

TURKEY AND BROILER HEALTH MANAGEMENT SCHOOL

MONDAY, MAY 23, 2016 - TUESDAY, MAY 24, 2016

BEST WESTERN PLUS INN TOWNER AND THE HIGHLAND CLUB
2424 UNIVERSITY AVENUE,
MADISON, WISCONSIN 53726

GENERAL INFORMATION

The two-day Turkey and Broiler Health Management School is designed to provide in-depth lecture presentations and interactive hands-on training to those individuals working in the turkey and broiler industry. The primary goal of this year's school is to provide practical information on medications and vaccinations as it relates to the turkey and broiler industry.

Moreover, participants will be able to work-up real disease cases to evaluate their field diagnostic training and to learn about the impacts of poultry management on these diseases. The school will conclude with an interactive discussion on diseases of importance to today's turkey and broiler producer. Certificates will be awarded upon successful completion of the two-day workshop.
