation at the University is a privilege granted in consideration of specified levels of performance and of maintaining the established standards of scholarship and personal and professional conduct. The University reserves the right to require withdrawal at any time it deems necessary to safeguard its

standards of scholarship, conduct, and orderly operation. The student concedes this right by act of matriculation. For additional information on withdrawing from the DPM program, please see 'Student Initiated Changes in Enrollment Status' in the University Catalog, General Academic Policies and Procedures section.

Full-Time Status

All DPM and DPM-AS students enrolled in at least one class/rotation are considered full-time students.

Time Limits

The Doctor of Podiatric Medicine program is designed to be completed in four (4) years of full-time study. The requirements for the degree must be completed in a maximum of six (6) enrolled academic years in program as noted in [CPME 120 Standard and Requirements for Accrediting Colleges of Podiatric Medicine of the Council of Podiatric Medical Education](#). Students who are unable to meet the six (6) year time limit for the DPM program will be referred to the Student Performance Committee and will be subject to administrative withdrawal.

Tuition and Fees

By action of the Board of Trustees, DPM tuition and fees for the 2025/2026 academic year (subject to change) are as follows:

Institutional Fees

\$48,048.00	Annual Tuition
\$48,048.00	Annual Tuition (DPM Advanced Standing)
\$12,067.00	DPM Advanced Standing Didactic Coursework Fee
\$40.00	Student Body Fee (Years 1 and 2)
\$20.00	Student Body Fee (Years 3 and 4)
\$350.00	Graduation Fee

Non-institutional Fees

\$40.00-\$75.00	Drug Screening (Approximate)
\$60.00-\$200.00	Criminal Background Check (Approximate)
\$75.00	Audience Response System Device
\$705.00-\$950.00	Required iPad (must be obtained as directed by the College)
\$75.00	Annual APMSA Member Fee
\$1,700.00	Medical Equipment (Year 1)
\$149.00	Board Preparation Software (Year 2)
\$600.00	Medical Equipment (Years 2 and 3)
\$800.00	Required and Recommended Texts (Fall)
\$300.00	Required and Recommended Texts (Spring)
\$45.00	Anatomy Supplies (Gloves, Scrubs, Dissection Kit) – Year 1 Only
\$210.00	Software required for ISSM 3 and ISSM 4 - Year 2 Only
\$30.00	Registration Late Fee (Per Business Day)
\$50.00	Late Payment Fee (per month)
\$235.00	Annual Parking Permit (Auto)
\$118.00	Annual Parking Permit (Motorcycle)
\$40.00	Locker Key Replacement Fee
\$10.00	Official Transcript (Each)*
\$11.75	Official PDF Transcript (Each)*
\$21.00	Rush Transcript, First Class Mail (Each)*
\$25.00	Rush Transcript, Federal Express (Each)*
\$10.00	Student ID Replacement Fee
\$TBD	Breakage Fee (Replacement Cost)

*Does not include National Student Clearinghouse (NSC) processing fee

Modified Curriculum/Repeated Coursework Tuition Rates

Students enrolled in a modified DPM curriculum or who are directed to repeat one or more courses but not the entire academic year are charged a per credit hour tuition rate. This rate is calculated by dividing the total credit hours required for a class year by the annual tuition. The per credit hour rates for 2025/2026 academic year are shown below:

\$881.61	DPM Year 1 Modified Curriculum Per Credit Hour Charge
\$898.09	DPM Year 2 Modified Curriculum Per Credit Hour Charge
\$1,022.30	DPM Year 3 Modified Curriculum Per Credit Hour Charge
\$1,117.40	DPM Year 4 Modified Curriculum Per Credit Hour Charge
\$951.45	DPM Adv. Standing Year 1 Modified Curriculum Per Credit Hour Charge
\$1,117.40	DPM Adv. Standing Year 2 Modified Curriculum Per Credit Hour Charge

Additional DPM Program Education Requirements

All students are required to have a laptop computer with internet access; specifications are available at <https://www.westernu.edu/computing/computing-students/>. Upon matriculation, an iPad will be distributed to you. It contains software needed for your WesternU-specific education. If you already own a recent issue iPad, you may contact CPMStudentAffairs@westernu.edu to ascertain whether or not the iPad you already own has sufficient memory and capability to run the necessary programs. If not, you will be required to obtain the WesternU distributed device.

National Board Fees

The College requires all DPM students to take and pass Part I and Part II of the American Podiatric Medical Licensing Examination (APMLE). Exam fees are updated regularly and subject to change by APMLE. They can be found online at <https://www.apmle.com/>.

Clinical Rotations Expenses

During the third and fourth years of the curriculum, some students may elect to do some clinical rotations away from the Pomona area, which is a self-imposed expense. In addition, students are required to return to campus several times during the clinical years for various educational experiences, conferences, etc. Any travel, food, housing, or other expenses incurred by these activities or plans are the student's responsibility. Some rotations done at or through other institutions (e.g., certain hospitals or other medical schools) may involve application fees and/or other charges. Such rotations are elective; consequently, these fees are the student's responsibility.

Shelf Examination Repeat and OSCE Repeat Fees

If the Shelf Exam is required, students who fail one or more post-rotation discipline-specific examination(s) will be permitted to take the exam for a second attempt. If the student fails the second attempt, they will be required to meet with the Student Performance Committee (SPC), and they will be placed on academic suspension until the examination is successfully repeated. If a student's shelf exam is not completed within ninety (90) days, they may be sent to the SPC. A student who fails the shelf examination on the third attempt will fail the rotation, must present before the SPC, and will be required to repeat a rotation in the same discipline in its entirety.

Students who fail one or more post-rotation discipline-specific Objective Structured Clinical Examination (OSCE) will be required to remediate each failed OSCE. A student who fails one or more OSCE's on the

second attempt will be placed on academic suspension until the examination is successfully repeated. If a student's OSCE exam is not completed within 90 days they may be sent to SPC for appropriate disciplinary action. A student who fails the OSCE examination on the third attempt will fail the rotation, must present before the SPC, and will be required to repeat a rotation in the same discipline in its entirety.

Requirements for the Pre-OSCE and OSCE include white coat, ID badge, laptop including Ethernet cables and on-time arrival. Additionally, it is highly suggested that the students bring power cords to ensure computer functioning throughout the duration of the examination. Students who do not meet these requirements fail the rotation and are subject to the same repeat requirements as previously outlined.

General Academic Policies and Procedures

Academic policies and procedures outlined in this section and subsequent sections of the catalog apply to all DPM students, including transfer students and students admitted to the DPM Advanced Standing program.

Student Disability Accommodation Process

The Harris Family Center for Disability and Health Policy (HFCDDHP) values the uniqueness of each student as an integral member of our diverse WesternU community and is the designated office to determine and approve academic modifications or accommodations. Given HFCDDHP's role in the accommodation process is to provide students with disabilities with the legally mandated and necessary support to work toward a higher education, any requests made directly to instructional personnel related to their academic courses, even if implemented, are not considered a reasonable accommodation. Additionally, a student's disclosure of a disability or health-related condition, or the submission of documentation related thereto, in response to a process or procedure established by their respective college, does not constitute formal notification of a request for accommodations. Students must be able to perform all the essential functions of the program with or without reasonable accommodations.

Students must adhere to the enrollment procedures set forth by HFCDDHP to formally request accommodation. In the event a student discloses a disability in such a manner, they will be referred to HFCDDHP for further guidance on the accommodations request process. Requests for accommodations related to circumstances other than the student's own disability (e.g., family bereavement or common illness) shall not be considered requests for reasonable accommodations under HFCDDHP Provision of Academic Accommodation(s) Policy and Procedure or the Americans with Disabilities Act (ADA).

To request accommodations and start the interactive process at WesternU, students are encouraged to visit the HFCDDHP webpage (<https://www.westernu.edu/cdhp/>) to learn more about the registration process, requirements for disability documentation, and to complete the Student Intake Form. All inquiries are confidential, and students are welcome to obtain general information without registering. The University will provide reasonable accommodations but is not required to make modifications that would substantially alter the nature or requirements of the program. To schedule an appointment with HFCDDHP, please email disabilityaccommodations@westernu.edu. Students are welcome to call the office at (909) 469-5441, or visit the Pomona office in person at 309 E. Second Street, Pomona CA, 91766, Building 390. Office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday. For more information, please visit the website: <https://www.westernu.edu/cdhp/>.

Computer Technology

All students are required to have a laptop computer with reliable internet access; specifications are available at <https://www.westernu.edu/computing/new-students/> Upon matriculation, an iPad will be distributed to students in the DPM program. DPM-AS students will not receive an iPad. It contains software needed for your WesternU-specific education. If you already own a recent issue iPad, you may contact CPMStudentAffairs@westernu.edu to ascertain whether or not the iPad you already own has sufficient memory and capability to run the necessary programs. If not, you will be required to obtain the WesternU distributed device.

The laptops will be used for e-mail communication with classmates and faculty, for accessing computer- and server-based course information, instructional software, online bibliographic databases, electronic bibliographies, and for participating in course exercises/activities/exams. Laptop computers will be needed by students on campus as well as at their local residences and when rotating in off-campus courses/rotations; therefore, laptop computers are required instead of desktop models. Students will also need an iPad in order to take select examinations and for use in select learning activities.

Academic Advisement

Students will be assigned a faculty mentor upon matriculation. The faculty mentor-student mentee relationship can become one of the most valuable aspects of medical education. It provides an opportunity to develop sustained individual contacts between faculty and students on both academic and personal levels. To schedule a meeting with a faculty mentor, students should send an email to their faculty mentor.

If either the student or the faculty mentor does not find the relationship helpful, either is free to seek a change. If a student wishes to change faculty mentors, they should identify a preferred faculty mentor and ask if they are willing and able to take them on as a mentee. If they agree, the student should contact CPMStudentAffairs@westernu.edu, copy their new mentor, and request that their mentor on record be officially changed. The Office of Student Affairs (OSA) can also make mentor recommendations if a student is not sure whom to select. If a faculty member wishes to change mentees, they should email OSA to request that the student in question be assigned to another mentor.

Supportive Learning Environment

Podiatric medical students have a right to have support and assistance from WesternU/CPM in maintaining a climate conducive to thinking and learning. University teaching reflects consideration for the dignity of students and their rights as persons. Podiatric medical student or faculty mistreatment in the course of the teacher-learner environment will not be tolerated. Examples of behaviors or situations that are **unacceptable** include, but are not limited to:

- Discrimination, harassment or retaliation, as defined under WesternU policies or procedures
- Sexual harassment or sexual misconduct, as defined under WesternU policies or procedures
- Unwanted physical contact
- Verbal abuse, profanity or demeaning comments
- Inappropriate or unprofessional criticism which belittles, embarrasses or humiliates

- Unreasonable requests for a student to perform personal services
- Grading used to punish or reward a student for nonacademic activities rather than to evaluate performance
- A pattern of intentional neglect or intentional lack of communication
- Requiring students to perform tasks beyond their level of competency without supervision

Additional information related to WesternU's policies and procedures governing discrimination, harassment and retaliation can be found in the University Catalog.

Attendance and Absences

Students are expected to participate fully in all scheduled classroom, laboratory, small group, practicum, and clinical education activities. In person attendance is required for all mandatory sessions and students are responsible for all course content regardless of whether they attend the session or not. Frequent absences will be viewed as violations of the Standards of Academic Integrity, Professionalism, and Student Conduct. The attendance policy for on-campus courses is monitored by the OSA.

Students are required to be present for all scheduled examinations. Students are to refer to the course syllabi regarding the applicable policies. If a student arrives later than what the course syllabus indicates, without prior approval from the OSA, it will be considered an absence. The student is required to go to the OSA, where it will be determined if the student is permitted to take the exam in the remaining allotted time or if they will be required to take a make-up examination. The OSA will then determine if the absence is excused or unexcused.

If a student needs to be excused for any length of time, the request must be submitted using the [Time-Off Request \(TOR\)](#) via SharePoint. A student, who cannot attend an exam due to an unavoidable circumstance, should contact the OSA and as soon as possible prior to administration of the exam, and submit an absence request through SharePoint with a written explanation of the absence. Students must provide appropriate documentation for their absence within 72 hours. Documentation must be submitted through their originally submitted TOR via SharePoint.

Interprofessional Education (IPE) is a University administered course; therefore, if a student is absent for IPE, they must additionally submit the IPE Absence Request via Elentra. For information on this procedure, please consult the syllabus for the respective IPE course.

If a student misses an examination, the OSA will determine whether the absence is excused or unexcused. If the absence is excused, the student will be permitted to take a make-up examination, the nature and time of which will be at the discretion of the OAA.

If an absence is excused, the student will be eligible for full credit for the examination unless stated otherwise in the syllabi. If an absence is deemed unexcused (e.g., failure to show up for a written or practical examination without a valid excuse as determined by the OSA and the Course Instructor/System Coordinator), a make-up exam may be given, subject to the approval of the SPC. Should the SPC determine that the student may sit for the make-up examination the maximum score that the student can achieve on the examination will be 70%. Should the SPC determine that the student is not eligible to sit for the

make-up examination, the student would receive a zero (0) for that examination. If a missed exam cannot be made up before the end of the course, an 'I' grade may be assigned to allow grades for the rest of the class to be submitted to the Office of the Registrar on schedule.

Detailed policies for attendance and absences during the third and fourth years are published in the CPM Clinical Rotations Manual.

The OSA can only grant time-off for the reasons outlined below. In addition, OSA cannot consider time-off requests unless you submit the required documentation covering all dates for which you were or plan to be absent. The nature of the documentation will be determined by the reason for the absence and will be defined by the OSA. Typical examples include:

- A primary care practitioner's note, entrance/discharge papers or hospital bill for self or family member
- A program for wedding events (as a participant), funeral, religious ceremony or graduation
- A conference agenda when attending a health professional or leadership conference
- A copy of the invitation to a residency interview
- A receipt for car problems like the purchase of a car battery or confirmation of a tow
- A screenshot of a weather app showing the concerning weather conditions or a weather advisory alert (either rain or fire).

Timeframe for Submitting Requests

Planned absences (known in advance of the curricular activity): Examples include scheduled religious observances, conferences, immediate family weddings/funerals/graduations, surgeries, and other medical procedures that cannot be done during academic breaks. The request for time off and all necessary documentation must be submitted via the [Time-Off Request \(TOR\)](#) on SharePoint at the beginning of the semester or no less than thirty (30) calendar days prior for preclinical students. The request for time off and all necessary documentation must be submitted via the [Time-Off Request \(TOR\)](#) on SharePoint at the beginning of the semester or no less than sixty (60) calendar days prior for clinical students.

Unplanned absences (known just prior to the curricular activity): Examples of this category include acute personal illness, a traffic accident, or death of a family member. Students should contact the OSA and Course Instructor/System Coordinator as soon as possible prior to the scheduled curricular activity and submit an absence request through the TOR with a written explanation of the absence. If documentation is not available at the time the absence request is submitted, it must be uploaded to SharePoint within seventy-two (72) hours. Requests may not be approved if documentation is received after 72 hours, resulting in the forfeiture of makeup work.

Conference Travel

If approved for conference travel, students are eligible for make-up work if the activity occurred during their time away from campus. Depending on conference length and exam timing, students may also request excusal from taking an exam that occurs the day after the conference. If approved, the student is only excused for the exam itself and must attend all other curricular activities for the day. To be considered for conference travel, students must additionally meet the following criteria:

- Be in good academic and conduct standing with the college/university
- Submitted request for time off via SharePoint no less than 30 days prior to departure

If you are financially supported by any university entity, you must also submit the [Student Travel Notification Form](#) prior to travelling.

Make-Up Work

If upon review of the documentation it is determined that the absence is excused, the appropriate departments will be notified that the student is authorized for a make-up examination. A make-up examination is offered for all major examinations and is typically scheduled within 48-72 business hours of the original examination or as the Office of Academic Affairs (OAA) specifies. Students unable to make-up the work at the scheduled sessions, the student must take an incomplete in the course and fulfill course requirements in the time the Office Academic Affairs specifies. Some courses/systems have built-in leeway for missing a class or a quiz (e.g., the lowest quiz or grade is dropped) and no make-up is offered, even if the absence is excused. The nature of the make-up work is at the discretion of the Course Director. Consult the course syllabus for the make-up policy for each course. A student with an excused absence will receive full credit for their performance on the make-up activity. Students must contact the OAA through TDX to work out the details of make-up work.

If there is more than one examination in the course, the student may take the subsequent examination(s) even if he or she was not able to make up the missed examination. If the student does not feel ready to take subsequent examinations due to the incident that caused the initial absence, the student should discuss his or her concerns with the Office of Student Affairs. If approved, the student will be allowed to complete the remaining course requirements at the end of the academic year.

If documentation is not provided within the established timeframe of 72 hours once TOR was submitted, (see above); the student will not be allowed to complete the make-up activity. However, if later the absence is excused, the student will be able to take an incomplete in the course and make-up the incomplete work before the end of the academic year.

If a student fails to take a make-up or remediation examination at the designated time (without approval), the student will receive a summary failure (a score of zero) for that examination and will be referred to the SPC.

Details regarding clinical rotations curricular absences can be found in the Clinical Education manual.

Academic Requirements for Student Leaders

Students must be in good academic and professional/conduct standing in order to apply for and maintain eligibility for Student Leadership Role(s). All Class Officers are strongly encouraged to connect early and consistently with the Assistant Dean of Students Affairs and LEAD Specialists for coaching and support.

Students are to remove themselves from all leadership roles in co-curricular activities associated with the University and/or with professional associations if they are no longer eligible for the position. Students who are in violation of this policy may be referred to the Student Performance Committee (SPC).

Examination Policies

For most examinations, students will sit in assigned seats, unless prior arrangements have been made with the Office of Academic Affairs (OAA). Examinations will be administered in the form of a computer-based exam, paper exam, practical exam, and/or oral exam. During scheduled examination hours, students will not be allowed to leave the exam room except in an emergency or as excused by a proctor. If a student is excused to leave the room temporarily, a proctor will accompany the student. The student's examination will be held until his or her return. No additional time will be granted for student's time out of the examination room.

OAA will allow one restroom break after two hours of examination time. This will mean no breaks for exams that are scheduled for two hours or less and one break for exams over two to four hours in duration. The "time clock" will continue for any break taken during the scheduled exam time (e.g., no additional time will be granted if a student takes a break during the exam). If you have a medical condition that may affect your need for more breaks, you will need to communicate with the Harris Family Center for Disability and Health Policy (^{HF}CDHP) about potential accommodations.

Once a student finishes an exam and leaves the examination room, he or she will not be permitted to re-enter the room until the examination is complete. All students' belongings, such as, but not limited to, cell phones, smart devices with or without recording ability notebooks, calculators, headwear and headsets, will be kept in front of the room. All technology (excluding laptops) must be turned completely off for the duration of all exams and not used for any reason. No food or drink (except label-free bottled water) will be allowed during examinations.

No student questions related to the exam or its content will be answered during the examination period. Students are permitted to point out typographical or computer errors in the examination.

Students who miss an examination with a documented TOR may not be in or near the designated testing area during or immediately following the examination period. Students who violate this policy may be considered as demonstrating academic dishonesty and may be subject to referral to the SPC.

If curriculum is given virtually, students are required to follow the testing protocols sent out from The Office of Academic Affairs (OAA). Students who may need accommodations based on testing protocols must contact ^{HF}CDHP in a timely manner in order to implement available options prior to any exam.

Irrespective of the manner or method of testing, students are expected to comply with all examination or testing protocols issued at the time of examinations. OAA houses all testing or examination protocols for the College. Students may contact OAA if they have questions related to an examination or testing protocol. The College and OAA reserve the right to modify testing or examination protocols, as appropriate, including but not limited to necessary edits required based on the method of testing (online,

hybrid, virtual, etc.). In instances where an examination or testing protocol has been modified, OAA will notify the students accordingly.

Violations of Examination Policies

Cheating, or actions that give the appearance of cheating, will not be tolerated. It is the responsibility of the student to avoid, rigorously, any situation that could unfairly increase their personal examination score or change (increase or decrease) any other student's examination score.

Students are not to discuss examination questions with other students during any examination, whether it is administered all at once, in segments, or over extended periods. Additionally, students are not allowed to discuss the examination with those who have not yet taken the examination.

If an examination proctor, (including a faculty member, fellow or teaching assistant administering a practical examination) observes a student behaving in a way that could be perceived as cheating, the proctor has the authority to refer the situation to the OAA, which may result in the student being referred to the SPC.

If a student observes a suspected violation during an examination, he or she should report this to the proctor and course coordinator rather than personally attempt an intervention. The proctor will determine what immediate action should be taken, with respect to the examination.

The College employs the use of various technologies for the delivery and assessment of the curriculum in many of the pre-clinical courses. Each student is bound by the Honor Code when using any means to record answers on all assessments. Any sharing of responses among classmates will be considered academic dishonesty (cheating) and a violation of the student honor code, which will be referred to the SPC. Any allegation that a student has violated these standards may be referred to the Student Performance Committee (SPC) for a hearing. For a full account of the hearing process applicable to allegations of the Standards to Student Conduct and associated College conduct policies and procedures, please refer to "Information for Students about Hearings Involving Alleged Violations of the Standards of Conduct", located in the General Section of the University Catalog. The Dean, or Dean's designee, has the authority to accept the recommendations or may make such other decisions, as they deem appropriate under the circumstances. The Dean, or Dean's designee, will issue a decision, in writing, to the student. A student may appeal the decision of the Dean, or Dean's designee, to the Provost. Dean's, or Dean's designee's, decisions related to grades or related to the imposition of academic probation and any associated terms/conditions of such probation are considered final and not appealable to the Provost (See University Catalog, Student Appeal Process).

National Boards (Licensing Examinations)

All students must take and pass APMLE Part I and II prior to graduation. Failure to pass any part of the APMLE board exams will result in the student being placed on academic probation. Students who fail any portion of the APMLE board exams are required to meet with their faculty mentor and The Dean, or Dean's designee, within one week of receiving the failing score. Students are permitted three attempts to pass the APMLE exams. Students who fail the APMLE Part I or Part II exam on three attempts are subject to dismissal. CPM has established the following policies and procedures:

APMLE Part I

- All students must take Part I of the APMLE at the first available sitting following the conclusion of final examination of the spring semester of the 2nd year unless it is determined by the Dean, or Dean's designee, that the student is not eligible. Failure to meet this deadline will result in the student being referred to the SPC and may result in probation. Part I may be taken at an APMLE approved testing center of the student's choice.
- Students may proceed to the third-year core clerkships as soon as they have taken APMLE Part I examination, or with prior approval of the Dean, or Dean's designee.
- CPM will permit three attempts on Part I.

Students who fail their first attempt of the APMLE exam will be placed on academic probation.

Students who fail the APMLE exam a second time may be removed from rotations and may be placed on academic suspension.

Students who fail Part I APMLE on all three attempts will be subject to dismissal from CPM.

APMLE Part II

- All students must take Part II of the APMLE at the first available sitting of their 4th year (January exam) unless it is determined by the Dean, or Dean's designee, that the student is not eligible. Failure to meet this deadline will result in the student being referred to the SPC and may result in probation.
- All fourth-year students are required to pass the APMLE Part II Exam.
- The APMLE Part II may be taken at an APMLE-approved testing center of the student's choice.
- The Office of Clinical Rotations & Graduate Placement will allow three business days away from the start of fourth year clerkships for a student to take the APMLE Part II.
- The Office of Clinical Rotations & Graduate Placement will notify each student's clerkship site of their "approved" absence to take the APMLE Part II examination after the student notifies the Office of Clinical Education of the date of his or her examination.
- Students shall not notify the clerkship directly. Additional time away to take the APMLE Part II will not be routinely authorized.
- If a student fails the APMLE Part II, the student may be removed from rotations until they take their second attempt to pass APMLE Part II.
- Students must successfully repeat the examination at the next possible iteration allowable by the APMLE.

- CPM permits three attempts on APMLE Part II unless specified otherwise by the SPC and the Dean, or Dean's designee.
- Students studying for a third attempt may be removed from rotations and placed on academic suspension. If removed from rotations, they may not re-enter the fourth year until notification of a passing score has been received by the Dean, or Dean's designee.
- Students who fail APMLE Part II on all three attempts will be subject to dismissal from CPM.

Requesting Testing Accommodations for APMLE

Students may request testing accommodations when taking the APMLE. If a student has established accommodations with the University, the CPM Dean listed on the application will be notified and will review and approve the request as needed.

If a student is requesting accommodations when taking the APMLE, they must follow the process outlined below:

- When completing the APMLE application at [Meazure Learning](#), students should select "Yes" on the ADA screen and specify the accommodations they are requesting.
- The **CPM Dean listed on the application** will be sent the request for review and, if the student has accommodations approved by CDHP which are in alignment with what the accommodations being requested for the APMLE the Dean will approve the request.
- If the student does not have established accommodations with the University, the CPM Dean, or the Dean's assigned delegate, will instruct them to submit supporting documentation (e.g., a doctor's note on letterhead detailing the requested accommodations) directly to Meazure Learning for approval. Students must email their supporting documentation to candidatesupport@meazurelearning.com. Once received, Meazure Learning will review the request, update the candidate's application, and resubmit it for the University's final approval. The school approver (The College Dean or their assigned delegate) will be notified of the change in the application status via email and review and approve the application. The application will not be completed or approved until this step is fulfilled.

Requests for accommodations must be submitted no later than 45 days prior to opening of the candidate's preferred testing window and candidates must submit their scheduling request at least 30 days prior to their preferred test date within the testing window.

Tutorial Assistance Program

A Tutorial Assistance Program (TAP) has been established to assist students experiencing academic difficulty. Students will be recommended for this program by a faculty mentor, professor, the CPM Learning Skills Specialist, or the Director of Student Affairs. Students may self-identify to TAP to receive assistance. The tutors will be chosen on the recommendation of the faculty in each discipline. The TAP department typically uses group tutoring. For assistance, contact the Learning Enhancement and Academic Development Office (LEAD).

Students who receive a final numeric score below 70% in a course by failing a remediation exam, or a cumulative numeric score below 70%, will be reviewed by the members of the SPC. Where deemed

appropriate, the SPC, after consultation with the course instructor, system coordinator, faculty mentor, and any other individuals they feel can provide insight into the student's academic performance, may recommend any of the following options to the Dean or the Dean's designee, who will make the final determination.:

- Take an examination or an assessment.
- Repeat the course or rotation.
- Repeat the academic year.
- Dismissal from the University.

The score/grade achieved by remediation will be the score/grade recorded except that the highest score/grade a student may earn by options 1 or 2 (above) is a score of 70% in the first two years and a "RPASS" in the last two years. The score/grade achieved by remediation will be re-recorded on the transcript along with the original score/grade. Numerical scores or grades earned during an attempted remediation of a course, system or clinical rotation will be reviewed critically by the SPC and the Dean of CPM, or Dean's designee.

In the case that the remediation exam date is scheduled prior to the students' scheduled SPC meeting date, the students is to partake in the remediation exam as invited to do so by the Office of Academic Affairs. The student will still need to meet with the SPC committee. Final decisions about the student academic status will still be determined through the SPC Committee and Dean's Office.

If a student is directed to repeat a course, the grade for repeated course will be recorded on the official transcript. Only the most recent grade received for a repeated course will be included in the student's GPA calculation. Students will be charged full tuition for repeated coursework.

Decisions regarding remediation will be made on an individual basis after considering all pertinent circumstances. The decision will be made by the Dean of CPM, or Dean's designee, based upon the recommendation of the SPC. The Committee will base its recommendation on the student's academic record and other considerations after consultation with the student's faculty mentor, course instructor, and system coordinator, clinical preceptor and the student involved, as is appropriate. A student who is required to remediate a course must be notified in writing by the Dean of CPM (or their designee) at least 15 business days prior to the remediation date, or within 15 business days after the close of the academic year in which the student is presently enrolled, whichever comes first. Notification must be sent either by Certified Mail or hand-delivered to the student and must be acknowledged with the signatures of the Dean or their designee and the student.

Exam Remediation Policy

Students will be charged full tuition for repeated courses.

Transcript Notation

In cases where a course is repeated, both the initial and subsequent grades will be noted on the official transcript, with only the most recent grade factored into the GPA calculation. In cases were remediation is necessary, passing remediation grades will be reported with the initial earned grade with a slash mark

70 to indicate a remediation occurred (example: 68/70). This applies to the first two years of curriculum (see above for the transcript notation on the last two years).

Remediation Process

For the Foundations of Medicine courses, students are expected to pass all barrier/threshold assessments. For all other courses, students are expected to pass with an overall percentage equal to or greater than 70%. Students who do not pass will have the opportunity to remediate.

1. **Initial Examination** – The first attempt at a course assessment.
2. **Retake Examination** – Retake examinations are not offered in all courses. Please refer to course syllabi. In courses in which a Retake is offered, if a student does not pass the initial exam, they will be allowed one retake.
3. **Remediation Examination** – In courses in which a Retake is not offered, and a student does not pass the initial exam they may attempt remediation through an exam. In courses in which a Retake is offered, and a student does not pass the Retake, they may attempt remediation through a remediation exam.

Remediation Limits

- Students may remediate no more than **two courses per academic year**.

Students exceeding this limit may be subject to review by the Student Performance Committee (SPC) for further academic standing determinations, including but not limited to repeating the academic year on probation or dismissal from the program.

Student Injuries and Illnesses in Clinical Settings

If a student is injured or is exposed to potentially infectious (includes blood borne pathogens) or hazardous substances during a clinical rotation the student is required to notify the clinical instructor immediately and seek assessment and/or treatment per facility policy. Follow-up care should be continued at the contracted clinical facility as needed and ordered by the evaluating health care professional. Expenses incurred are to be submitted to the student's personal insurance as the primary coverage and to the university as the secondary insurance, for the reported incident only. The Incident Report Form can be found on the university website and must be completed by the student and/or faculty and submitted electronically. There may also be a requirement to fill out a more detailed report within the student's program of study (please refer to specific program clinical handbook).

Protocol for Input on Matters of Student Concern

When an issue or dispute arises between students, the issue/dispute resolution process starts with communication among the involved students. If a satisfactory resolution is not arrived at that level, the matter should then be addressed with the faculty advisor. If the problem is not resolved at the faculty advisor/course director level, the matter should be brought to the appropriate college's Student Affairs personnel, then the College Dean, or Dean's designee. If the matter has not been resolved at those levels, the final arbiter is the Provost.

When an incident arises involving a faculty member, the first step in the issue/dispute resolution process is discussion with the faculty member. If the matter is not satisfactorily resolved at that level, then the

matter should be referred to the Department Chair, then Dean, or Dean's designee, in that order. The final arbiter is the Provost. Please note that grade appeals cannot be handled under this protocol.

When an incident arises involving a staff member, the dispute resolution process begins with the Supervisor/Department Chair followed by the Dean, or Dean's designee. The Office of Human Relations is the final arbiter.

Failure to follow this sequence of steps will only serve to delay the appropriate resolution of the issue or dispute as the matter will only be referred back to the correct level in this chain of responsibility. Specific college policies regarding issue/dispute resolution are indicated in the appropriate sections of this catalog.

Drugs and Alcohol on Campus Policy

The Drugs and Alcohol on Campus Policy can be located in the University Catalog. Students will be required to complete a drug screening along with a background check on an annual basis to be permitted to begin any clinical practice experiences. This is in addition to what is outlined in the University Catalog. Students are expected to be aware of, and abide by, both University and applicable College policies.

Standards of Academic Integrity, Professionalism, and Student Conduct ("Standards of Student Conduct")

The University Standards of Academic Integrity, Professionalism, and Student Conduct should be reviewed in the University section of the catalog. The standards outlined below are in addition to those outlined in the University Catalog. Students are expected to be aware of, and abide by, both University and applicable College policies.

Before Welcome Week, all first-year students will sign a copy of the CPM Handbook Student Agreement, CPM Student Honor Code, and CPM Student Pledge. By signing this document, students acknowledge that their entry into the study of podiatric medicine joins them to a profession that conducts itself according to a long-standing moral and ethical code. Further, students affirm that they will strive in all efforts to meet these standards for the betterment of the profession and the patients it serves. Students will be prompt, successfully perform their academic coursework and comport themselves in a professional manner.

Student Honor Code

"As future health care providers, students of WesternU/CPM will conduct themselves with honesty, integrity, and professionalism. Students may not cheat, deceive, steal, or tolerate anyone who does".

Student Code of Ethics

The following code of ethics will be adopted by every WesternU/CPM student:

I understand that it is a great privilege to study Podiatric medicine. Over the course of my training, I will assume extraordinary responsibility for the health and well-being of others. This undertaking requires that I uphold the highest standards of ethical and compassionate behavior. Accordingly, I have adopted the following statement of principles to guide me throughout my academic, clinical, and research work. I will strive to uphold both the spirit and the letter of this code in my years at WesternU/CPM and throughout my podiatric medical career.

Honesty

- I will maintain the highest standards of academic honesty.
- I will truthfully represent myself as a podiatric medical student at all times to patients, health care providers, College Faculty, Administration, and Staff.
- I will neither give nor receive aid in examinations or assignments unless expressly permitted by the instructor.
- I will follow the testing outlines provided by the Office of Academic Affairs for exams.
- I will be truthful with patients and will report accurately all historical and physical findings, test results, and other information pertinent to the care of the patient.
- I will be truthful with patients, the College Faculty, Administration, and Staff.

- I will conduct research in an unbiased manner, report results truthfully, and appropriately credit ideas developed, and work done by others.

Confidentiality

- I will regard confidentiality as a central obligation of patient care.
- I will limit discussions of patients to members of the health care team in settings removed from the public ear (e.g. not in elevators, hallways, cafeterias, etc.).

Respect for Others

- I will uphold a classroom atmosphere conducive to learning.
- I will interact with instructors, peers, administration, and staff in a considerate and cooperative manner.
- I will treat patients and their families with respect and dignity in both their presence and in discussions with other members of the health care team.
- I will interact with patients in a way that ensures their privacy and respects their modesty.
- I will interact with all members of the health care team, instructors, peers, The College Administration, and Staff in a considerate and cooperative manner.
- I will not tolerate discrimination based on race, gender, religion, sexual orientation, age, disability, or socioeconomic status.
- I will judge my colleagues fairly and attempt to resolve conflicts in a manner that respects the dignity of every person involved.

Responsibility

- I will conduct myself professionally--in my demeanor, use of language and appearance--in the presence of patients, in the classroom, and in health care settings.
- I will conduct myself in a professional manner with patients, faculty, staff, or other employees of WesternU/CPM.
- I will set patient care as the highest priority in the clinical setting.
- I will recognize my own limitations and will seek help when my level of experience is inadequate to handle a situation on my own.
- I will not use alcohol or drugs (including but not limited to cannabis) in any way that could interfere with my clinical responsibilities.

- I will not use my professional position to engage in romantic or sexual relationships with patients or members of their families.
- I will participate fully in the enforcement of this statement of principles. I realize that failure to take appropriate action is itself a violation of the principles.

Expectations of Faculty, Residents and Fellows

- I have the right to expect clear guidelines regarding assignments and examinations, as well as to have testing environments that are conducive to academic honesty.
- I cannot be compelled to and will not perform procedures or examinations which I feel are unethical or beyond the level of my training.
- I have the right not to be harassed or subjected to romantic or sexual overtures from those who are supervising my work.
- I have the right to be challenged to learn, but not abused or humiliated.

CPM Safety Pledge

I pledge to do my part to keep our community in good health as I return to the City of Pomona, CA and to the WesternU offsite location.

I understand I have a role in the fight against COVID-19 and commit to responsible actions and to being an accountable member of my community. I pledge to demonstrate personal integrity, respect for others, and support my university and surrounding communities by practicing:

- **PHYSICAL DISTANCING** in accordance with CDC recommendations, I will maintain six feet of physical separation from others whenever possible.
- **UTILIZATION of FACE MASKS/COVERINGS** when in a public setting where social distancing is difficult or not possible to maintain. I will wear a mask at all times when around people who don't live in my household to reduce the risk of spreading the virus.
- **COVERING COUGHS & SNEEZES** with a tissue when I cough or sneeze or use the inside of my elbow. I will throw used tissues in the trash and immediately wash my hands with soap and water for at least 20 seconds. If soap and water are not readily available, I will clean my hands with hand sanitizer that contains at least 60% alcohol.
- **HAND WASHING** often with soap and water for at least 20 seconds.
- **PRACTICE CARE** for others by staying home when I am sick, except to seek medical care.
- **TESTING** by getting a COVID-19 test if I have symptoms of COVID-19, have been in close contact with someone who is a confirmed COVID-19 case, or if my healthcare provider or local health department refers me to testing.

- **COMPLIANCE** with all campus safety guidelines asked of me by staff and faculty, regarding vaccination, PPE and isolation techniques while working in my hands-on curriculum environment to ensure the safety of myself and my peers that will help create a safe environment for learning critical hands-on skills.
- **NON-JUDGMENTAL UNDERSTANDING** and support for my peers, faculty and staff as well as anyone who may have come in contact with the virus.

I understand that I am bound by my integrity to honor this pledge to the best of my ability, not from fear of university action, but by my oath to encourage health and well-being. I will choose to demonstrate my commitment to improving the health of others through my words as well as my actions.

By taking the pledge to keep WesternU CPM in good health, I accept responsibility for myself and my actions and will do my best to prevent the spread of COVID-19.

Dress Code

The purpose of the College's dress code is to standardize the dress of students to promote professional standards with regard to safety, cleanliness, comfort, and image. All articles of clothing worn on campus, or any affiliated site must be clean, professional, and in good repair.

The dress code requirement must be adhered to while students are on campus or in clinical rotations. Certain courses and rotations may require specific dress (examples: scrubs for anatomy lab and professional dress for Clinical Rotations). Students are expected to be familiar with dress requirements for all curricular elements as detailed in the course syllabi, Clinical Education Manual, or as directed by faculty. While on clinical rotations, students are also expected to abide by dress requirements of the preceptors and affiliated facility.

Violations of the Standards of Student Conduct

WesternU and CPM expect all students to adhere to the standards of academic integrity, professionalism, and student conduct as published in the University Catalog. Any allegation that a student has violated these standards may be referred to the Student Performance Committee (SPC) for a hearing. For a full account of the hearing process applicable to allegations of the Standards to Student Conduct and associated College conduct policies and procedures, please refer to "Information for Students about Hearings Involving Alleged Violations of the Standards of Conduct", located in the General Section of the University Catalog

Standards of Academic Progress

Students must maintain a cumulative numeric score of at least 70% on a yearly basis and be on pace for completion of the program to be considered making satisfactory academic and professional progress. A final numeric score below 70% during the first two years, or any single numeric score below 70% in the last two years must be remediated for promotion or graduation. Students must complete all classes, rotations, and coursework within six years to be considered making satisfactory academic progress. DPM Advanced Standing students must complete all classes, rotations, and coursework within three years to be considered making satisfactory academic progress.

Student Performance Committee

The Student Performance Committee (SPC) is typically comprised of the committee chair, five faculty members, and the following ex officio members: The Director of Student Affairs, a representative from the Office of Academic Affairs, a representative from the office of clinical education (for clinical education cases), LEAD, and the SPC Staff Support. The SPC shall review the performance and comprehensive evidence of progress of students who are pursuing the DPM degree. Particular attention will be given to students in academic difficulty, as their grades are made available to the Committee by the Office of Academic Affairs. For purposes of clarification, “performance” is defined as those activities of a behavioral-conduct or academic nature that negatively affect or impair the continued ability of a WesternU/CPM student to matriculate, successfully, within CPM. The office of the Dean may provide additional input to this process.

The SPC may recommend to the Dean, or Dean’s designee, any of the following courses of action: promotion, academic or conduct probation, remediation, repeat of the academic year, dismissal from the College, academic or conduct suspension, and other appropriate recommendations. It may also recommend that no action be taken. The SPC also has the responsibility of recommending to the Dean, or Dean’s designee, the awarding of the DPM degree to all students who satisfactorily complete all requirements for graduation as stated in the University Catalog.

An academic hearing occurs when a student remediates a course for failing to achieve a numeric score of at least 70% or if a student is/has been subject to remediation in two or more courses per academic year. Exceeding this limit of remediated courses may lead to serious academic standing determinations, including but not limited to repeating the academic year on probation or dismissal from the program.

During an academic hearing, the student will be notified in writing of the hearing date and provided an opportunity to present to the Student Performance Committee (SPC).

According to the Exam Remediation Policy set out above, students may remediate no more than two courses per academic year. If a student exceeds this limit, they will be subject to review by the SPC for further academic standing determinations.

Students will be charged full tuition for any repeated courses.

All recommendations of the SPC shall be in writing to the Dean, or Dean’s designee. The OSA will notify the students in cases of probation. The Dean, or Dean’s designee, will notify students of the status of their leave of absence (LOA) requests. The Dean, or Dean’s designee, will notify the students in cases of remediation, suspension, dismissal, repeating of the academic year, or any sanctions resulting from a student conduct hearing.

Promotion

Promotion is defined as academic and professional progression from one academic year or program phase to the next. The SPC will recommend students to the Dean of CPM, or Dean's designee, for promotion. The SPC may not recommend a student for progression from one academic year to the next with an outstanding grade of "I", "U", "M", or "NCR" in a required course, final numeric score of less than 70%, or a yearly cumulative numeric score of less than 70%.

An essential element of the academic program is professionalism. Professionalism will be emphasized throughout the curriculum and is a stand-alone element in determining academic advancement and achievement. When considering a student for promotion, ethical, professional, and personal conduct will also be taken into consideration (see 'Standards of Academic Integrity, Professionalism, and Student Conduct' section of the University Catalog).

A student will be promoted if all academic, legal, and financial requirements of the University, as stated in the University Catalog, have been satisfied. All academic requirements must be met within a maximum of six academic years as a condition for recommendation for graduation.

Graduation

A student will be reviewed by the SPC and then approved by the faculty before being recommended to the Dean, or Dean's designee for the DPM degree provided the student:

- Is not on probation or suspension, has completed all prescribed academic and clinical requirements with a cumulative grade point average of above 70%, and has no outstanding grade of "I," "NCR," or "FAIL" or less than 70%.
- Has successfully taken and passed the APMLE Part I and Part II.
- Has demonstrated no serious deficiencies in ethical, professional, or personal conduct, as defined in University Catalog, "General Academic Policies and Procedures" section, which would make it inappropriate to award the degree of Doctor of Podiatric Medicine.
- Has complied with all the legal and financial requirements of the University as stated in the University Catalog.
- Has attended in person and participated in the commencement ceremony at which time the DPM degree is conferred. Unless special permission has been granted by the Dean, or Dean's designee, each student must participate in his or her respective commencement ceremony. If the Dean, or Dean's designee, grants special permission for excusal from commencement, the graduate shall be required to present themselves to the Dean, or Dean's designee, or their designee at another specified date to take their profession's oath before their diploma will be released. Requests for excusal will only be granted for extenuating circumstances, such as a prior military commitment.

Students may participate in commencement activities provided they will complete all requirements of the program by December 31 of that calendar year. No student will receive his or her degree until the student has completed all requirements for graduation. Degrees will be dated as appropriate to completion date.

Adverse Actions

Probation

Students may be placed on Probation for the following reasons (these are in addition to the reasons listed in the 'Satisfactory Academic Progress' section of the University Catalog):

- Inadequate academic progress as determined by the SPC. These include, but are not limited to, receiving a numeric score less than 70% in any course, a failing grade during clinical rotations, or a grade of NCR in a required CR/NCR course.
- A cumulative percentage score of less than 70%.
- Being subject to remake two or more times in an academic year
- Failing to pass APMLE Part 1 examination.
- Failing to pass APMLE Part 2 (including CSPE) examination.
- When directed to repeat a year for academic reasons.
- Failure to perform in a professional manner.
- Serious deficiencies in ethical or personal conduct.

When a student is placed on probation, they will be notified in writing and the reasons will be stated. Notification will be sent by Email, Secured Portal, Certified Mail or hand-delivered and acknowledged by signatures of the student and the Dean, or Dean's designee. Copies of the letter will be placed in the student's permanent file and distributed to the Chair of the SPC and the student's faculty mentor. The (SPC) will consider when the terms of the academic probation have been satisfied and recommend to the Dean, or Dean's designee, that probation can be rescinded.

On campus, students on probation must meet with their faculty mentor at least once a month. Off campus, students on probation must contact their faculty mentor once a month. It is the student's responsibility to contact the faculty mentor to arrange these meetings.

If a student fails any course, regardless of the number of credit hours, this failing grade will require a mandatory probationary action. The probation will take place immediately. Should the student fail additional course whether on probation or just removed from probation, this act will render the student subject to immediate dismissal from the DPM program.

A first- or second-year student on probation for a score less than 70% in the first semester will be removed from probation provided they have regained a cumulative score of at least a 70% and has remediated the course.

A first- or second-year student will be removed from probation once reviewed and approved by the SPC and the Dean, or Dean's designee, when all scores below 70% have been remediated satisfactorily according to the following Remediation section.

A third- or fourth-year student on probation because of a clinical grade below 70% or “Fail” grade must meet with the SPC. Upon recommendation of the SPC to the Dean, or Dean’s designee, the student may be allowed to remediate the rotation. Students who fail any portion of APMLE examination twice will be recommended for a remedial course of action under the direction of the Dean, or Dean’s designee, and Clinical Affairs. (see section “National Boards (Licensing Exams)” on pages 34-35)

Financial Aid Warning Policy (Title IV and Title VII)

Academic Probation Policy

If a student is not making Satisfactory Academic Progress (SAP) they will be placed on “Financial Aid Warning” status for the next payment period and continue to receive financial aid for that period. Financial Aid is any financial assistance offered to the student for paying for their education, such as loans, scholarships, Federal Work-Study, Grants and stipends (based on the criteria of the stipend). Students who fail to make SAP by the end of that payment period lose financial aid eligibility.

It is the policy of the Financial Aid Office (FAO) that once a student has been placed on academic probation for not meeting SAP standards as defined by the College, the Financial Aid Office will automatically place the student in a Financial Aid Warning status. During the next academic term if the student does not meet SAP standards and the College places the student on academic suspension the student will no longer be eligible for financial aid. If the student appeals the academic suspension and the appeal is approved, financial aid will be reinstated. If the student is directed to audit courses, those courses will not be charged tuition for the audited courses. Students that are required to repeat coursework are encouraged to meet with a financial aid counselor with respect to their financial aid eligibility.

Conduct Probation Policy

If a student has been placed on conduct probation by their College, it is the policy of the Financial Aid Office (FAO) that the student be placed on “Financial Aid Warning” status.

The financial aid warning for a conduct probation is a status that is assigned to the student who fails to meet the College’s standards for professional/personal conduct, as defined by the College. If the student does not meet the Colleges’ professional/personal conduct standards and the College places the student on conduct suspension the student will no longer be eligible for financial aid. Financial Aid is any financial assistance offered to the student for paying for their education, such as loans, scholarships, Federal Work-Study, Grants, and stipends (based on the criteria of the stipend). If the student appeals the conduct suspension and the appeal is approved, financial aid will be reinstated.

Students are encouraged to meet with a financial aid counselor with respect to their financial aid eligibility.

Remediation: Financial Aid Policy

If the student, at the end of the academic year, is still considered to be making unsatisfactory progress and must remediate, they are removed from the list of eligible Title IV and Title VII financial aid recipients. Remediation of courses during the summer is not covered by any financial aid and cannot be considered an expense item for the following year. Students will attend at their own expense. Appropriate tuition and fees will be determined by the Treasurer/Chief Financial Officer in consultation with the Provost and the Dean of Podiatric Medicine, or Dean’s designee.

Academic Suspension

Students who are deemed unable to continue in the curriculum due to inadequate performance and are required to repeat a given academic year or portion thereof will be placed on academic suspension through such time as they can resume their studies by starting the courses the student is required to repeat. Throughout the time the student is academically suspended, he or she is also on academic probation, and remains on academic probation until all coursework has been satisfactorily remediated. A student may not receive financial aid during any time of a suspension.

Conduct Suspension

A conduct suspension is a period of time when a student is barred from enrollment in an academic program because of a violation of applicable University or College conduct policies, as implemented through the procedures outlined in the University Catalog. A student may not receive financial aid during any time of suspension.

Summary Suspension

Actions that threaten or endanger, in any way, the personal safety, and/or well-being of self or others, or that disrupt or interfere with the orderly operation of the College or University are cause for immediate disciplinary action. Either the University President, Provost, or Dean, or Dean's designee, has the authority to summarily suspend a student when the student admits to guilt or when, in the opinion of these entities, such action is appropriate to protect the health or safety of any individual, or to preserve the orderly operation of the University. Further details regarding the summary suspension action can be found in the University Catalog.

Dismissal

The University may require withdrawal at any time it deems necessary to safeguard its standards of scholarship, conduct, and orderly operation. Examples of reasons the SPC will recommend dismissal of a student include, but are not limited to the following:

- Receiving a cumulative numeric score of less than 70% at the end of the first or second year.
- Receiving final percentage scores below 70% in two or more courses totaling more than 25% of the total credit hours for the first or second year. *
- Receiving numeric scores of below 70% in two or more clinical rotations in one academic year.
- Receiving a final percentage score of below 70% in a remediation or clinical rotation.
- Failing to pass the APMLE Part I or Part II (including CSPE) examination after three attempts.
- Failing any additional course while on academic probation because of a prior failure of a course.
- Demonstrates a consistent pattern of substandard academic performance and/or professional development.

**The Committee may recommend dismissal for a student receiving a final percentage score below 70% in three or more courses, even if the total unsatisfactory credit hours do not exceed 25% of the total credit*

hours for the first or second years. See the University Catalog section titled 'Dismissal' for more information.

Student Appeal Process

The Dean of CPM, or Dean's designee, has the authority to make decisions regarding a student's status in matters of academic suspension, student conduct, academic progression/promotion, and graduation. Any change in the Dean's, or Dean's designee's, decision regarding a student's status will be provided to the student in writing. If a student wishes, they may request an appointment with the Dean, or Dean's designee, to review the final decision prior to filing an appeal with the University Provost. If the Dean, or Dean's designee, then makes any changes to the student's status, it will again be communicated to the student in writing. A student may appeal the decision of the Dean, or Dean's designee, to the Provost. Dean's, or Dean's designee's, decisions related to grades or related to the imposition of academic probation and any associated terms/conditions of such probation are considered final and not appealable to the Provost (See University Catalog, Student Appeal Process).

Evaluation and Grading

Pre-Clinical Grading Scale

<u>Grade</u>	<u>Equivalent</u>	<u>GPA Points</u>
90-100%	Excellent	90-100
80-89%	Good	80-89
70-79%	Satisfactory	70-79
Below 70%	Unsatisfactory	0-69
CR	Credit	N/A
NCR	No Credit	N/A

ADMINISTRATIVE GRADES

<u>Grade</u>	<u>Equivalent</u>	<u>GPA Points</u>
AU	Audit	N/A
I	Incomplete	N/A
W	Withdrawal	N/A
M	Missing	N/A
WPC	Waived for Prior Credit	N/A

Clinical Grading Scale

All clerkships/clinical rotations, both required core and elective, are evaluated utilizing an Honors, High Pass, Pass, RPass or Fail system. Honors, Pass, RPass and Fail will be the only grades that will appear on the transcript in years 3 and 4 of the DPM program. Internally, for purposes of calculating class rank and GPA, the following system will be used for students completing coursework in years 3 and 4.

<u>Grade</u>	<u>Equivalent</u>	<u>GPA Points</u>
HON	Honors (91-100%)	100.00
HPASS	High Pass (81-90%)	90.00
PASS	Pass (70-80%)	80.00
RPASS	Remediated Pass (70%)	70.00
FAIL	Fail (69% or less)	69.00

ADMINISTRATIVE GRADES

<u>Grade</u>	<u>Equivalent</u>	<u>GPA Points</u>
AU	Audit	N/A
I	Incomplete	N/A
M	Missing	N/A
TR	Transfer	N/A
W	Withdrawal	N/A
WPC	Waived for Prior Credit	N/A

Evaluation of Students on Clinical Rotations

The “clinical faculty member of record” is the physician to whom the student is assigned for a given rotation according to the Rotations Office records. That physician is responsible for the rotation evaluation, which does not include assigning a rotation grade. Grades are determined by Clinical Rotation Committee based on the rotation evaluation and the OSCE results.

Recording of Clinical Grades

For any reason other than a clerical error, no grade may be changed more than twenty (20) business days after the Clinical Rotations Office reports it to the Registrar. Within those twenty (20) days, a grade may be changed only if the Rotations Office receives a signed statement from the preceptor specifying that such a clerical error had occurred.

Remediation (Clinical)

A failed rotation must be remediated by completing a comparable rotation. The percentage score assigned for obtaining a Pass on a remediated/repeated rotation following a failing grade will be set at 70% for class rank and GPA computation. Both the original course grade as well as the remediated grade will appear on the transcript, but only the remediated passing score of 70% will be used in GPA and class rank computations.

Incomplete Grade, "I"

An incomplete grade, "I," indicates that a student has not been able to finish all required work for issuance of a letter grade within the normally scheduled time of the course. An "I" is not counted in the grade point calculations until a letter grade is issued to replace the "I." A grade must be submitted before the student registers for the next academic term, unless other arrangements are made with the instructor, the Dean, or Dean's designee, and Clinical Affairs. Replacement of an "I" will be under the direction of the instructor with the approval of the Dean or their designee. It is to the student's advantage to arrange to make up any incomplete work as soon as possible. If the incomplete grade, "I," is not replaced by the conclusion of the next semester or within the otherwise specified period, the incomplete, "I," will become a Failure.

Incomplete Rotations

If a student leaves a rotation before it is finished without the permission of the Dean, or Dean's designee, or is asked to leave a rotation by the Associate Dean of Clinical Education & Graduate Placement, the Dean, or Dean's designee, or the core rotation site director, a score of "FAIL" on that rotation may be assigned by the Dean in consultation with the Dean of the CPM, or Dean's designee.

Credit Courses (CR/NCR)

Courses graded for Credit/No Credit are those designated by the faculty as courses required for promotion but not assigned numeric scores. The student must satisfy the requirements of these courses to receive credit.

Cumulative Numeric Scores (GPA)

The cumulative numeric score will be calculated at the end of each semester of the curriculum with the average of all course numeric scores weighted by the number of course credit hours attempted. If a course or clinical rotation is repeated or remediated, only the last score earned enters into the computation of the cumulative numeric score/grade point average, but the original numeric score remains on the student's transcript. After completion of the second-year program, a student with a cumulative numeric score of 75% or less may have all third-year clinical rotations assigned by the Assistant Dean of Clinical Education or their designee, in consultation with the Dean, or Dean's designee.

Grade Reports

Official grades are turned in to the Registrar from the Dean of CPM, or Dean's designee, at which time the Student Portal, my.westernu.edu, is updated. Official grade reports and unofficial transcripts will be

available on the Student Portal throughout the academic year. For more information on how to access the Student Portal, visit the Registrar's website. Additionally, non-official grade information is available through the Academic Progress Portal. A cumulative numeric score will be calculated and posted on the transcript. Class ranking is also available upon request in the Registrar's Office.

Credit Hour Calculation

Courses are rated at one credit hour for each 15 hours of lecture or 30 hours of laboratory and/or practice sessions. One credit hour will be assigned for each 40-hour week of clinical rotations.

Grade Appeals/Changes

No numeric score will be changed unless the instructor certifies in writing to the Assistant Dean for Preclinical Education and the Registrar that an error in computing or recording the score occurred. Changes are also recorded when the student has remediated a numeric score of below 70% or an Unsatisfactory grade after being directed to do so by the Assistant Dean for Preclinical Education of the College of Podiatric Medicine.

For on-campus courses, students have a maximum of ten (10) business days from the time examination results are returned to them to bring any errors or irregularities in grading to the attention of the instructor. All recorded scores remain on the official transcript unless a clerical error has occurred. Remediated scores are re-recorded along with the original numeric score in the first two years. Only the remediated score is calculated into the cumulative numeric score.

For third- and fourth-year students, no score will be changed after one month from the time the grade is recorded in the Office of the Registrar. Within the above-designated timeline, grade changes for clinical rotations will be considered only under the following three conditions:

- When the Office of Clinical Rotations receives a signed written statement from the preceptor specifying that a clerical error has been made regarding a score, and that the purpose of the change is to correct that clerical error.
- When the preceptor to whom the student was assigned submits a signed written request to have the score changed. The request must include justification for making the change.
- When a remediation process that has been directed by the members of SPC and authorized by the Dean, or Dean's designee, is completed and a written evaluation is received in the Office of Clinical Rotations.

All score changes must have the approval of the CPM Assistant Dean of Clinical Education or their designee. The student should make every effort to discuss their evaluation(s) with the assigned preceptor(s) prior to leaving the clinical rotation.

The final arbiter of any grade appeal is the Dean or their designee.

Curriculum Organization

The curriculum at CPM is a four-year, full-time academic and clinical program leading to granting the DPM degree. This curriculum stresses the interdependence of the biological, clinical, behavioral and social sciences. The emphasis is on educating physicians for general and podiatric medicine and surgery. CPM's educational program is centered on the basic concepts of general and podiatric medicine.

CPM identifies and develops the knowledge, the cognitive and psychomotor skills and the personal and professional behaviors required of a podiatric physician and surgeon to provide competent and comprehensive health care to all members of a family on a continuing basis.

Implementation

Clinical faculty and hospitals will implement the curriculum in a manner that balances the learning needs of the students and the educational resources available at the site including clinical situations, lectures, grand rounds, academic teaching conferences, workshops, skills labs and other activities encountered during clinical rotations. Clinical faculty and sites are encouraged to use a variety of teaching techniques including observation, monitored participation, video and audio recordings, computers, readings, individual discussions and presentations by students, faculty and others to enhance learning.

Summer Readiness and Preparedness Course (SPaRC)

WesternU's Learning Enhancement and Academic Development (LEAD) office offers a 3-week program that provides attendees with an introduction to biochemistry, genetics, microbiology/immunology. This optional introductory preparatory program is available to incoming DPM students. Students will purchase a workbook and remit a tuition fee of \$400. (See course description for PM 5001 below for additional information.)

Non-Clinical Experiences

Non-clinical experiences like conferences, tumor boards, quality assurance meetings, hospital committees, etc., are important for students to observe in order to help them understand and appreciate the full spectrum of activities expected of physicians. Supervising physicians are encouraged to invite students to participate in as many non-clinical experiences as are practical.

Procedural Skills

Part of the College's expectation is that students will gain a knowledge and understanding of various procedural skills. In addition to proficiency in the manual aspects of procedural skills, the College expects that the student will understand the indications, contraindications, risks, benefits, and alternatives for various procedures. Student performance of any procedure on a patient must be under the direct supervision of the assigned clinical faculty or their professional designee.

Clinical Rotations

The third- and fourth-year clinical clerkships are mandatory, 12 block rotations for each academic year. Each year's curriculum may be completed in any order by the Office of Clinical Rotations. The minimum length of a rotation is four weeks. Rotations may not be split. In the third and fourth years, core sites for each student will be determined by the Clinical Rotations team. Students may express a preference for core rotation sites. Students may elect to rotate at offsite programs during the elective Podiatric Medicine, Surgery, and Biomechanics clerkship block with approval by the Clinical Rotations Committee. This rotation occurs in both the third and fourth academic years.

Rotation Office

The Dean, or Dean's designee, and the External Rotation Coordinator are dedicated to providing students with the best possible clinical educational experience and providing an exceptional service to everyone with whom they interact. The Office will assist CPM and its students with planning for and completion of their clinical training in the third and fourth years of the educational experience.

Pre-Clinical Curriculum

Year 1

Year 1, Fall Semester		
Course	Title	Credit Hours
IPE 5000	An Interprofessional Approach I	1.00
PM 5000	Introduction to the Study of Medicine (ISOM)	7.00
PM 5005	Integrated Skills for the Study of Medicine 1 (ISSM 1)	3.00
PM 5090	Podiatric Medicine Principles and Practice 1 (PMP 1)	4.00
PM 5100	Foundations of Medicine 1 (FOM 1)	6.00
PM 5200	Foundations of Medicine 2 (FOM 2)	7.00
Semester Total:		28.00
Year 1, Spring Semester		
Course	Title	Credit Hours
IPE 5100	An Interprofessional Approach II	1.00
PM 5105	Integrated Skills for the Study of Medicine 2 (ISSM 2)	3.00
PM 5190	Podiatric Medicine Principles and Practice 2 (PMP 2)	3.50
PM 5300	Foundations of Medicine 3 (FOM 3)	11.00
PM 5400	Foundations of Medicine 4 (FOM 4)	10.00
Semester Total:		28.50
Year 1 Total:		56.50

Year 1 (Intensive Summer Anatomy Students – ISAC)

Year 1, Fall Semester		
Course	Title	Credit Hours

Course Descriptions

Courses listed in this catalog are subject to change through normal academic channels. New courses and changes in existing course work are initiated by the appropriate disciplines, departments or programs, approved by the Curriculum Committee, the faculty, the Dean of CPM, or Dean's designee, and the Provost. CPM uses a combination of numeric scores and letter grades. A numeric score—listed as a percentage—is used in the PMS I and II years and a 4-value letter grade is used in the last two years.

IPE 5000 An Interprofessional Approach I (1.0 credit hour, CR/NCR)

This course is a required university seminar for all first-year health professional students. This course will introduce professions across various fields with content related to roles, responsibilities, team, teamwork, communication, values and ethics. Introductory level content related to cultural humility, social determinants of health, and health systems will be explored. Activities in this course may include exposure level asynchronous lectures, interactive health professions program exposure, and in-person group/team experiences. Experiences will integrate elements common to all professionals such as ethical, behavioral, social, and psychological. This course is a graduation requirement for all health professional programs with attendance required. Absences may be excused but this does not exclude students from the responsibilities associated with the course and required for its completion.

IPE 5100 An Interprofessional Approach II (1.0 credit hour, CR/NCR)

This course is a required university seminar for all first-year health professional students. Working in interprofessional teams, this course builds upon the knowledge and experience gained in the IPE 5000 course. Activities in this course may include asynchronous lectures, clinical scenario role-playing, synchronous discussion sessions, in-person/group team experiences, health events. Experiences will integrate elements common to all professionals such as ethical, behavioral, social, and psychological with increasing levels of complexity. This course is a graduation requirement for all health professional programs with attendance required. Absences may be excused but this does not exclude students from the responsibilities associated with the course and required for its completion.

IPE 6000 Interprofessional Team Training in Health Care I (1.0 credit hour, CR/NCR)

IPE 6000 will continue to build upon the knowledge from the IPE 5000 series but will elevate learning activities deeper in the immersion phase expanding upon knowledge gained in previous IPE courses with additional community health event planning experiences to apply advanced tools and strategies that are crucial in working as a collaborative healthcare team. Activities in this course include immersion phase level activities such as asynchronous recorded lectures, mock patient experiences, synchronous discussion sessions, in-person/group team experiences related to health systems, patient advocacy, health event planning, and/or interprofessional research exposure. This course is a graduation requirement for all health professional programs with attendance required. Absences may be excused but this does not exclude students from the responsibilities associated with the course and required for its completion.

IPE 6100 Interprofessional Team Training in Health Care II (1.0 credit hour, CR/NCR)

This course continues to build on experiences in IPE 6000. In a culminating semester for the foundational IPE course series, students will deepen their knowledge gained in prior IPE courses and the current IPE 6100 entry-level content via asynchronous lecture and through activities that can include health event

planning, community health learning event, team/group in-person experiences related to health systems, patient advocacy, and/or interprofessional research exposure. This course is a graduation requirement for all health professional programs with attendance required. Absences may be excused but this does not exclude students from the responsibilities associated with the course and required for its completion.

PM 5000 Introduction to the Study of Medicine (ISOM) (7.0 credit hours)

The Introduction to the Study of Medicine provides a first look at the fundamental basic science and clinical concepts that will allow a student to succeed in learning the foundations of medicine.

PM 5001 Summer Preparedness and Readiness Course (SPaRC) (0 credit hours, CR/NCR)

In an interprofessional environment, the SPaRC prepares incoming students for the rigors of their program with an introduction to various curriculum topics including the skeletal system, gross anatomy lecture and cadaver lab, and pharmacology. Additional lecture overviews to program-specific content are also provided. Academic skills presentations focus on enhancing study, test taking, time management and the development of EQ skills. Acceptance into this program is at the discretion of the coordinating office. The course is elective and does not meet any specific requirements of the program curriculum. For additional information, contact the Learning Enhancement and Academic Development office (LEAD).

PM 5002 – Intensive Summer Anatomy Course (0.0 credit hours, CR/NCR)

The intensive summer anatomy version provides students with an understanding of the superficial and deep anatomical structures and their arrangement to one another while emphasizing normal function and clinical features of the human body. Through laboratory dissections of cadavers, students will learn the language of anatomy and clinically important relationships. Particular attention will be paid to the neurovascular bundles throughout the entire body. In addition to dissections, models, radiographs, clinical presentations and special demonstrations are employed to emphasize current clinically relevant structures and presentations.

The sum total of this fast-paced course is that students will be able to identify all the bones, organs, muscles, arteries, veins, nerves and lymphatic structures needed to be successful in the subsequent podiatric curriculum, and will be able to identify the anatomical defects, injuries, and malformations implicit in the clinical conditions interspersed within the dissection, labs, lectures, and examinations. Students are selected for this course based on GPA and MCAT scores, as well as previous course work in anatomy. No separate fee is charged as the student registers for medical school upon matriculation into this course.

PM 5003A ISAC Facilitation (0.0 credit hours, CR/NCR)

Prerequisites: Completion PM 5002 with a final percentage score of 80% or higher and permission of the Course Director. Students enrolled in this elective course will assist the other first-year podiatric medicine students in the dissection of cadavers and otherwise aid students in the Foundations of Medicine courses. Other types of teaching assistance, including prosecting difficult-to-identify structures, may also be required.

PM 5003B ISAC Facilitation (0.0 credit hours, CR/NCR)

Continuation of PM 5003A.

PM 5005 Integrated Skills for the Study of Medicine 1 (ISSM 1) (3.0 credit hours)

The ISSM series of courses supports CPM's mission of preparing student to become technically competent and critical thinkers who are humanistic, professional, lifelong learners, and compassionate physicians

who are prepared for graduate medical education. This course also helps to prepare students for the APMLE Boards Part 1 examination. Board-style cumulative exams are given at the end of each semester to provide formative feedback to students on their board preparations. High yield board topic reviews are conducted annually. Critical partnerships for these course goals include the LEAD office to provide workshops on study and test taking skills, and faculty mentors to guide students through professional development, career counseling, and provide the tools students will require to be successful podiatric physicians. Professional development guidance and opportunities are also provided by the Office of Student Affairs. Please refer to syllabi for any information regarding Conference Week.

PM 5090 Podiatric Medicine, Principles, and Practice 1 (PMP 1) (4.0 credit hours)

This course presents an introduction to foundational concepts in lower extremity anatomy, surface anatomy, podiatric radiology, and biomechanics from an evidence-based perspective. Delivery modalities include lectures, hands-on workshops and live or virtual lab experiences. Content from this course is reinforced in later PMP courses where students will learn how to critique relevant information and expand their understanding and use of this foundational information in the assessment and decision-making process of patient care.

PM 5100 Foundations of Medicine 1 (FOM 1) (6.5 credit hours)

The Foundations of Medicine course series provides students with foundational basic science that is integrated with clinical science, creating a high-yield experience relevant for a future practicing clinician. The series covers core basic science principles and all human health systems in a spiral learning process that allows students to layer complex concepts as they progress while reinforcing foundational concepts. Delivery modalities include lectures, hands-on skills workshops, use of standardized patients, and live or virtual lab experiences. These courses integrate the needed knowledge, skills, and attitudes to prepare a student to become a whole physician who specializes in podiatric medicine and surgery.

PM 5105 Integrated Skills for the Study of Medicine 2 (ISSM 2) (3.0 credit hours)

Continuation of PM 5005.

PM 5190 Podiatric Medicine, Principles, and Practice 2 (PMP 2) (3.50 credit hours)

Prerequisite PM 5090. The course introduces the principles of a clinical approach to the management of a variety of common conditions affecting the foot, ankle and lower extremity from an evidence-based medicine perspective. This is accomplished by layering podiatric principles in medicine, biomechanics, and surgery with management principles for problem solving and quality patient care. This course builds on the foundations introduced in PM 5090. Students will learn how to critique relevant information and understand strategies for clinical decision-making, which will help them develop a pattern to lifelong learning.

PM 5200 Foundations of Medicine 2 FOM 2 (8.00 credit hours)

Continuation of PM 5100.

PM 5300 Foundations of Medicine 3 (FOM 3) (10.0 credit hours)

Continuation of PM 5200.

PM 5400 Foundations of Medicine 4 (FOM 4) (10.50 credit hours)

Continuation of PM 5300.

PM 6000 Advanced Study of Medicine (ASOM) (0.0 credit hours)

A zero-unit place holder for any student returning to the second year and not having already passed ASOM. The Advanced Study of Medicine provides a first look at the complex basic science concepts of pathophysiology, microbiology, and pharmacology, as well as the clinical concepts that will allow a student to succeed in learning podiatric medicine.

PM 6000X Advanced Study of Medicine (ASOMX) (0.0 credit hours)

A zero-unit place holder for any student returning to the second year and not having already passed ASOM. The Advanced Study of Medicine provides a first look at the complex basic science concepts of pathophysiology, microbiology, and pharmacology, as well as the clinical concepts that will allow a student to succeed in learning podiatric medicine.

PM 6005 Integrated Skills for the Study of Medicine 3 (ISSM 3) (3.0 credit hours)

Continuation of PM 5105.

PM 6090 Podiatric Medicine, Principles, and Practice 3 (PMP 3) (3.5 credit hours)

Prerequisite PM 5190. The course expands the principles of a clinical approach to the management of more complex conditions affecting the foot, ankle and lower extremity from an evidence-based medicine perspective. The course continues to layer podiatric principles in medicine, biomechanics, and surgery with management principles for problem solving and quality patient care. This course builds on the foundations introduced in PM 5090 and PM 5091. Students continue to learn how to critique relevant information and understand strategies for clinical decision-making, which will help them develop a pattern to lifelong learning.

PM 6100 Foundations of Medicine 5 (FOM 5) (11.50 credit hours)

This course marks the start of the Foundations of Medicine courses for second year podiatric medical students and provides them with the more complex basic sciences, including pathophysiology, microbiology, and pharmacology, as well as advanced health systems sciences as they relate to body systems. These courses continue to integrate the needed knowledge, skills, and attitudes to prepare a student to become a podiatric physician.

PM 6105 Integrated Skills for the Study of Medicine 4 (ISSM 4) (6.5 credit hours)

Continuation of PM 6005.

PM 6190 Podiatric Medicine, Principles, and Practice 4 (PMP 4) (3.5 credit hours)

Prerequisite PM 6090. The course further expands the principles of a clinical approach to the management of highly complex conditions affecting the foot, ankle and lower extremity from an evidence-based medicine perspective. The course continues to layer podiatric principles in medicine, biomechanics, and surgery with management principles for problem solving and quality patient care. This course builds on the foundations introduced in PM 5090, PM 5091 and PM 6090. Students continue learning how to critique relevant information, understand and apply strategies for clinical decision-making, which will help them develop a pattern to lifelong learning.

PM 6200 Foundations of Medicine 6 (FOM 6) (7.00 credit hours)

Continuation of PM 6100.

PM 6300 Foundations of Medicine 7 (FOM 7) (10.50 credit hours)

Continuation of PM 6200.

PM 6400 Foundations of Medicine 8 (FOM 8) (7.00 credit hours)

Continuation of PM 6300.

PM 7010 General Medicine (Inpatient Medicine) (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in family medicine, including clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication. In subsequent courses in this series, students are exposed to progressive involvement and independence in patient management.

PM 7020 Internal/Outpatient Medicine I (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general internal medicine and/or in an internal medicine sub-specialty such as gastroenterology, pulmonology, or cardiology. Expected competencies include clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication. In subsequent courses in this series, students are exposed to progressive involvement and independence in patient management.

PM 7021 Internal Medicine II (Medicine Subspecialty) (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general internal medicine or in an internal medicine subspecialty such as gastroenterology, pulmonology, or cardiology. Expected competencies include clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication. In subsequent courses in this series, students are exposed to progressive involvement and independence in patient management.

PM 7030 Surgery I (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general/vascular surgery including clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication. In subsequent courses in this series, students are exposed to progressive involvement and independence in patient management.

PM 7050 Surgical Elective (Sub-Specialty Surgery) (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in one of the surgical clinical Subspecialties including clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication.

**PM 7060 Podiatric Medicine, Surgery, and Biomechanics/Orthopedics I
(8.0 credit hours, HON/HPASS/PASS/FAIL)**

This course provides supervised clinical education in podiatric medicine, surgery, and biomechanics/orthopedics. The student will be afforded progressive experiences in their development of technical procedural skills in all phases of podiatric medicine surgery and biomechanics. Emphasis will be placed on development of clinical management, technical/procedural skills, patient education, and interpretation of diagnostic data, management plans, and inter-professional communication. Throughout the course, the tools essential to becoming a competent podiatric physician and life-long learner are emphasized.

**PM 7070 Podiatric Medicine, Surgery, and Biomechanics/Orthopedics II
(4.0 credit hours, HON/HPASS/PASS/FAIL)**

Prerequisite: PM 7060. Continuation of PM 7060.

**PM 7080 Elective Podiatric Medicine, Surgery, and Biomechanics/Orthopedics (Externship I)
(4.0 credit hours, HON/HPASS/PASS/FAIL)**

Continuation of PM 7060, which can be completed at an affiliated rotation offsite.

**PM 7090 Elective Podiatric Medicine, Surgery, and Biomechanics/Orthopedics (Externship II)
(4.0 credit hours, HON/HPASS/PASS/FAIL)**

Continuation of PM 7080, which can be completed at an affiliated rotation offsite.

PM 7095 Clinical Medicine Elective (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general/family medicine in the inpatient setting, including clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication.

PM 7510 General/Internal Medicine (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general/family medicine in an inpatient setting, including clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication. In subsequent courses in this series, students are exposed to progressive involvement and independence in patient management. This rotation will serve as a sub-internship for students.

PM 7521 Surgical Elective II (Subspecialty Surgery) (4.0 – 6.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general surgery or one of the surgical subspecialties such as ophthalmology, orthopedic surgery, urology, cardiovascular surgery, vascular surgery, interventional radiology, plastic/hand surgery, or neurosurgery. Expected competencies include clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and interprofessional communication. In subsequent courses in this series, students are exposed to progressive involvement and independence in patient management. This rotation will serve as a sub-internship for students.

PM 7530 Surgery II (Sub-internship) (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general/vascular surgery. Expected competencies include clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication. In subsequent courses in this series, students are exposed to progressive involvement and independence in patient management. This rotation will serve as a sub-internship for students.

**PM 7545 Podiatric Medicine, Surgery, and Biomechanics/Orthopedics III
(4.0 credit hours, HON/HPASS/PASS/FAIL)**

This course provides supervised clinical education at WesternU's clinical sites in podiatric medicine, surgery, and biomechanics/orthopedics. The student will be afforded advanced, progressive experiences in their development of technical procedural skills in all phases of podiatric medicine, surgery, and biomechanics. Emphasis will be placed on development of clinical management, technical/procedural skills, patient education, and interpretation of diagnostic data, management plans, and interprofessional communication. Throughout the course, the tools essential to becoming a competent podiatric physician

and life-long learner are emphasized. The goal is to help the student to successfully transition into postgraduate resident training and podiatric practice.

PM 7550 Elective - Pediatrics/Medicine Subspecialty (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in general internal medicine or in one of the internal medicine subspecialties such as gastroenterology, pulmonology, neurology, endocrinology, cardiology, infectious diseases or geriatrics or pediatrics, including clinical management, technical and procedural skills, interpretation of diagnostic data, patient education, development of diagnostic and management plans, and inter-professional communication.

PM 7560 Elective - Podiatric Medicine, Surgery, and Biomechanics/Orthopedics (Externship IV) (4.0 credit hours, HON/HPASS/PASS/FAIL)

This course provides supervised clinical education in podiatric medicine, surgery, and biomechanics/orthopedics. The student will be afforded advanced progressive experiences in their development of technical/procedural skills in all phases of podiatric medicine surgery and biomechanics. Emphasis will be placed on development of clinical management, technical/procedural skills, patient education, and interpretation of diagnostic data, management plans, and inter-professional communication. Throughout the course, the tools essential to becoming a competent podiatric physician and life-long learner are emphasized. The goal is to help the student to successfully transition into a post-graduate resident and eventual podiatric practice.

PM 7570 Elective Podiatric Medicine, Surgery, and Biomechanics/Orthopedics (Externship V) (4.0 credit hours, HON/HPASS/PASS/FAIL)

Continuation of PM 7560.

PM 7580 Elective Podiatric Medicine, Surgery, and Biomechanics/Orthopedics (Externship VI) (4.0 credit hours, HON/HPASS/PASS/FAIL)

Continuation of PM 7570.

PM 7590 Elective Podiatric Medicine, Surgery and Biomechanics/Orthopedics (Externship VII) (4.0 credit hours, HON/HPASS/PASS/FAIL)

Continuation of PM 7580.

PM 8055 Advanced Study of Skills in Medicine I (3.0 credit hours, HON/HPASS/PASS/FAIL)

The Advanced Study of Skills in Medicine I course builds upon the knowledge and skill learned during the two previous years at CPM. The goal is to help the student to successfully transition into clerkships during the fourth year, postgraduate resident training and podiatric practice. This is accomplished by enabling the student to apply general knowledge to specific clinical applications. In addition, Advanced Study of Skills in Medicine I emphasizes medical professionalism and helps the students sharpen skills that are vital to life-long learning. Information is presented through one or more modalities including online and/or on-campus sessions. Successful completion of Advanced Study of Skills in Medicine I is a requirement for graduation and for students entering the PMS4 year of training.

PM 8555 Advanced Study of Skills in Medicine II (3.0 credit hours, HON/HPASS/PASS/FAIL)

The Fourth Year Didactic Program will provide students with additional knowledge and skill to complement the clinical experience. The knowledge obtained from PMP I – IV will be refined through these sessions.

Students will utilize skills in both written and oral presentation and apply them during the didactic sessions. Complex critical thinking and higher cognitive level reasoning skills are to be applied during discussions that will take place in each session. It is also expected that the fourth-year podiatric medical student will exhibit a level of professionalism and self-motivation appropriate for the expectations and practices of each didactic session.

The didactic program will occur in December and January and be taught utilizing several learning formats including: virtual doctors office, lecture, student-led presentations on historical medical articles and other activities. Students are expected to be prepared for each session by reading appropriate articles and other materials. Students are to review materials related to each topic assigned. If needed, students are expected to seek additional literature in order to further understand topics discussed during each session. Students are encouraged to work closely with their peers, residents and attending for feedback and support as they develop their fundamental knowledge of podiatric medicine, surgery and biomechanics. Outcomes previously used during the preclinical curriculum in the students' first, second and third years will be utilized to maintain consistency throughout students' first 4 years of education.

Honors and Awards

The following awards are considered for presentation to DPM students annually:

ABPM Graduate Merit Award
ACPM Scholar Award
Arthur Madorsky MD Memorial Scholarship
Bako Medical Education Foundation Endowed Scholarship
Blaine Labs Award
California Podiatric Medical Association Scholarship
Commander Kim Voth Wound Care Endowed Scholarship
David Shofler DPM Memorial Scholarship
Dean's Leadership and Service Award
Dean's List
Dean's Vision Award
East West Scholarship
Extremitas Editor's Choice Award
Franklin Kase Endowed Scholarship
Gary P. Jolly Lifelong Learner Award
Greg Allen Memorial Scholarship
Imhotep Scholarship
Lawrence Family Scholarship
Louis T. Bogy Award
Michael L. Stone, DPM Outstanding Professional Conduct Award
Oliver Foster Scholarship
Osman B. Beller M.D. & Naomi Beller
President's Society Award
Richard A. Bond Endowed Scholarship
Towne & Gown Golf Classic Scholarship
WesternU Alumni Association Scholarship

Academic Calendar

Fall 2025	
May 27-29, 2025	Orientation/Welcome Week DPM-AS (Year 1)
June 2, 2025	Fall Classes/Rotations Begin (Years 3, 4, & DPM-AS Years 1 and 2)
June 19, 2025	Juneteenth Holiday – No Classes
June 16, 2025	ISAC Course Begins (Year 1, ISAC Students)
July 4, 2025	Independence Day Observed – No Classes*
August 4-8, 2025	Orientation/Welcome Week (Year 1)
August 9, 2025	White Coat Ceremony (Year 1)
August 11, 2025	Fall Classes Begin (Years 1 and 2)
September 1, 2025	Labor Day – No Classes*
October 13, 2025	Indigenous Peoples' Day – No Classes*
November 11, 2025	Veterans Day – No Classes*
November 26, 2025	Thanksgiving Recess Begins @ 5:00 p.m.*
November 28, 2025	Fall Classes/Rotations End (Years 3, 4, & DPM-AS Years 1 and 2)
December 1, 2025	Fall Classes Resume (Years 1 and 2)
December 19, 2025	Fall Classes End (Years 1 and 2)
December 22, 2025	Winter Recess Begins @5:00 p.m. (Years 1 and 2)
Spring 2026	
December 1, 2025	Spring Classes/Rotations Begin (Years 3 & 4, DPM-AS Years 1 & 2)
January 5, 2026	Spring Classes Begin (Years 1 and 2)
January 19, 2026	Martin Luther King Jr. Day – No Classes*
February 16, 2026	Presidents' Day – No Classes*
March 23, 2026	Spring Break Begins (Years 1 and 2)
March 30, 2026	Spring Classes Resume (Years 1 and 2)
May 18-20, 2026	WesternU Commencement
May 20, 2026	Spring Rotations End (Year 4, DPM-AS Year 2)
May 29, 2026	Spring Rotations End (Year 2, 3, & DPM-AS Year 1)
May 25, 2026	Memorial Day – No Classes*
June 5, 2026	Spring Classes End (Year 1)

**Students in clinical rotations observe their preceptor's hours, which may include working on federal holidays.*
