

## **Student Consumer Information Disclosures**

### ***Notice to enrolled students***

Schools are required to distribute to all enrolled students a notice of the availability of information it must provide in regards to consumer information to ensure fairness and transparency for all higher education consumers. Western University of Health Sciences Financial Aid Office has developed a page on our web site that addresses the general categories that are required by the Department of Education to meet federal regulations.

Western University's Financial Aid Office is committed to providing comprehensive student aid information to its students and families to help understand consumer information as it relates to various aspects of the institution's policies, procedures and costs.
