

WesternU Campus Security

Safety and Security on campus is an important issue for everyone who comes to Western University of Health Sciences. The campus is located in the heart of downtown Pomona, a busy district of businesses, restaurants, and nightclubs.

We have a record of few crimes and a safe environment.

SAFETY TIPS

Please take into account the following Safety Tips:

- At night, walk with a friend or group. If you have no one to walk with, call the Campus Security Desk for a Student Safety Escort at 909-706-3000.
- Avoid shortcuts. Plan the safest route to your destination; choose well-lighted, busy pathways.
- Familiarize yourself with the layout of the campus.
- Be alert and aware of the people and environment around you.
- Trust your instincts. If someone makes you uncomfortable, even in daylight, do what is necessary to move away from him or her. Note the description of the person following you.
- If you feel that someone is following you, go immediately to a nearby location where there are more people.
- Carry your purse close to your body and keep a firm grip on it: carry your wallet in an inside coat pocket or your front pant pocket.
- Keep your keys separate from your purse or backpack.
- Do not overload yourself with bags or packages and avoid wearing shoes that restrict your movements.
- Walk with a confident stride; keep your head up and look around.

When driving and parking on the university campus, please take into account the following safety tips:

- Keep your vehicle locked at all times when it's parked and when you are driving it. Keep windows rolled up high enough so that an intruder cannot reach inside.
- When you return to your vehicle, look around it and inside it before you get in.
- Keep valuables out of sight. Lock bags and packages in the car's trunk.

As a reminder to students and employees who stay late, relocate your vehicle to a location closer to where you are working/studying.
