Veterinary Medicine

CVM 7566 Selective Shelter Medicine Rotation

- The site must be a public or private practice or shelter, staffed by at least one licensed veterinarian who meets the preceptor guidelines.
- The caseload/activity level must be of an adequate number to provide a rich educational experience and the majority of the cases must include shelter patients.
- There must be the presence of or access to appropriate diagnostic service components, physical facilities, medical records, operational policies and procedures, and animal housing facilities consistent with the mission of the site. If the practice is strictly ambulatory/mobile, there will be an exception made to requirements for animal housing.
- The site must provide a collaborative learning environment with student participation as a team member in the management of the patient (or patient/population), including the diagnostic and treatment plan based on signalment, history, physical examination findings, imaging studies, clinical pathology reports, and problem-oriented decision making.
- There must be reference resources available on-site either in electronic or paper form. If the practice is strictly ambulatory/mobile, reference material should be available in the ambulatory vehicle in either hard copy or electronic format.
- There must be no State Veterinary Licensing Board actions against the practice or clinician(s) in the practice.
- The site must maintain a current and clear premise license as required by state or local laws (if applicable).
