

The LiveSafe app now has updated features for COVID-19 self-screening and reporting. LiveSafe still has the same convenient features that allow you to connect immediately with campus security with a simple message, a photo tip, or a direct phone call.

You may now also complete a COVID-19 symptom self-screen for campus visits, access the most up to date COVID-19 information for WesternU, and report incidents such as suspicious behavior, or COVID-19 related violations or tips.

Please Visit the University Student Affairs LiveSafe Website for Important Information

- <u>University Student Affairs LiveSafe Site</u>

New COVID-19 Features on LiveSafe

- Once the app is downloaded, you may select from any of the previously existing features, as well as the following COVID-19 related features:
 - o Click any link below to jump directly to that option
